FINISH FRANCHISE SECTION

Charter Workers Through with One Portion of Their Labors.

FIX RATES ON WATER AND GAS Charges Provided for Are Below the Minimum Now Exacted by Water Board and the Lighting Companies.

What the Charter Writers... Franchise chapter completed and adopted. Motion to reconsider section calling special election to fill vacancies, which affected electric utility, gas, water and city controller, failed by vote of 10-7.

With at least twenty amendments offered and rejected, and with ideas as to details widely diverging, the home rule charter writers wound up a three-hour session yesterday afternoon by adopting the franchise section of the charter practically as it came from the general committee of five.

Fourteen amendments of the twenty originally proposed by the Economic League met with a persistent volley of "noes" and were all defeated. Secretary Dan Horvath, steady under the successive defeats, read on until the last amendment was finished. Some of the ideas advanced by the Economic League had been embodied in the charter.

This franchise chapter of the charter provides for a twenty-one-year franchise, ten-year contracts with regard to rates and fixes maximum rates below the existing minimum charges. Gas, electricity and water charges shall not under this charter exceed the following: Water, 15 cents per 1,000 gallons; gas, 11 cents per 1,000 cubic feet; electricity, 11 cents per kilowatt.

An amendment offered by Chairman Victor Rosewater providing that the street car company carry policemen, firemen, mail carriers and health officers free to and from their homes, while on duty, met with the unanimous approval of the convention.

Senator John E. Reagan started the meeting with a motion to reconsider the section which calls a special election to fill vacancies within sixty days after the adoption of the charter. Health Commissioner R. W. Connell and City Controller C. B. McDonald are affected. The motion lost.

Lobbying of No Avail. Prior to the convention considerable lobbying was done by the E. Holovitchner and R. W. Connell factions and the latter declared the motion to reconsider would carry with a vote of 10 to 7. It was lost by a vote of 8 to 7.

The suggestions on amending the franchise chapter started with Fairfield, who moved to strike out the reference to maximum rates and substitute "reasonable rates" thereof. The defeat of the same was nearly unanimous.

Harry Hackett moved to amend the same section by substituting 5 cents for 11 cents. This was voted down. He moved to substitute 7 cents for 11 cents in the electricity rate. This, too, went down.

Undeterred, Hackett rose for his hardest battle. He asked that the maximum water rate be reduced to 12 cents per 1,000 gallons and made uniform. Shamp stood with him in this fight.

Want Still Lower Rates. "Why should there not be a universal rate?" inquired Hackett. "It has been demonstrated that the water board can furnish water at a profit to big consumers at 12 cents and they ought to be compelled to supply the little fellow with the same service at the same price. Their minimum charge is outrageous."

"It certainly is," said Shamp, "and when the people wake up to the fact that it's the Water board's fault they will elect a different set of men. We are charging ourselves more for water than any other city in the country would have charged us."

Even W. J. Kierstead stood with Hackett and strongly urged the universal uniform rate. The amendment, however, was lost.

Reagan declared the general committee had "just guessed" at the maximum rates and jotted them down.

Chairman Rosewater took exception to the statement and said he for one had made a thorough investigation and some other members of the general committee had, too.

Metcalf voted straight through for Hackett's 7-cent electricity and 5-cent gas, but his "progressive" line of talk stopped when Hackett urged the universal water rate, and, back-peddaling, he voted against it.

Urging 7-cent electricity, Hackett said he was certain the electric light company could furnish it at a profit at that rate.

"We are not denying that," said Chairman Rosewater. "It may be true, but what we want is to fix a rate we can get and one that will reduce the cost of gas, electricity and water. We know 11 cents is not confiscatory and that a maximum rate of 12 cents will stand. The council will still have power to contract for lower rates."

Persistent Advertising is the Road to Big Returns.

Swift's Profits Fifteen Per Cent Upon Its Capital

BOSTON, July 2.—(Special Telegram.)—Swift & company are showing some gain in gross sales over last year when the aggregate topped the \$200,000,000 mark for the first time in the company's history.

For the first three quarters of the year ended yesterday, net profits have been running at the rate of 15 per cent on its \$1,000,000 stock, or from \$1,500,000 to \$1,500,000 larger than during the twelve months to September 30, 1912.

Gain in gross sales so far this year has been due largely to enlarged sales of by-products, specialties and to higher prices. In actual pounds of beef, pork and other food products, it is probable that this year will fall 10 to 20 per cent behind last year. Beef sales will certainly show a decrease of fully that amount. The poultry department, however, is ahead of 1912.

