Bulls were prompt to take action sug-Bulls were prompt to take action suggested by the absence of rain in South Dakota. Authorities were quoted to the effect that much of the planting in South Dakota had been done in fields which were improperly prepared, and that the chances were againts the damage there being repaired, the mercury at Huron, S. D., today being 39 in the shade. Nebraska advices were that high temperatures appeared to be shriveling the grain, and that near Grand Island the relapse within four or five days averaged 15 to 20 per

First receipts of new wheat at St. Louis and promises of harvesting next week in Illinois, resulted in a decided set back to prices at one time, but bullish senti-ment again became uppermost after profit taking by longs.

profit taking by longs.

Primary terminals reported arrivals as amounting to 669,000 bushels against 249,000 bushels a year ago. Export clearances of wheat and flour equalled 423,000 bushels. Conflicting crop advices made the course of the corn market indiciaive. Many dispatches declared that the hot weather was favorable to growth. Other reports had it that large sections of the beit were very dry and that the crop was losing ground.

was losing ground.

Speculators bought oats on account of continued damage in the targer producing In the provision pit the effect of the grain bulge finally overcame the influence of a large run of hogs west. Packers temporarily pulled out of the market.

SHEEP-Trade was very much like that or Tuesday, the movement on all kinds of sheep and lambs being sluggish at prices steady to logisc lower. With the exception of a load of clipped lambs that pold early at \$7.00 and a burch of old clipped wethers at \$5.50, little of anything else transpired until a very late hour. The slow, dull market was attributed to the liberal supplies and the extremely bearish feeling in the general trade at most other points and, also, partly to the fact that some of the local packers had cut down their killing gangs.

Eight cars or some 1.800 head constituted the entire receipts, being short of the same day one year ago. Aside from one or two loads of California spring lambs, fed in Nebraska, and a small bunch of old wethers, the offerings were made up entirely of clipped lambs and the general quality was not better than on yesterday.

CONSERVATIVE TONE PREVAILS

Fraders Act with Caution, Impressed by Better Tone of Market and Evidence Liquidation Completed.

NEW YORK, June 18.—While there was some irregularity in movements of stocks today, the tendency continued upward. Speculative sentiment remained as cheerful as it has been since the rebound in prices last week, and, although the demand for stocks was not preising, there was a ready market for such offerings as were made. Were made. Conservatism prevailed on both sides of

Conservatism prevailed on both sides of the market. In spite of the atrong tons of the last week, buil operators were not inclined to attempt ambitious undertakings, in view of the many uncertainties of the present situation. On the other hand, traders on the short side, impressed by the better tone of the market and the evidinoes that the heavy liquidation has been completed, acted with caution.

In view of these conditions it was regarded as natural that there should be a

tion.

In view of these conditions it was regarded as natural that there should be a slowing down in speculation. One of the chief reasons which impelled traders to hold off was the belief that definite news regarding the attitude of the federal court toward Union Pacific's dissolution plans will be rectived within the next few days.

court toward Umon Facilic's dissenting plans will be rectived within the next few days.

Various rumors were circulated concerning the Harriman dissolution proceedings and the latest one, to the effect that the court would in all probability appoint a receiver for Union Pacific's holdings of Southern Pacific, was associated with a sharp dip in prices just before the close, which cut down the gains inside earlier in the day.

German bankers were in this market today with offers of 3½ per cent for sixty-day money, but were unable to obtain funds at that fixure. The Bank of Germany's statement showed the largest gold reserve in the history of that institution and bankers here were of the opinion that Berlin was reaching a position which would enable it to weather the midyear settlement without serious difficulties.
