To Vaccinate Pupils—Forty children in the seventh and eighth grades of Ed-ward Rosewater school will be vaccinated, having been exposed to smallpox. One of the pupils attended school three days when the father was ill with the disease. Unless the children show good scars or submit to vaccination they will be kept out of school for twenty-one days.

To Talk Driftage—George H. Maxwell, representing the National Reclamation association, will tell the Commercial club Thursday noon of the project to use the Missouri river flood waters to reclaim 10,000 acres of land in western Nebraska, Kansas and Wyoming, instead of allowing it to destroy valuable plantations in the Mississippi valley.

Drag River Two Days For a Youth Who Is Attending Ball Game

LA CROSSE, Wis., June 4.—Roy Leuth, failed to keep a promise to his sweetheart last Sunday night. She became alarmed and being unable to find him at his home, notified the police to search for him. It was rumored that Leuth had been seen on the Mississippi in a canoe and a squad of police dragged the river for his body all Sunday and Monday.

Leuth showed up today and announced that he had had an irresistible desire to witness a couple of ball games and had gone to Chicago for that purpose.

"Laziest Man," Kept By Aged Rag Picker Mother, to "Works"

KANSAS CITY, June 4.—Edward Dunn, 25 years old, a native of Armourdale, a suburb, was pronounced today "the laziest man in the world," by the judge of the municipal court of Kansas City, Kan., and was sentenced to hammer out a \$50 fine in the workhouse. Dunn, broad-shouldered and physically fit, allowed himself to be supported by his mother, 60 years old, a ragpicker.

Woodmen at Neligh Hold Log Rolling

NELIGH, Neb., June 4.—(Special Telegram.) The Modern Woodmen of the world and surrounding counties had a big log rolling here today at Riverdale park. Head Consul Talbot was the only speaker and devoted all his time to a general talk on fraternalism. He did not touch on the controversy over rates which recently agitated the Woodmen, but talked fraternalism along general lines. There was a crowd present estimated at 4,000.

There were plenty of sports to entertain the crowd, including two ball games. Royal defeated Clearwater, 3 to 1, and the second game was won by Ewing from Royal, 1 to 0, in five innings.

Let Out of Prison to "Make a Crop"

WASHINGTON, June 4.—To permit George Pollock and Bud Ewers, federal prisoners, to "make a summer crop," President Wilson commuted their sixty-day sentences to expire at once, provided they paid their fines of \$100. They were convicted at Paducah, Ky., April 21 of retaining liquor without the payment of the special tax. The president was told they served until June 21 they would not raise a crop on their farms.

LAST HORSE CAR IN SAN FRANCISCO TO SCRAP PILE

SAN FRANCISCO, Cal., June 4.—Mayor Rolph drove the last horse car in San Francisco on its last trip today from the Ferry building to the scrap heap. The mayor took the reins from J. H. Lee, who, for twenty-six years had driven the same car on the same run from the Embarcadero to the foot of Ransome street.

Lee will be given a job as motorman on the municipal railway.

Car No. 45 has been rattling over the streets of San Francisco for thirty-two years. The horse cars were used to keep alive franchise rights on lines, which under the terms of the grant, or for business or physical reasons, could not be operated by electricity.

AFFAIRS AT SOUTH OMAHA

Some Uneasiness Among Employees of the Packing Houses.

RUMORS OF A STRIKE AFLOAT

City Officials Said to Be Busy at Work Seeking to Quiet Any Disaffection that May Exist.

It is possible that the local packing house employees are on the verge of a strike, which, however, it is hoped to avert. Business men and a great many of the packing house mechanics are opposed to a strike, but a portion of the unskilled labor is for it. The common laborers want more money, 25 cents an hour, and they want a guarantee of steady employment. The coopers want a nine-hour day with a 25 per cent increase of wages, it is said.

For the last three days there have been rumors of a strike this week. Each day, however, action is deferred to the next. Mayor Hector and a number of politicians, it is understood, are using their good offices to quiet any disaffection among the working men.

