

The Society Bee-Hive

By MELLIFICIA. Friday, June 20, 1913.

LAKE OKOBOJI will be a favorite summer resort for Omahans this year. The fact that it is a pleasant journey by motor, and the cottagers can have their own cars while there, is one reason for its popularity.

Numerous house parties, when the Omaha men will go to the lake for the week-end, are being planned. Mrs. J. J. Dickey and Mrs. M. C. Peters and families have adjoining cottages, and at present Miss Mary Burkley is visiting Miss Daphne Peters and Miss Katherine Thummel is the guest of Miss Bertha Dickey. Later on in the season Miss Dorothy Morgan will be the guest of Mrs. Peters and Miss Gladys Peters.

Dr. and Mrs. H. M. McClanahan and Miss Kathryn McClanahan have a cottage at the lake and each year they motor there.

Mrs. Ben Gallagher has one of the larger cottages at the lake and they have a motor boat constructed by Ben Gallagher. Mrs. Gallagher's sons, Paul and Ben, usually make several trips to the lake during the summer by motor.

Mr. and Mrs. Walter Preston and son usually spend the summer at The Inn at Lake Okoboji, and left for there yesterday. Last year they made the trip by motor and made many little excursions to small towns near the lake.

Mrs. J. F. Carpenter and family expect to leave within the next two weeks for Okoboji to spend the summer at their cottage on Omaha beach. Later in the summer Miss Eleanor Carpenter will entertain a number of guests from Omaha at a house party, and among those who will be present will be Miss Louise Resaire of Chicago, formerly of Omaha, and Miss Dorothy Balbach.

Mr. and Mrs. E. U. Graff and family have rented the D. C. Patterson cottage for the summer.

COUNCIL IN SECRET SESSION

Try to Line Up Members Intact Against Hearing.

MICHAELSEN IS STILL INSISTENT

Says He Will Start Court Proceedings if the Commissioners Remains Firm in the Stand They Have Taken.

"If I give the word a dozen Danes will start recall petitions against Commissioner Withnell," said City Electrician Michaelsen, fired by Withnell and refused a hearing by the city commission.

And at 3 o'clock yesterday a secret session of city commissioners was called by Police Commissioner John J. Ryder and an attempt was made to convert Mayor James C. Dahlman, Commissioners Dan B. Butler and Thomas McGovern to Withnell's view of the situation, which is that Michaelsen is not entitled to a hearing.

The call for this special meeting was made by Ryder at 10 Thursday night, when it was known that the Danish association would formally ask the commission at the Tuesday meeting to give Michaelsen a hearing and that if refused would start court proceedings against the commissioners, collectively and individually.

Withnell Opposes Hearing.

"He's not entitled to a hearing and I will not vote to give him one," said Withnell at the meeting. He explained again that his reason for discharging Michaelsen was that the electrician "stipped a requisition for an automobile by him."

Commissioner Ryder's request was that the commissioners unanimously refuse to give the discharged electrician a hearing. The three commissioners who voted to give him a hearing stood pat.

"If Michaelsen has got something he wants to spill let him tell it," said Dahlman. "The way to do it is to give the man a hearing and have the thing over with. The longer it's put off the worse it will be."

Butler said he did not care whether the law required a hearing or not, he would stand pat to hear Michaelsen. "I worked with Michaelsen during tornado relief work," he said, "and found him an honest, hard working man. I'm not voting to retain him in office. If Withnell wants to fire him, that's Withnell's business. None of us would vote to retain him over Withnell's decision, but out of courtesy to him he ought to be heard."

Michaelson says if he is not heard he will invoke the courts to grant him a hearing before the commission, and if he loses in this, will rent a hall "and tell unpleasant things about Commissioner Withnell."

Rumors of Recall Petition.

Rumors that Danes were circulating a petition to recall Commissioner Withnell were denied by Michaelson and officers of the local Danish association, but feeling is running high among Michaelson's friends, and the city electrician declares he can secure sufficient signatures to a recall petition in a very short time.

MIX OIL COMPANIES; "ATLAS" IS NOT IN IT

By some mistake the published accounts of the prosecution started by the state oil inspector for adulteration of linseed oil made it a case against the Atlas Oil company, when, in fact, it was against the American Linseed Oil company. It seems that at the hearing before Police Judge Foster the defendants

Asserts Prisoners Are Charged for Pressing Trousers

Complaint that prisoners leaving the county jail are "shaken down" for 25 cents each for pressing their clothes and that the big electric pressing iron at the jail is left all day with the current on, was made to the Board of County Commissioners by J. Dudley, who is employed at the jail.

The iron was purchased by the board to have the prisoners' garments put in order after being stored away in the jail lockers, for when the men went out looking like tramps they often were immediately "picked up" as suspicious characters.

Jailer Cahill admitted that he looked Dudley out of the jail for a time, but denied that his charges were true. He said the man who presses the prisoners' clothes did not require payment from them. "I considered that when Dudley tried to tell me my business it was time for me to do something," he said.

Five Box Cars Are Demolished in the Gibson Switch Yard

An extra Burlington freight train from Lincoln ran into the rear of the second section of freight train number 73 at the lower end of the Gibson freight yards at 11:35 yesterday morning.

No one was hurt except brakeman Shephard of number 73, whose right leg was slightly bruised.

Five cars of merchandise were demolished with a total loss of the cars and about 75 per cent loss to the contents. One of the cars was burned up and the engine on the extra was turned over on its side. Fifteen rail lengths of track were torn up.

The blame for the accident has not yet been determined.

were represented by W. A. Eddy, who is local agent for both of these oil companies, and by Attorney H. A. Myers, who is likewise legal representative for both of them. CARRIERS TO DELIVER FOREIGN POST PACKAGES

Packages of foreign parcel post coming into Omaha after July 1 will be delivered by the carriers in all cases where there is no duty on the articles. Hitherto packages weighing over four pounds or those considered too heavy or too awkward for the carriers to handle were left at the postoffice and the party to whom they were addressed was notified to come and get the parcel. Parties will still be notified about parcels on which there is a duty due, but other foreign parcels will be delivered by carriers. This is a part of a new order just sent out to the post-offices.

Gas Franchise Bill Comes Up Next Week Before City Council

The ordinance effecting a compromise with the gas company and securing it gas for private consumers and 20-cent gas for the city, will be passed by the city commissioners next week and arrangements will at once be made to pass an ordinance calling a special election to submit the compromise to a vote of the people.

"It looks like the election will be held in July," said Assistant City Attorney W. C. Lambert, "although it may be delayed until early in August."

City commissioners and officials of the gas company will make a united campaign to explain the compromise and seek to have the ordinance adopted. The ordinance will extend the gas company's franchise for twenty-five years under the restriction that the council may purchase at ten-year period or the expiration of the franchise by giving due notice.