CITY RUNNING ICE PLANTS

Seven Factories Seized by Cincinnati Board of Health.

STRIKERS PLACED IN CHARGE Men Ordered Back by Union Officials Under an Agreement with the Mayor—Company Seeks Injunction.

CINCINNATI, July 2.—Seven nonunion ice plants seized yesterday by order of Mayor Henry T. Hunt were being operated today by the Board of Health in an effort to relieve the suffering caused by the strike of engineers, firemen, drivers and helpers.

The plants are in charge of striking engineers and firemen who were ordered to return to work by union officials under an agreement made with the mayor. No ice was "piled" today, but it is expected that a limited quantity will be turned out tonight or tomorrow and that it will be sold to the public. It is no intention to deliver ice, but anyone can obtain it by applying at the platforms of the ice companies or at the fire houses.

The Cincinnati ice company today applied to Judge Spiegel in common pleas court for an injunction to restrain the city "from trespassing further on the property of the company."

PLANS FOR FOURTH OF JULY

Low no fireworks to be exploded which can in any way injure or destroy property.

For the older persons, who have passed the day of fireworks, caps, canes and "midget chasers," there will be plenty of amusement and entertainment.

At the various theaters in Omaha special shows will be given. The Rialto, Empire, Grand and Hippodrome will give vaudeville and moving picture shows for its patrons, as also has the Hippodrome and other motion picture houses.

Fireworks at Parks. The parks are all in splendid condition for picnics. Concerts will be given at Krug and Maxwala parks. Dancing and all other features such as abound in amusement parks will be taxed to the limit. At Maxwala park, George Green will give a concert in the afternoon.

For the lovers of sport, the Omaha base ball management has arranged two ball games, both with Josh Clarke's Sioux City Indians. The first game will be played in the morning at 10:30 o'clock and the second at 3 in the afternoon. Following the afternoon game the drill team of the Denver Blues, stopping over on route to the national reunion at Rochester, will give an exhibition. The grounds will be thrown open to the public to witness the drill.

At the Carter Lake club, Belmont lake, Council Bluffs Rowing association and Young Men's Christian association park will be given aquatic programs. The city tennis tournament will begin at the Omaha Field club at 10:30 o'clock in the morning.

A Jack-rabbit shoot will be held all day long at the Omaha Gun club's grounds, just east of the Douglas street bridge.

Parade for Children. Perhaps the biggest celebration of the day will be at the Prairie park association. The program will begin at 10 o'clock with a parade for the children. Following this will come a children's fancy dress drill and then the tennis championship matches in men's singles and doubles.

At 1 o'clock a band concert will begin in the pavilion. From 1:30 until 4:30 will be races, tennis matches and general celebrating of all kinds.

The grand historic parade will begin at 5 o'clock with Major A. W. Wedemeyer marshal of the day. The line of march will be Twenty-sixth and Meredith avenue to Ames avenue, east to Franklin, north to Grand avenue, west to Twenty-seventh, north to Fowler avenue, east to Twenty-sixth, where it will disband.

At 7:30 o'clock in the evening a patriotic address will be made by Joseph G. Cannon (son of J. Q. Cannon), one hour with a fireworks display will hold forth at Twenty-fifth avenue between Fowler and Meredith avenues. The rest of the evening will be spent in dancing.

FORT DODGE WILL FIGHT RAISE IN TELEPHONE RATES

FORT DODGE, Ia., July 2.—(Special.)—Because the Fort Dodge Telephone company, the only telephone service company in this city, has announced a large raise in rates effective July 1, the city council has notified the board of public utility that it has violated Ordinance 223 passed July 22, 1912 which says "the price of telephone rentals shall not exceed \$1 a year for business and \$1.50 a year for residence telephones. The new schedule makes business service \$2.25, \$2.25 and \$2.25, according to service, and residence telephones \$1.25, \$1.25 and \$1.25, according to service, with 50 per cent discounts if bills are paid before the first of the month. The announcement of the company has created great agitation and litigation promises to be the outcome. The city already warns it will get a restraining order.

WATER BOARD BLOCKS CUT

Reduction in Insurance Rates Waits on New Main.

COMMITTEE FINISHES WORK On Its Report Will Depend Largely the Insurance Rate to Be Charged in Omaha in Future.

