BID FOR NEW REFORMATORY

Clyde Barnard Has Proposition to Locate it at Table Rock. HASTINGS ALSO WILL APPLY State Electric Medical Society Holds Meeting at Lincoln to Discuss Questions Connected with Practice of Medicine.

(From a Staff Correspondent.) LINCOLN, May 21.—(Special.)—Clyde Barnard yesterday brought to Lincoln a proposition which he will present to the board of control to locate the new \$300,000 state reformatory at Table Rock. The law provides that the board may select a location where brick can be made and that the convicts, or first termers, can be kept at work making this kind of building material. The Table Rock Clay company will offer a yard already equipped and fifteen acres of land in addition. Hearings will also make a bid for the reformatory.

Recognition for Baller. Governor Morehead has prepared papers asking the governor of Kansas for the return of Walter Baller, the negro who assaulted Mrs. Anna Keller at Falls City a few days ago.

Howard Names Stenographer. Charles E. Leach of Beatrice, who has been working for about a month in the office of State Auditor Howard, was this morning appointed stenographer-clerk in that department. Formerly the auditor's office has had no stenographer other than the one in the insurance department.

Traction Line Extension. The Lincoln Traction company made application to the state railway commission a short time ago for permission to extend its Tenth street line south from South street about eight blocks and the application was granted yesterday.

Beatrice Shooters at Work. The Beatrice company of the national guard is holding forth at the rifle range south of the penitentiary this week. There are twenty-five men in camp at the present time under the command of Captain Brewster. The Nebraska City company which was in camp there last week developed three expert riflemen, ten sharpshooters and fifteen marksmen.

Electics in Session. The thirty-eighth annual session of the Nebraska State Electric Medical association will be held in Lincoln on Thursday and Friday of this week. This year the session will be divided into four sections, the first in charge of Dr. F. J. Latta, Kansas; the second of Dr. F. L. Wilmoth, Lincoln; the third of Dr. J. N. Campbell, Stamford; and the fourth of Dr. C. W. Jester, Bethany. On Friday evening the association will attend the graduation exercises of the Cotner medical school at Bethany.

Kern Resolution Will Be Strengthened and Favorably Reported

WASHINGTON, May 21.—Senator Hark Smith, chairman, called the committee on education and labor today to consider the Kern resolution to direct an inquiry into conditions in the Paint Creek and Cabin Creek coal fields of West Virginia. With the resolution was an amendment by Senator Worris to direct the inquiry particularly into the working conditions and which brought about the strike. Senator Kern had been assured that a favorable report would be made with a recommendation that a subcommittee composed of Senators Borah, Swanson and Shields conduct the investigation.

Finally the committee authorized a subcommittee of five to draft a new resolution directing an inquiry by the full committee of education and labor, a subcommittee to take testimony in West Virginia. The sub-committee preparing the report and resolution to be given to the senate is composed of Senators Swanson, Shields, Martine, Borah and Kenyon. Senator Kenyon said at the conclusion of the committee meeting that the resolution would be broad in its scope, enabling the committee to inquire not only into conditions at the time of the strike, but also into the conditions of the coal fields and also into working conditions of the miners. The sessions of the entire committee will be held in Washington.

PECULIAR WEDDING AT MITCHELL, S. D.

MITCHELL, S. D., May 21.—(Special.)—A peculiar wedding took place yesterday afternoon in the sheriff's office at the court house when Perry Goodner, alias Harry Brown, was married to Miss Laura Sierling. The couple have been living together as man and wife on a farm four miles north of this city for the last two years, and there was not the slightest suspicion that the people were other than they represented. Goodner came here from Rensselaer, Ind., from which place he fled under the charge of grand larceny, and the officers there have been on track of him ever since. Goodner was finally tracked to this city and Sheriff Berry made the arrest of Goodner on the complaint of the Indiana authorities. Miss Sierling came to the city today and suggested that they get married. A license was secured. Goodner was brought up from his cell, and Judge Herbert of the municipal court performed the ceremony. Sheriff Hoover reached the city this afternoon from Rensselaer and left last night for that place with Goodner in his custody. Goodner's wife returned to the farm this afternoon and said that she would be able to take care of the crops and harvest them when they were ready in the fall.

RAPID CITY GETS LIGHT FROM DEADWOOD PLANT

RAPID CITY, S. D., May 21.—(Special.)—The bond which binds the business interests of Rapid City and Deadwood was more firmly cemented Sunday when the Dakota Power company began supplying the latter city with electricity for power and lighting. Under a ten-year contract the power company will supply the Deadwood Consolidated Light and Power company with a surplus of its power generated at the Big Bend plant amounting to from 200 to 1,000 horse power per day. At present Deadwood is using about 60 horse power. It is estimated that the income of the local company is increased from \$20,000 to \$25,000 per year by this arrangement.

