GRAIN AND PRODUCE MARKET

Many Wheat Traders Feel Friendly to Bull Side of Market.

CORN SPRINGS A BIG SURPRISE

Tutures Score an Advance in Price at the Best Point in the Senson, Going Up Two Cents Per

OMAHA, June 28, 1913.

There are many norm in the wheat trade who feel friendly to the bull side of the market and these are the larger speculators, not only at Chicago, but at Minneapolis. Duluth and the southwest. It is an unusual occurance for the bulls in wheat to be unable to swing the market to their liking, with a new cropright at our doors, but those who have put out big short lines with the expectation of the hedging transactions lowering values sharply and probably securing profit, have in a great many instances been forced to retrace their steps and cover their short lines at losses. Hedging mates against the new crop of wheat are to be seen in Chicago as well as in the southwest markets, and for sourcel the southwest markets, side. Crop advices from sections of the spring wheat country were anything but encouraging to the bears. Still a great many of them sold wheat, as they expect scmething now invisible to turn up to help them out of their positions. The best crop experts ever sent out of Chicago are now in the spring wheat country and their reports show that the wheat plant has suffered more or less, and that a further falling off in conditions is probable.

Cash wheat was unchanged to \$60. Cash wheat was unchanged to %c

Cash wheat was unchanged higher.

The greatest surprise of the day yesterday was in the corn trade, when futures scored an advance at the best point of the session of about I cents over the close Thursday. The market opened excited on extreme hot weather news from Oklahoma and messages claiming danger to the crop. Cash corn was the higher.

claiming danger to the crop.

was 4c higher.
Back of the present strength in the oats oats market is the belief that the oats crop of the country has been seriously shortened by the dry weather. Cash oats were 4c higher to 4c lower.

CHICAGO GRAIN AND PROVISIONS

Features of the Trading and Closing Prices on Board of Trade. Prices on Board of Trade.

CHICAGO, June 28.—Large marketings of old wheat and some increase in the offers of new acted today as a drag on prices. The close was easy, will be to will be lower. Corn finished, will be to large down; oats, off he to large, and provisions ranging from The decline to an advance of 24,65c.

Primary receipts of wheat today

advance of 24,00c.

Primary receipts of wheat today amounted to 52,000 bushels, against 275,000 bushels twelve months ago, and for the corresponding year, now closed, were 79,500,000 bushels, compared with 23,312,000 bushels. Posting of the figures show-75.860,000 bushels, compared with £85,51å600 bushels. Posting of the figures showing this huge enlargement, more than
146,000,000 bushels, had a depressing effect
on bulls. Furthermore, asaboard clearances were light, the total of wheat and
flour equalling only 273,000 bushels.

Some strength and excitement early in
the wheat pit was based on the announcethe corresponding teath shows the receipts

DISPOSITION-HEAD.

Totals9,900 CATTIAE—There were no fresh receipts of cattle and nothing of any consequence on sale. For the week receipts have been very liberal, showing a considerable gain over most recent weeks and a slight falling off as compared with a year ago. As noted before in these columns the trade has been rather slow and dull on most days of the week owing to the fact that receipts of beef steers have been most too large as compared with the consuming demand. This has been the condition of practically all markets, so that there has been a tendency downward and a lower range of prices. The fact is that just at present more beef cattle are coming than the trade really demands and hence the duliness and weakness that has prevailed for some days back. At this point the market on beef steers is generally 25c lower than at the close of last week.

Cows and helfers have also suffered in the decline, the best helfers being very little lower, while cows are generally 25c lower than a week ago.

Very few stock cattle and feeders have CATTLE-There were no fresh receipts

Very few stock cattle and feeders have been coming to market this week and prices in consequence of this have shown but little change. The demand, however, has not been very brisk and there is a feeling that had receipts been at all lib-
