ALUMNI DODGE

(From a Staff Correspondent.) LINCOLN. Neb., June 11.-(Special Telegram.)-The alumni association of the University of Nebraska at its business meeting this afternoon decided to exclude all reference to the removal controversy and to take no action, binding the association in the coming referndum, until at least, a later date.

When the matter was before the legislature, the alumni took strong grounds igninst removal. With a view of securng the cooperation of the Omaha graduates, who heretofore have not been in sympathy with the general organization. complete reorganization of the alumni council was made. Those elected to places on the council were:

lieity Campaign. WASHINGTON, June 11 .- Activities of Hawallan sugar interests in behalf of a tariff on sugar were taken up again today by the senate lobby committee. Royal D. Mead, of the Hawalian sugar planters' association, said be received a salary of \$1,000 a month for his work in Washington. His efforts, he said, were confined to the gathering and distribution of sugar statistics and he thought \$15,000 would cover his annual expenditures. He had been associated with the domestic sugar producers' organization, which has directed the sugar tariff publicity campaign in Washington. In May he said, he and Sidney M. Ballou terminated a \$2,500 contract for publicity work, by the Press Service bureau, of which

E. W. Mayo was head. Mead produced a detailed account of all his receipts and expenditures in Washington. He had received \$5,000 from the Hawaiian Sugar association and had spent \$5,548.16 up to last night. Upon the demand of Senator Gronna. the committee today subpoenaed A. Y. More, published, and A. M. Baker, manager of the Courier-News of Fargo, N. D., to explain a recent editorial intimating that Senator Gronna knew something

of the use of money in Washington to influence legislation Two Hundred a Week for Mayo-Mead told the committee that after

terminating the \$2,500 publicity contract with Mayo, the domestic sugar producers had retained Mayo at a salary of \$300 a week to help run the sugar publicity campaign. None of the money

spent for advertising, said Mr. Mead, had been used to influence the editorial policy of newspapers. The total amount spent by the Hawaiian planters association for all purposes, was about \$400,000 a year, he said, was caised by assessment, the total being something less than Il a ton on the total production. Most of the money had been used, he said, for a sugar experiment station in Hawail and for securing Phillippine laborers.

to resist the militia. Courts Refused to Act.

General Elliott said that he knew that Representative S. B. Davis, former chief prosecutor, had told Governor Glasscock that he could not secure acon in the courts to subdue the riotous condition. This he said was one of the reasons for

which the governor declared martial law. The witness said that his troops had captured five or six machine guns in the affected district. After the first martial law period ended, dictator. General Elliott said that members of the

state militia, officers and men, were employed by the coal operators to act as watchmen or "mine guards." They remained as guards, he said, even aftor martial law was again declared and the troops again took charge of the field. General Elliott told of the operation of an armored train, on which a machine

gun was mounted, which made four trips up Paint and Cabin creeks. He could not say who manned this train, which among the miners was known as the "bull moose special."

Attorney Beicher tried to ascortain what rifles were carried on a special train that invaded the Paint creek section on the night of February 7, and from which a battle was fought at Holly Grove. Gen-
