Take Plenty of Time to Eat. There is a saying that "rapid eating is slow suicids." If you have formed the habit of eating too rapidly you are most likely suffering from indigestion or constipation, which will result eventually in serious illness unless corrected. Digestion begins in the mouth. Food should be thoroughly masticated and insalivated. Then when you have a fullness of the stomach or feel full and stupid after eat-ing, take one of Chamberlain's Tablets. Many severe cases of stomach trouble and constipation have been cured by the use of these tablets. They are easy to take and most agreeable in effect. For sale by all druggists-Advertisement.

(From American Health Journal.) Shampoo either a dry, itchy scalp, or an olly head of hair with the thick soothing lather of this simple shampoo, which you can make at home by mixing a teaspoonful of canthrox with a cup of hot water. It will loosen every particle of dust and excessive oil, stimulate the hair roots to healthy action and restore the hair to its natural color while making it soft, glossy, fluffy and easy to do up. Nothing will so quickly restore faded hair to natural color after exposure to sun and winds. For beautifying the complexion nothing

equals this inexpensive, home-made loion which, when applied to the skin, dries quickly and is invisible. It corrects complexion faults and gives the skin a velvety softness of texture and that much prized youthful tint. It is made by mixing four ounces spurmax, 1/2 pint witch hazel (or hot water) and 2 teaspoonfuls glycerine and is especially potent in removing pimples and blackheads and looks like part of the skin-Advartisement.