"Until the new water main is accepted by the city and that wrangle is stopped, it is not likely that there will be a reduction in the fire insurance rates in Omaha," said A. G. Beeson, manager of the Nebraska rate inspection bureau, when asked about the possible reduction in fire insurance rates in the city.

A committee of five from the National Board of Underwriters has worked some two months in Omaha making investigation of the fire protection facilities, the water pressure and many other phases of the make up of Omaha in general with a view to ascertaining the general hazards here and the risk assumed by insurance companies in insuring property here. This committee has completed its work in the city and has gone, but its report has not yet reached Omaha. They make their reports to headquarters in the east, after which the report is sent to the bureau of rates in Omaha. They make no recommendation with regard to changes in rates, but the rate bureau bases any changes on the facts contained in the report concerning hazards, etc., consulting at the same time the rules of the national board as to when and under what specific circumstances the rates may be changed.

This investigation and the report that will come from it will be the first made here since 1907.

Many insurance men are looking for a reduction in rates to be the result of the recent thorough inspection of the city by the committee, while of course there is always the possibility that a city may be even "penalized," in the language of the insurance men, that is, have the rates even raised after an investigation of this kind. This only occurs, however, where the pressure is on the water facilities, bad fire department, inadequate buildings too congested, or other conditions that increase the hazard.

DAVID LAMAR DREW RESOLUTION ASKING STEEL TRUST PROBE

(Continued from Page One.)

Bride of this city was treasurer and Herman Schultze, also of Washington, was counsel. At one time the "league" depended on Attorney General Monett of Ohio for legal advice, he said.

Martin declined to give names of the "league's" members because they would suffer the stigma of the great trust, which would ruin, blacklist them and secure their discharge from employment."

Martin also declined to disclose the expenditure of about \$50,000 by the "league" on the same grounds. Martin gave the members of the legislative committee of the "league" as himself, Lockwood, Schultze, Monett, Bride and W. B. Fleming of Kentucky, C. J. Van Vorhis of Indiana, William Trent of Illinois, W. G. La Follette of Wisconsin, E. A. Tamm of New York and W. H. Green of Nebraska.

He stated that he had presented to the secretary of the navy evidence of frauds in armor plate contracts and that he had given information to other government officials regarding violations of law by the "railroad trust, coal trust, steel trust, harvesters trust and elevator trust" at a cost of more than \$100,000. He claimed to have drawn many bills for introduction in congress, had helped to prepare for an investigation of the "armor trust" and was "very active" in the preparation of resolutions for the money and steel trust investigations.

Sara Lovett is Lobbyist. The committee wanted to know what Martin knew about lobbies in Washington.

He declared that when Chairman Lovett of the Union Pacific board and Paul D. Cravath of counsel had been to the Department of Justice to discuss the Union Pacific dissolution with Attorney General McReynolds they had lobbied the department. A. C. Dinkey of the Carnegie Steel company, Vice President Johnson of the Bethlehem Steel company and Vice President Petrie of the Midvale Steel company had been in Washington in March lobbying for armor plate contracts, Martin declared.

An active part of that lobby is the Navy league, he added.

J. P. Morgan, Jr. and Herbert Satterlee of Morgan & Co. he named as interested in the Navy league.

"Their lobbying has resulted in the United States paying hundreds of millions for obsolete ships and useless armor," said Martin.

At the close of Martin's testimony the committee took a recess until 4:30 p. m., when G. Harold Powell of the California Fruit Growers' association will be examined.

SENATOR KENYON'S OPINION

Mulhall Confirms What People Have Believed. PORT DODGE, Ia., July 2.—(Special Telegram.)—Senator W. E. Kenyon declared today that Mulhall's confession simply confirm what people have believed of which they have had no proof. He refrained from comment on the West Virginia strike case because the committee is sitting in a quasi judicial way.

He said: "The insidious lobby is a part of invisible government. The investigation is the best thing in years and will enable people to know what influences have been at work for the last ten years in pack committees and stifle legislation."

JAPANESE NOTE IS DELIVERED TO BRYAN

WASHINGTON, July 2.—The latest Japanese note supplementary to the rejoinder of June 4 on the California alien land law protest was delivered today to Secretary Bryan by Ambassador Chinda. The note is simply an elaboration of some of the points contained in the rejoinder.

NO CLUE TO MYSTERY OF MURDERED WOMAN

CHICAGO, July 2.—Twelve hours after finding the body of a well dressed, unidentified woman with her throat cut, the police admitted tonight that they had been unable to identify her or find any clue to a murderer.

