Eat This Food During Summer

Be careful what you eat during hot weather. What you need is food that nourishes but does not heat the body.

Faust Spaghetti fits right into that class. It is a high gluten food-a bone, muscle and flesh former-but contains practically no fat, therefore cannot heat the body.

SPAGHETTI

makes a savory, appetizing dish. It can be served in a great many

ways that appeal to the palate. It is easily prepared—it makes a nutritious, non-heating meal during the summer. Write for free recipe book, "Spaghetti and Its Uses." Faust Spaghetti put up in air-tight, moisture-proof packages.
