The second set was won by Miss Fogg, 6-6, which made the

#### HOW BLOOD IS MADE.

The liquids end the digested foods in the alimentary canal pass through the wall of the canal into the blood. This process is called absorption and takes place chiefly from the small intestine. After absorption the blood carries the food through the body, and each cell takes from the blood the feed it needs. A pure glyceric extract made from bloodroot, mandrake, stone, queen's root and golden seal root, and sold by druggists for the past forty years under the name of

Doctor Pierce's Golden Medical Discovery,

gives uniformly excellent results as a tomic to help in the assimilation of the food and in the absorption by the blood of the food it requires. Bradicate the poisons from the blood with this alterative extract which does not shrink the white blood corpuscies, because containing no alcohol or other injurious ingredients. Thus the body can be built up—streng to resist disease. This is a tomic taken from Neture's garden that builds up these weak-oned by disease. Sold by draggists everywhere. # Views Seward Tornado Picture Book 10c

The Tornado which struck Seward, Neb., on May 14, 1913, caused death and destruction which was proportionately as great as that of the Tornado which hit Omaha on Easter Sunday. Words cannot describe the terrible devastation in which these storms cause. Pictures tell the story. Our photographer took many good pictures of the wrecks in Seward. We have selected the best of these and made up a booklet which is now offered on sale at The Bee office.