A telegraphic report that laborers in Armour's Sioux City plant had joined the Cudahy strikers, caused a ripple of regret among the packing house bosses who had hoped that the settlement of the Sioux City strike would bring a relief from the local tension. Laborers said they would refuse to handle any meat shipped in from Sioux City houses, now shut down.

One of the hopeful signs yesterday was the apparent good nature that appeared to prevail among the men. Here and there at the noon hour a few men were found discussing the strike, but most of the others laughed and joked and showed by their conversation that they were not in a striking humor. All, however, were expectant, and the atmosphere in the offices, as well as in the different departments was electrical. The men will not freely discuss their labor troubles before outsiders and they maintain quiet when questioned on strike matters.

The packers are using great delicacy in handling the situation, feeling that if they can tide over the present uneasiness things will right themselves. Some departments in the house they claim are absolutely solid for the companies and will not walk out.

All a Mistake. Some one's mistaken notion of humor caused considerable embarrassment to E. M. Munson, whose 11-year-old daughter was recently announced as engaged. The papers were notified of the event as coming from the Munson family. Mr. Munson's daughter is only 11 years of age and it is thought that some one took an uncharitable liberty in making such an announcement. Mr. Munson, however, has no idea who could have perpetrated such a deed.

Geography Class Excursion.

The physical geography class of the South Omaha High school went on its semi-annual excursion to the Missouri river to study the current, shore lines and other physical peculiarities of the river, yesterday afternoon. This is one of the practical tests to which the students are put during their study of physical geography. The class also visited the power house and pumping stations of the stock yards on the river bank, inspected the high-powered machinery and the large reservoir adjoining the power house.

The class was accompanied by Miss Horen, the instructor, and comprised about forty students.

Meeting with Water Board. Members of the city council will meet the Water board in Omaha this afternoon at 2 o'clock for the purpose of canvassing the situation with regard to the relations between the city of South Omaha and the water district. It is possible that some decisions as to the rights of each party may be arrived at.

PEOPLE MORE MORAL AS THEY WEAR FEWER CLOTHES

ST. LOUIS, June 4.—Mrs. Lillian Stuart, a lecturer on dress and hygiene, told the senate investigating committee today that the wearing of corsets ought to be prohibited as detrimental to health. She also condemned high heeled shoes. Mrs. Stuart said that clothes were responsible for the shallow life of the day, with its scandals and divorces, but she predicted that in the future people would wear fewer clothes with corresponding improvement morally and physically.

REFORM CANDIDATE BEATEN IN LOS ANGELES ELECTION

LOS ANGELES, June 4.—The early count of today's municipal election indicates a defeat for the reform element which has controlled the city since the recall of Mayor Harper five years ago. Incomplete returns from 335 out of 426 precincts give Harry H. Rose, Independent, 29,775 votes, and John W. Shenk, municipal conference candidate, 18,019 votes. Rose was heavily supported by the socialists, whose candidate, Job Hartman, was defeated in the primaries.

FARMERS BURN ALFALFA TO GET RID OF THE HOPPERS

SACRAMENTO, Cal., June 4.—State Horticultural Commissioner Cook received reports of the incursion of the grasshopper pest today from Colusa, Shasta and Tulare counties. No figures as to crop damage were available.

GUIDEC'S WEAPONS FOUND

Police Discover Razor with Which Jones Murder Was Done.

EFFORTS TO COVER TRACKS

Witness Tells of Seeing Him Hiding Near Roundhouse Door Shortly Before the Young Fireman Was Murdered.

Missing links in the chain of evidence connecting Francisco Guidice with the murder of Howard H. Jones have been supplied by statements of Italian friends of the murderer. The throat of the young Northwestern fireman was cut by a razor belonging to Guidice. The razor, still blood stained, has been recovered very little lost.

Dominick Sestes, the bedfellow of Guidice at 1025 Avenue D, Council Bluffs, Frank Farrage and his wife who operate the Italian boarding house there, and Hill Poache, rooming at the Italian place at 1307 Avenue D, where the police found Guidice the next morning after the murder, have furnished the evidence.