School Boys Help Clean Up Tornado-Wrecked Home

HOME OF JOHN LINDBLAD, 2336 PARKER.

A half dozen friends of John Lindblad organized a force last Saturday and put in the day cleaning up around his wrecked home at 2336 Parker street, preliminary to rebuilding the home that was wrecked by the Easter tornado. Mrs. N. E. Swanson, Mrs. Charles P. Stromberg and others were the principal movers in the work. Through the kindness of the principals of Webster and Windsor school they secured the services of fifteen boys who cleaned brick all day, while Charles

P. Stromberg laid the foundation after the house had been lifted back to its position by a gang of house movers sent by the relief committee. The school boys worked like beavers and kept the brick cleaned ahead of the work of the bricklayers, and by evening the building was on the foundation. At noon Mrs. N. E. Swanson prepared a luncheon for the hungry boys, who ranged from 12 to 15 years of age. Mr. Lindblad is 70 years old. His house was torn from the foundation and partially wrecked. The remains of it fell into the basement whence it was lifted by the house movers. The roof will now have to be put on the house and a great deal of other carpenter work will have to be done before all the breakage will be repaired. Charles Forlund is doing the carpenter work. Charles P. Stromberg will do the plastering as soon as the inside carpenter work is completed, and within a few weeks the Lindblad family will be occupying their home again.

WILSON SENDS FOR SISSON

President Goes Over Diplomatic Situation with Mississippian.

WILL TEMPER HIS SPEECH

Congressman Agrees to Avoid Discussion of Negotiations with Japan in His Address on Alien Land Ownership.

WASHINGTON, May 21.—President Wilson today sent for Representative Sisson of Mississippi and urged him not to make any speech that would offend the sensibilities of Japan.

Mr. Sisson, who recently made a "war speech," had given notice of his intention to speak in the house Friday on the legal phases of the Japanese alien land question. He had a twenty-minute conversation with the president, during which, however, he assured Mr. Wilson that he would not discuss the pending negotiations or touch on anything of an incendiary character, limiting himself to an argument on alien land ownership. The conference, though Mr. Sisson, himself, declined to make any comment, declaring merely that he would speak Friday.

President Anxious.

The president is known to be anxious about discussion in congress at this stage of the Japanese question, especially involving any observations on racial discrimination.

It is indicated at the White House that the American note will be to assure Japan that the majority of Americans have a genuine respect and admiration for the achievements and character of its people. Public expressions that might give an opposite impression are regarded at the White House, particularly at this time, as seriously embarrassing the negotiations between the state department and the Japanese ambassador.

Note Will Not Be Given Out.

TOKIO, May 21.—The Japanese foreign office has received and is studying the reply of the United States government to its original protest in regard to the California alien land ownership legislation. It declares that by agreement with Washington, the document will not be made public. The officials make no comment on the subject and no statement as to whether it is satisfactory or not.

The Japanese public is waiting for information before expressing an opinion on the American reply. In the meantime, the press reiterates that the question goes deeper than the ownership of land or the making of treaties and that it is racial discrimination which must be wiped out by mutual education and understanding.

Anti-Western Society.

On the other hand, much interest is attached to the formation of a new patriotic association by Count Shigano Ue-sugi and other scholars "for the maintenance of Japanese individuality." The founders declare that some of the Japanese are intoxicated with western civilization to such an extent that they are likely to forget their nationality and introduce dangerous thoughts into the minds of the people and interpret patriotism in a different form from that prevailing among their ancestors.

In some quarters it is alleged that the new organization is a political one, masquerading under the guise of patriotism and that it has been created to fight the battle of the bureaucracy against the encroachments of the growing democracy. Prof. Masaharu Anesaki of the college of literature in the Imperial university at Tokyo, was designated today as the first Harvard lecturer on Japanese life and literature.

Ninth Infantry on Long March. CINCINNATI, May 21.—Two battalions of the Ninth infantry, U. S. A., 500 men in all, started today from Fort Thomas, Ky., on a march to Fort Benjamin Har-

ATTEAUX FURNISHES FUNDS

(Continued from Page One.) by their own methods. Atteaux, he said, asked him if he meant dynamite and he replied: "Dynamite or anything else."

Ernest Pittman of Andover, a builder who committed suicide when the grand jury began its investigation, was named by Breen as the person who delivered the dynamite to Breen and to Dennis J. Collins, the third defendant, who yesterday turned state's evidence. On cross-examination the witness declared he never had conspired with Wood, Atteaux or Pittman to injure any person or property.

