At the above address we have just recently finished the last one of ten other fine dwellings, built within the past year. This one is as attractive, both inside and and out, as any of those built and sold by us in this addition, and should sell as readily as the others. The materials and workmanship are first-class in every respect. The design is a bungalow one of six rooms all on one floor, with floored attic and sleeping porch above, and a large cemented basement with a fully guaranteed furnace, laundry sink, coal bins, etc. The living rooms are large and roomy and are finished in oak and have beam cellings. There are two book-cass pedestals opening into the parior; diling froom has paneled walls and plate rail. Bath room is finished in white enamel, with best of plumbing fixtures throughout. Good sized lot: front yard sodded, street paved, paving paid for. The location is a very choice one, and yet the price we are asking on the entire property is only \$4,500. Harris street is a short street, one block north of Poppleton Ave., between Park Ave. and 20th Ave. Suitable terms can be arranged. SCOTT & HILL,

SHEEP-Buyers were slow in filling orders again today, and as the market was liberally supplied for a Tuesday most as leaven were satisfied in getting orces generally steady with Monday. Trade was extremely quiet most of the foremon, and very few offerings changed hands during that time. Clipped lambs were most sought after and among the early sales were two loads of such grades at \$7.25. A couple of cars of clipped wethers held over from yesterday brought \$5.65. Very little trading was done in wooled lambs until late in the day, which was due partly to the wet condition of the fleeces.

There were in all something like 32 cars, or \$,500 head, reported, being more than a week ago, two weeks ago and one year ago. This makes for the first two days of the week about 19,500 head, as against 14,183 head for the same days last week, 20,574 head two weeks ago and 7,383 during the corresponding time one year ago. Lambs—most of which were aborn—comprised the entire receipts, and in point of quality the supply was about the same as on Monday.
