RUBBERSET
Each bristle
gripped in hard rubber
and can't come out

Habit has made you careless of the dangers that lurk in a bristle-shedding tooth brush; of the harm that a single Bristle can do when swallowed or lodged in the gums or throat.

Why chance the dangers, now that all risks of loosened bristles are eliminated by the **RUBBERSET TOOTH BRUSH**.

The **RUBBERSET** way is the only positive, absolutely lasting method of fastening bristles into a brush so that not a single bristle can escape.

The bristles in the **RUBBERSET TOOTH BRUSH** are first dipped in soft, pure Para rubber. This rubber is then vulcanized on superheated electric tables to a flint-like hardness, and when so vulcanized, is absolutely impervious to liquids, chemicals or age. Each bristle is guaranteed to hold in this base forever. If is for this reason that the

of **ELCAYA Rice Powder** by return mail, exactly the size pictured here. You have never seen anything like it before—an absolutely sterile Rice Powder—packaged without the powder being touched by human hands. It serves every purpose better than the finest talcum and equals in effect the highest grade face powder.

ELCAYA RICE POWDER
"Scented and Unscented"

The "scented" is like an old-fashioned garden of flowers. It gives the complexion that well-groomed effect without showing the slightest trace on the skin—it positively does not cause the shiny appearance common to talcum. After the bath, it gives that clean, natural, comfortable feeling so much sought—so hard to obtain.

The "unscented" is used in the nursery to keep baby's skin cool, prevent chafing, rash, prickly heat. It does not cake on the skin or crinkle like the talcum. It is absolutely safe—free from contamination—the acme of purity and quality. Like all other **ELCAYA** toilet helps, it is the best your money will buy.