Anticipating that Breen might give sensational testimony, a great crowd tried to gain admission to the court room today, but the attendance was limited strictly to witnesses, attorneys and a few holders of passes issued by the district attorney or the sheriff.

The first testimony connecting either of the defendants with the dynamite was given by John J. Breen when he took the stand this morning. He testified bluntly that Atteaux had asked him if he could obtain some dynamite.

Expert Identifies Dynamite. Walter Wedgett, an expert on explosives and former manufacturer of fireworks, testified regarding the dynamite found at Lawrence. He went to that city on January 27, 1912, to examine some dynamite for the state police.

The witness told of the various ways in which dynamite might be exploded by accident. Dynamite that was thoroughly frozen, he said, was hard to discharge, but partially frozen dynamite was likely to be discharged unexpectedly and was more dangerous than any other form of the explosive. It was very dangerous to have dynamite and detonators near each other, as it would be extremely hazardous for a person inexperienced in explosives to carry a package containing both dynamite and detonators. He described the methods by which he identified the Lawrence exhibit as dynamite and detonators. As part of the tests he and State Officer Flynn exploded three of the dynamite sticks at a cemetery at Lawrence. One of the blasting caps used to explode the dynamite had been given him by a Lawrence police official, who told him it had been found in a package of dynamite that had been "planted."

Breen Meets Atteaux.

Breen described himself and said that he knew both Collins and Atteaux in January, 1912, the month of the textile strike, he met Atteaux at the latter's office in response to a telephone request. This was a few days before the dynamite episode. The call lasted two hours, the witness said, and the conversation was in regard to the Lawrence strike.

Atteaux said he was glad to see I was interested in keeping the striking element quiet, said Breen. "The next time I saw him was on January 18. I went to report the condition of things to him. The conversation was about the strike. I said affairs at the mills were getting pretty hot. I added 'If I was fighting those fellows I'd fight them by their own methods.' 'What do you mean,' he said, 'dynamite? 'Dynamite or anything else,' I said."

Pittman is Called In. "Could you get some dynamite?" said he. I said "No." Then he suggested that perhaps Mr. Pittman might get some."

The Pittman mentioned by the witness was Ernest R. Pittman, a builder, with whom the state alleges Wood, Atteaux and Collins conspired. Pittman committed suicide on the day he was subpoenaed to appear as a witness before the grand jury which was investigating the alleged dynamite plot. Atteaux telephoned to Pittman, Breen continued, and an hour later Pittman arrived at Atteaux's office. "Atteaux said, 'Excuse me John,' said he took Pittman into the corridor," said the witness. "Pittman returned in about three minutes and said to me, 'Do you think you can do this business,' and I said,

Pimples Should Be Watched

May Be Means of Absorbing Disease. Germs in Most Unexpected Manner. Make Your Blood Pure and Immune With S. S. S.

The world renowned laboratory of the Swift Specific Company has collected a vast amount of information regarding the spread of blood diseases. In thousands of instances the most virulent types have been the result of coming in contact with disease germs in public places, and the apparently insignificant pimple has been the cause. It spreads with astonishing rapidity, often infecting the entire system in a few days. It is fortunate, however, that there is a remedy to cope quickly and thoroughly with such a condition, and thanks to the energy of its producers the famous S. S. S. may now be had at almost any drug store in the civilized world. This preparation stands alone as a blood purifier, it is somewhat revolutionary in its composition, since it accomplishes all that was ever claimed for mercury, iodides, arsenic, and other destructive mineral drugs, and yet it is absolutely a purely vegetable product. It contains one ingredient which serves the active purpose of stimulating each tiny cellular part of the tissues to the healthy and judicious selection of its own essential nutriment. There are more cases of articular rheumatism, locomotor ataxia, paralysis, neuritis, and similar diseases resultant from the use of minerals than most people are aware of. These facts are brought out in a highly interesting book compiled by the medical department of The Swift Specific Co., 237 Swift Bldg., Atlanta, Ga. It is mailed free, together with a special letter of advice, to all who are struggling with a blood disease. Get a bottle of S. S. S. today of your druggist. It will surprise you with its wonderful action in the blood.

Do You Want a Good Complexion?

YOU can have one if you take care of yourself. Overeating and sluggish circulation clog the bowels and affect the skin. Nature has provided an ideal laxative which purifies your blood, cleanses your intestines and relieves constipation—the real cause of pimples, etc. Get a bottle of HUNYADI JANOS WATER today at any Drug Store, take 1/2 glass on arising or at any time on an empty stomach, and you'll see the difference in your complexion.
