minutes than the senate investigating ble.

The senatorial lobby investigation has divulged a good deal of general information as to the methods employed by large interests in combatting and promoting legislation, but it has not as yet fixed the odium of the charges made by the president upon individuals. It may do so before completed and will prove disappointing if it does not. It is to be regretted, so far as serious results are concerned, that internal friction has arisen in the committee, for that cannot help but mar the effectiveness of the inquiry.

Nothwithstanding the failures of the investigation to shed particularly new light upon the system of lobbying so as to single out "insidlous" offenders, it will have had its successes in a fuller revelation of the old conditions if subsequent action is taken to right the wrongs and correct the abuses. What should be done after this probing is to define the limitations of lobbying, so as to distinguish between the legitimate cago, where she has been attending Miss rights of citizens to confer and advise with their representatives on matters of legislation and sinister interference. It is high time for such definition and discrimination when men known for twenty years about Washington stand up and tell a senate committee that they have directed the expenditure of half a million clation at that place.

River Flood Control.

OMAHA, June 16.-To the Editor The Bee: As a rule I have much respec for any opinion Senator Shumway of Scott's Bluff expresses on the general topic of irrigation, for I know him to be well posted in such lore. But in his letter to The Bee, published today, he makes the same mistake as did the bad man in Tennessee-he includes too much territory in his statement that "there has never been a bad flood on the Platt: above the mouth of the Elkhorn, since the Pachfirder dam was built." Shumway will have some trouble in convincing the people of Colfax, Platte. Dodge and Saunders countles that the flood on the Flatte river in the spring of 1912 was not a "bad flood" and by no stretch of the imagination could the Nebraska editors are unanimous in the Pathfinder dam, hundreds of miles away, be held to have had any reffect on that

The Platte river is not a very good lilustration on which te support the case of the reservoir-control advocates. TALE OF THE JOLLY MARINER

Chicago News, He was a jolly mariner
That sailed the seven seas;
By skill and pluck and sheer good luck.
He had escaped disease.
And death in strife by gun and knife
And other things like these.

Alas! This gallant sallorman
Was knocked down by a car!
"You'll soon be dead," the doctor sald.
"Perhaps there's one afar
To whom you'd send some word, my
friend." Up spake that gallant tar:

"You take this message, mate," he said,
"Ere I my moorin's slips.
And find my bride and say I died
With her name on my lips!
Her name, you say? Well, one is May;
But I've sailed several trips!

There's Sally Brown, of Dover town, And Milly, Jane and Nell; if you will look in that there book You'll find out where they dwell. There is a score, or maybe more— You won't? Then I'll get well!"

He was a jolly mariner
That rose up, strong and fit,
And then, said he, "Well, hully gee!
I'm bruised a little bit;
But I've my life and nary wife
ls left a widow yit!"