Twice during the day it was announced

SERBIA WILL DECLARE WAR

Hostilities Against Bulgaria Will Be Proclaimed at Uskup.

FIERCE FIGHTING CONTINUES

Official Reports from Both Sides Tell of Great Victories—Thousands of Men Killed and Injured.

LONDON, July 2.—War is to be declared by Serbia against Bulgaria at Uskup for which Prince King Peter and Premier Pachich departed from Belgrade this morning, according to the change Telegram company. The premier will state that Serbia has been provoked by Bulgaria to declare war.

Accounts of the fighting between the former Balkan allies in Macedonia coming from the various capitals of the nations concerned are conflicting. The Serbians and Greeks are issuing reports of the defeat of the Bulgarian troops, while the latter state that as emphatically that they are advancing toward Saloniki, which is in possession of the Greeks and at the same time against the Serbians along the whole line.

Bulgarians Twice Defeated. BELGRADE, Serbia, July 2.—Serbian reports of the fighting on Tuesday between the Bulgarian and Serbian armies state that the Bulgarians abandoned several entire batteries of field guns, many rifles and much ammunition.

One thousand Bulgarian prisoners are said to have been taken by the Serbians, who declare that the Bulgarians lost 200 dead and 1,500 wounded.

Victory for the Greeks. SALONIKI, July 2.—The battle between the Greek and Bulgarian troops, which began on Wednesday, resulted in a complete victory for the Greeks, according to official reports. The Greek artillery silenced the Bulgarian guns and the Greek infantry then pierced the Bulgarian lines at Dauldi. The Bulgarian troops were eventually driven away from the plain of Kilkis.

Thousands Killed and Wounded. BERNEVA, Switzerland, July 2.—The casualties during the fighting in Macedonia between the Serbians and Bulgarians and the Greeks and Bulgarians have been much heavier than the published figures would indicate, according to the Serbian Red Cross society. The society telegraphed today to the Swiss Red Cross society asking it to send doctors to the scenes of fighting. The message stated that 2,000 wounded had been already brought from the front and that fighting continued.

Bulgars Claim Victory. SOFIA, Bulgaria, July 2.—The authorities here absolutely denied all statements received in Belgrade as to the success of Serbian troops. An official statement sent out today says the Bulgarian troops repulsed the Serbians and captured a number of villages on the banks of the Stroumitsa river in Macedonia. Afterward orders were given to the Bulgarians to cross the river and return to their former positions. The Serbians are said to have suffered heavy losses.

Denison Banker Gets Black Hand Letter

DENISON, Ia., July 2.—(Special.)—George Neave, vice president of the Crawford County State bank, is in receipt of two letters demanding that he leave the sum of \$25 under a tree two miles east of this city. He communicated the demand to the local authorities and the postoffice detectives. He visited the place, leaving a package of no value, and the sheriff and others made a close watch, but to no avail. Mr. Neave was an inmate brought up over the matter that he had officers secreted at his home, fearing an attack. A postal inspector was here yesterday and believes he has information which will catch the letter writer.

REMAINS OF MAN LOST FIFTEEN YEARS AGO FOUND

VALDEZ, Alaska, July 2.—Parts of a human skeleton found four days ago on Valdez glacier within eight miles of this town, are believed to be the remains of the body of Dr. Logan, a physician who was lost in a storm on the glacier in the winter of 1897. A watch, letters and a diary found with the bones indicate that they are those of the lost physician. When scurvy attacked the prospectors in the Upper Copper river, early in 1897, Dr. Logan went over the snow trail into the interior to administer to the sufferers and while assisting them to come out to the coast, perished in a great storm, which swept the glacier, over which the party was crossing.

DEATH RECORD

Mrs. Mary E. Crossen. FORT DODGE, Ia., July 2.—(Special Telegram.)—Mrs. Mary E. Crossen, a resident of Iowa for fifty years, is dead at her home in Council Bluffs. She leaves her husband and six children. Mrs. G. Crossen was born on a farm near Webster City in 1818.

Roosevelt Speaks for Industrial and Social Justice

NEWPORT, R. I., July 2.—The demand made in the first national platform of the progressive party for regulation of corporations and combinations to "insure their doing justice to their rivals, to their customers and to their employees" has been emphasized. Theodore Roosevelt declared yesterday afternoon at the clamor-bake which opened the national conference of the progressive party, by what has occurred since election in the West Virginia bituminous coal fields.

