STATE VALUATION INCREASING

Reports from Twenty-Five Counties. Show Addition of Million and Quarter to Total Assessment Roll.

(From a Staff Correspondent.) LINCOLN, Neb., July 2 - (Special.) - The State Board of Control in now a fact. This morning the board that has been acting as an advisory board of control slipped into its new position and was at once confronted with the proposition of letting contracts for supplies for the state institutions. It had been the custom of the Board of Purchase and Supplies to let the contracts in the senate chamber, where there was plenty of room to spread out the samples, but the Board of Control opened the samples in its office, and for a time it looked like a little country store on a bargain day.

The old members of the Board of Purchase and Supplies would occassionally walk by, peep in and then pass on with a broad grin, fully appreciating what the Board of Control is up against.

gigantic fortune How Deal Was Made.

"The first consolidated balance sheet of the Union Pacific Railroad company, as of June 30, 1900, contained for the first time the evidences and results of what had been going on from June 30, 1898, to June 30, 1900, and this is what had happened:

"In the reorganization the old Union Pacific had lost control of what is known as the Oregon properties. They consisted of the Oregon Railroad and Navigation company and the Oregon Short Line Railread company. Between the dates I have mentioned the new company recovered them and paid for them, first by an issue of its own securities and, secondly, by an assumption of debts of these companies, and as I have already said, the consolidated balance sheet of June 30, 1969, showed for the first time the consolidated statement of all these companies."

"The sum of \$82,000,000, or its equivalent, was entered twice on the asset side. But up to that time the transaction was only open to the objection and criticism that it represented a piece of clumsy bookkeeping, for again on the debit side there appeared an entry corresponding, treating the securities owned by the Union Pacific as though they were still affoat and in the hands of the public; but the

Surplus of Over Forty Millions at the Close of Fiscal Year.

BIG INCREASE IN PENSION ROLL

Smoking and Drinking of Americans During Twelve Months Brings Government Nearly Third of Billiton.

WASHINGTON, July 1.-Uncle Sam osed the fiscal year 1913 with a surplus of \$40,083,229, representing the excess of receipts over expenditures, exclusive of Panama canal and public debt transactions made. This exceeds last year's surplus by \$3,750,000. The Panama canal expenditures and public debt transactions, however, wiped out the surplus of ordinary receipts over ordinary expenditures and created a deficit for the year of \$2,149,000.

Total receipts for the fiscal year amounted to \$725,782,921, while the ordinary disbursement were \$683,009,692.

Corporation taxes yielded the government \$34,948,870, or \$5,365,766 more than during the fiscal year 1912. While custom receipts for the last few months have shown a decrease, as is characteristic of a tariff revision period, the total for the fiscal year reached \$318,142,000, an increase of nearly \$7,000,000 over the previous year. Some Drinking and Smoking

The record drinking and smoking of the American people during the last twelve months brought the federal government the enormous total of \$309,478,000 in itnernal revenue receipts, which was \$16,500,000 greater than in 1912, and one of the highest amounts on record. Under the first year's operation of the

veterans and widows \$175,134,000, an increase of \$21,537.000. The fiscal year closed with \$164,704,000 in the general fund of the treasury as ompared with \$167,152,000 a year ago. The cash drawer of the treasury con-

tains \$65,253,000 as the working balance of the government. The trust funds of the treasury include \$1,096,727,000 in gold coin last year, making a total of \$315,229,000 'Did you know at first that it was spent on the canal to date, of which \$178,-628,000 has been paid out of the general

Effective, Harmless Way to Bleach Skin

(Ladies' Favorite Magazine.)

There's no more dependable bleach than buttermilk. Dependable not only because of its effectiveness, but because it can be used with entire safety on any skin. Applied nightly to a rough, red, freckied or sallow skin, it will gradually chase away the ugly tints and make the skin as soft as a rose petal. The most conveniant form it which buttermilk may be used for this purpose is the presolated buttermilk paste. Most any druggist will have this in stock. The best way to use this in to put a liberal coating over the tace, neck, arms or hands, rubbing it in gendly while applying. In the morning take it off with soapless water.

The cleansing power of presolated buttermilk paste and its freedom from grease are other reasons for using it. By keeping the pores scrupulously clean it is an excellent blackhead preventive.—Advertisement.