Mrs. Farrage last night led County Attorney Capell, Sheriff Lindsey and other Council Bluffs officers to 1025 Avenue D and showed them where the razor had been concealed in a partition in a woodshed. She produced a revolver and knife belonging to Guidice which had been hidden there also.

Made Frequent Threats. Poache, who was Guidice's closest acquaintance and roommate, said the man had made frequent threats against the life of Jones, and that on the night of the murder he came to the cinder pit and talked about killing Jones, but went away.

Half an hour before the murder Poache said he passed near the roundhouse and saw Guidice hiding in a woodshed close to the door of the roundhouse through which the unsuspecting young fireman passed a few moments later to meet his death.

Poache said he knew nothing of the murder until after he had completed his work at midnight and went to the roundhouse to wash up. There he learned of the crime. He said he went directly to his room at 1025 Avenue D and found Guidice in bed. Poache said he told Guidice that Jones was dead, that the police would be there in a few minutes and that he had better skip. Poache said Guidice jumped up and as he did so the bloody razor fell upon the bed, as did also Guidice's revolver and knife. Poache said Guidice said he would go to Dominick's and stay there until the police came and would make them believe he had been there all night.

Efforts to Conceal Movements. Dominick Sestes confirmed this statement. He said Guidice arrived at his place, 1307 Avenue D, at 12:30 and told him to tell the police that he had been there since 9:30, and to send over at once and tell the people at 1025 to hide the razor and gun. This message was delivered to Mrs. Farrage the next morning. She had already found the blood-stained razor and revolver, and she said she then hid them in the woodshed. A pillow on the bed occupied by Guidice had come in contact with the bloody razor and she said she poured boiling water on the stains the next morning, but failed to remove them. She last night produced the pillow and pointed to the stains.

A great quantity of stolen stuff was found in Guidice's trunk, all of it railroad property.

Kansas Republicans Have Harmony Meet; Bull Moose at Home

TOPEKA, Kan., June 4.—With but few men who have attained prominence in the progressive party present, the republican harmony conference with 500 delegates, went on record here today in favor of the initiative and referendum and against commission form of government for Kansas, and adopted the following resolution endorsing the National republican harmony movement:

"We endorse the Borah-Cummins-La Follette-Hadley-Trounman movement to harmonize the factions whose dissensions occasioned the defeat of the republican party in 1912, and we sincerely promise that there shall be no prescription or blacklisting of republicans on account of the differences which culminated at the last general election."

ST. LOUIS WOMAN SHOTS HER HUSBAND TO DEATH

ST. LOUIS, June 4.—Mrs. Hattie B. Martin today shot and killed her husband, Charles L. Martin, an automobile salesman. The shooting was the climax of a quarrel in which Mrs. Martin accused her husband of being attentive to another woman. Mrs. Martin said she fired while her husband was advancing toward her with a knife. A year ago Mr. Martin saved his wife's life when her clothing was aflame from a gas explosion.

A whole bottle of medicine in one dose won't cure you

Why does the doctor tell you "to take a teaspoonful every two hours" instead of the whole bottle at one gulp? Simply because it takes time to produce changes in the human body. It likewise takes time to produce effects on people's minds. Time is one of the necessary things in advertising. You advertise today not only for tomorrow, but more particularly to make everybody know about you and your goods—where you are located and how you do business. Building up a line of customers is a slow process. Advertising doesn't work as the fake doctor claims his "cure-all" will, but as the real physician's slow, patient "teaspoonful every two hours."

Advertising is sure, because the laws that govern the human mind are as certain as the laws of gravitation. If you repeat facts about your business to newspaper readers day after day for a long period, those facts are bound to become a part of practically every reader's common knowledge. Every reader of The Bee knows where certain Omaha stores are, what kind and class of goods they keep and a good deal about the men behind the goods—whether they have ever been inside the store or not. What stores are these? ABSOLUTELY WITHOUT EXCEPTION THEY ARE THE STORES THAT ADVERTISE IN THE BEE DAY AFTER DAY AND YEAR AFTER YEAR. Regular—patient and persistent advertising is the sure road to business success. You—Mr. Merchant—who have been timid—or doubtful—or careless—why not start now—Today?

It's continuous advertising that pays