In opening his speech, Colonel Roosevelt pointed to the progressive platform upon which he ran for the presidency last fall as a document which upholders of social and industrial justice in the future will recognize as one of the great epics of American political history. From it he cited two demands—the first that the national government undertake on a gigantic scale the work of harnessing the flood waters of the Ohio and Mississippi rivers, making for that purpose the outfit that has been used in the construction of the Panama canal. The second demand already referred to, Colonel Roosevelt dwelt upon at considerable length. He quoted from court decisions and declared that he wished he could make the men of property understand that in fighting such decisions and such conditions as in West Virginia he was fighting against anarchy in favor of law and order and for property.

"The utter futility of the plan of action, or rather non-action, advocated in both the republican and democratic platforms last year, and christened by President Wilson with magnificent vagueness 'The New Freedom,' has been strikingly shown by what has thus occurred in West Virginia," Colonel Roosevelt declared.

"The New Freedom" is nothing whatever but the right of the strong to prey on the weak, of the big men to crush the little men and to shield their iniquity beneath the cry that they are exercising freedom.

"There is but one way to interfere with freedom to inflict slavery on others, and that is by invoking the supervisory, the regulatory, the controlling and directing power of the government precisely as the progressives last year demanded in their platform and as I and others like me demanded in our speeches."

BURGULARS LOCK SAFE FOR FORT DODGE GROCER

FORT DODGE, Ia., July 2.—(Special.)—Although the safe in the Conway grocery was left unlocked last night, burglars were unable to procure any of the money deposited there because they locked it when trying to open it. The proprietor of the store remembered after he went to bed that he had forgotten to lock the safe. The incident gave him much worry all night, and he hurried to the store in the morning to see if all was well. He had many misgivings when he discovered a window screen and glass had been broken and entrance to the store had been gained in this way. He found the till of the cash drawer which he had emptied, open. Hoping so the safe he found it locked. When he opened it the money was intact. The burglars had begun to feel with the lock, thinking it was locked, and thereby alerted it. They were then unsuccessful in finding the combination.

Swift's Profits Fifteen Per Cent Upon Its Capital

BOSTON, July 2.—(Special Telegram.)—Swift & company are showing some gain in gross sales over last year when the aggregate topped the \$200,000,000 mark for the first time in the company's history.

For the first three quarters of the year ended yesterday, net profits have been running at the rate of 15 per cent on its \$1,000,000 stock, or from \$1,500,000 to \$1,500,000 larger than during the twelve months to September 30, 1912.

Gain in gross sales so far this year has been due largely to enlarged sales of by-products, specialties and to higher prices. In actual pounds of beef, pork and other food products, it is probable that this year will fall 10 to 20 per cent behind last year. Beef sales will certainly show a decrease of fully that amount. The poultry department, however, is ahead of 1912.

that the body had been identified, only to be contradicted later. The body was found in an alley at 70 West Madison street. The woman had been stabbed in the neck with a knife, severing the jugular vein. Several pieces of jewelry were found on the body, indicating that robbery had not inspired the murder.

RASH ON ARMS ITCHED AND BURNED

Especially at Night. At Times Got No Sleep At All. Cuticura Soap and Ointment Cured.

400 South Hermitage Ave., Chicago, Ill. "I was attacked with a breaking out on the inside of my arms. It was a small rash or pimples and it itched and burned, especially at night, so that before I knew it I had made myself sore. I had to wear the finest kind of cotton underwear, no woolen at all, because the least thing irritated it and made it much worse. The rash itched and smarted until at times I got no sleep at all.

"I had this trouble and took treatments for about one year, but they only gave me relief while taking them. Then I began using Cuticura Soap and Ointment and I got relief right away. I made a good strong lather of Cuticura Soap and washed myself every night and morning, drying myself with a good soft towel, and then applied the Cuticura Ointment. In three months I was a well man again." (Signed) M. W. Foley, Nov. 5, 1912.

TO REMOVE DANDRUFF

Prevent dry, thin and falling hair, ally itching and irritation, and promote the growth and beauty of the hair. Frequent shampooing with Cuticura Soap, assisted by occasional dressings with Cuticura Ointment, afford a most effective and economical treatment. A single set is often sufficient. Cuticura Soap (25c.) and Cuticura Ointment (50c.) are sold by druggists and dealers everywhere. Liberal sample of each mailed free, with 25-p. Book. Address postpaid "Cuticura, Dept. T, Boston."

Men who shave and shampoo with Cuticura Soap will find it best for skin and scalp.
