day morning to enforce their demand for higher wages. There are about thirty-five men on the payroll, but a number of them have not been working regularly for the last week,

but those who walked out included all As a result of the walkout all loading and unleading of freight was suspended for the day. General Agent Montgomery sald last evening that if the men did not return to work this morning their places would be filled and that numerous applications for work had been made by

men from Omahs and Council Bluffs. The strike came as a surprise. It followed the demand for higher wages made two weeks ago, which General would consider clear Omaha property as Agent Montgomery put up to the general offices, where it was being considered, with the prospect that an increase would be ordered. The men, howver either mlaunderstood the attitude of the company or became uncontrollably impatient and struck before receiving a reply from the company's offices in Chicago or the division manager's office at

> Want Twenty Per Cent Move. The men demand an increase of 30 per cent. They have been paid 1714 cents per hour for ten hours' work, or \$1.75 per day, with constant employment the year round. It is the same rate paid by all of the other roads in the city. Some of the roads, however, notably the Burlington and Rock Island, pay their freight handlers on the tonnage basis, which permits the same earnings per day, but involves greater necessity for close application to the job. The Northwestern freight handlers in Omaha are paid 18 cents an hour, and it is said that it was the intention of the company to raise the Bluffs rate to the same figure, or \$1.80 a day. The Bluffs men, however, demand \$2.10 flat for ten hours' work.

Men Not Organised. There is no organization among the en but the decision to demand more wages was unanimously agreed upon. The determination not to wait any longer followed the successful issue of the wage question raised by about fifty Italian and Austrian track laborers on Monday when they laid down their tools and informed their bosses that their pay must be raised from \$1.60 to \$1.75 per day. After less than twenty-four hours the demand was acceded to and the men reported for work on Tuesday morning. This was good encouragement to the truckmen and they followed the example. The men themselves say their request for more pay was made five months ago and was ignored. It was repeated again, they ray, on April 15 or 20, and no reply

was received. The complete unanimity of the men in both instances indicates some sort of organization, and while there is no evidence discernible at this time there is a strong conviction that both strikes are the result of the presence of Industrial Workers of the World. On Monday morning two Industrial Workers of the World arrived here from Denver and the strike of the trackworkers followed immediately. None of the railroad officials recall having seen any strangers mingifus with their men. It is said that one of the Industrial Workers of the World emissaries declared that a large number of the Industrial Workers of the World are on their way, and that Omaha, Council Bluffs and

South Omaha were "to be torn up." Men Are Orderly.

The striking truckmen were very or-derly yesterday and there appeared to special officers placed to guard the warehouse and platforms. The strikers denied that they were doing picket duty, but they kept a close watch on all street cars and trains throughout the day.

Evangelist Sunday May Come. Das Moines people were informed today that in all probability Evangelist "Billy" Sunday will come to Des Moines some time this year and hold evangelistic meetings under the auspices of the ministerial association. Word was received direct from him to the effect that the only thing standing in the way is the health of his wife. A committee had visited him and presented the Des Moines invitation. The invitation is not entirely unanimous, as some of the ministers of the city refuse to sanction the methods he uses.

## Martin Predicts Republican Tariff Ultimate Victor

"When the democrats get through with the tariff we will again fall back upon the principle established a few years ago, that tariff should be based on the difference in production at home and MORE THAN USUAL NUMBER abroad," said Congressman E. W. Martin of Deadwood, S. D., stopping at the Wellington hotel yesterday. "I am satisfied we were on solid footing when we announced that principle in regard to the relative cost of production, and I am confident we will have to return to it after a little more experimenting is done. As for me, I stand strictly for a tariff commission and the scientific revision of tariff. I think it is the only WBY.

Congressman Martin believes it will be all of two months before the senate gets through with the Underwood bill, and he la going to his home in Deadwood until the house needs him again, which he believes will not be until it takes up a currency measure. He is accompanied by Mrs. Martin. They bought a large automobile in Omaha and are waiting for the roads to dry when they will drive their new car from Omaha to Dendwood. Mr. Martin says his constituents in the

cattle country around the Black Hills are not especially worried about the provisions of the Underwoood tariff bill. He says the cattlemen have been getting good prices for their cattle on account of a shortage of stock throughout the country and in other countries, and are not now inclined to be disturbed about the beef and oattle schedule.

The congressman said: "The great problem that we have to deal with from now on is to arrange matters so that labor will actually get the protection that is intended for it.

He asserted that he did not believe the lemograts would measure up to the task of revising the tariff in good shape. He spoke of the great responsibility that rested upon the party in the revising of the tariff and said that if the party could be re-elected following its tariff

Governor Makes Appointment That Completes Board

LINCOLN, May BL-(Special)-The govrnor today completed the Live Stock Sanitary board by appointing C. Crocker of Filley, Neb., who is put on as a representative of the swine breeders, and Alexander Burr of Pullman, who has been appointed as a representativa of the cattle breeders.

He has heretofore appointed John A. Berg, a veterinary surgeon of Pender, and J. H. Bulls of South Omaha, to represent the Union stock yards at South

These appointments are made in pliance with house roll No. 321, introduced by Representative Morris of Cherry county. It provides that the representathe time of his appointment, west of the 100th meridian. CHARLESTON, S. C., May 31.-Privates Baxter, Christian and Dalton of the United States coast artillary corps were killed tonight and nine men seriously injured when the breech block of a 47 inch gun at Fort Moultrie, defending Charleston harbor, was blown out. The accident occurred about 16 o'clock during the night target practice. Baxter and Christian were killed instantly and Daiton died of his injuries shortly after-

wards. Captain Guy B. G. Hanna, who was standing with other officers near the gun is reported to have been seriously injured and it is said several of those wounded may die.

The isolated position of Fort Moultrie has made it impossible to secure more than meager details. Reports concerning the cause of the blowing out of the breech block are conflicting. The summoning of physicians from Charleston caused rumors that the

explosion was even more serious than

BONNER SPRINGS, Kan., May M. The discovery of a cistern filled with 'hard cider" on a farm near here today solved a mystery that has baffled the law enforcement officers of Wyandotte county for more than a year. Frequent complaints have been filed with prosecuting attorney that many men and boys in this vicinity were being ruined by strong drink, but the utmost vigilance on his part failed to locate the source

of the liquor supply. The elstern was found by one of the prosecutor's assistants disguised as a farm hand. The farmer who owned the cistern was enjoined from solling or making cider and the cistern and tents were destroyed.
