The Society Bee-Hive

By MELLIFUGIA. Friday, July 4, 1913.
CELEBRATING the Day of Independence on the ocean will be the interesting experience of quite a large number of Omaha people this year. It is the custom on most of the big liners to decorate the boats with American flags and red, white and blue bunting and serve a special dinner with extra decorations and favors for the holiday. All holidays are duly celebrated and much attention is given in the way of favors and souvenirs, especially on the American and German liners. Mrs. Charles Kountze and children and Mrs. Ward Burgess and children are spending the Fourth on the steamer Carmania and will land this week in England. Mrs. R. S. Hall and Miss Dorothy Hall are on the steamer Lapland. Dr. and Mrs. John D. Potts, who are on their wedding trip, sailed yesterday on the steamer Arable. Miss Sullivan of the high school faculty and Mrs. Ida M. Hanchett are on the Cretic and will go ashore for an excursion on the Azore Islands for the Fourth and then continue to Gibraltar. Dr. LeRoy Crummer, Dr. Dunn and Philip Metz, who sailed on the Kaiser Wilhelm II., expect to land on German soil in time to celebrate the Fourth.

The Fourth will be celebrated at the Field club with a concert at 4 o'clock in the afternoon, followed by table d'hote dinner and dance. MICHAELSEN TO BE HEARD

Commissioners Suspend Electrician and Set Date for Hearing.

MICHAELSEN WINS ONE ROUND
Judge Enacts Rules that Commission Cannot Discharge Him Without First Giving Him a Hearing.

Charges of misconduct, insubordination and attempts to bring his superior office into "disrepute and contempt" were filed against City Electrician Michaelson by City Commissioners C. H. Withnell and John J. Hyder. Michaelson was then peremptorily suspended without pay until July 15, when he will be given a hearing on the charges. The hearing will be held at 2 o'clock in the afternoon before the city commission. Commissioners Butler and McGovern voted against the suspension. Mayor Dahlman, who has voted with Butler and McGovern, to give Michaelson a hearing, was absent. The resolution suspending the electrician directs the assistant electrician and the head of the department of fire protection and water supply to perform his duties until the hearing is had. Michaelson was dismissed by the city commission upon complaint of Withnell, his superior. The charges filed enumerate the reasons for the discharge. The fact that Michaelson slipped a regulation for an automobile past his superior and then declared he "could get Withnell to sign anything" is set forth. Michaelson did not appear at the city hall. Withnell did not discuss the charges. He had stated that regardless of the suit brought by the electrician to restrain the commissioners from discharging him, he would give him a hearing. Byrne and Kelley May Be Put on the Board of Governors

T. C. Byrne and George H. Kelley are being talked of as the successors to W. L. Yetter and Charles R. Courtney, who have resigned from the board of governors of the Knights of Ak-Sar-Ben. Yetter resigned from the board three weeks ago because of poor health and Courtney left the board at the last meeting because of more urgent duties in his private business.

Entire East Has Its Eyes on Nebraska Crops, Says Hayden

"No, the east is not worrying about the currency legislation since Secretary of the Treasury McAdoo made the statement that in case of stringency he would issue \$500,000,000," said Joseph Hayden or returning from a week's stay in New York. "That statement of McAdoo's had a great effect." Mr. Hayden says business conditions in New York are good and that everyone is optimistic in view of the favorable advance crop reports from all over the country. "The advance crop reports from Nebraska, for example," said Mr. Hayden, "was never better, and New York business watches all these reports very closely." The thing that New Yorkers are watching with the keenest interest at present, according to Mr. Hayden, is the lobby investigation and some of the sensational disclosures that are being made.

ACTING MAYOR ORDERS A SAFE AND SANE FOURTH.

DAN R. BUTLER.

Orders for a safe and sane Fourth of July have been issued from the mayor's office, and has gone out from the office of the police commissioner to the city police force. Mayor James C. Dahlman is out of the city, but Acting Mayor Dan R. Butler issued the orders. Butler not only calls for a safe and sane celebration, but he has instructed the police force, and the fire warden has received similar orders to prevent the indiscriminate sale of fireworks. "I understand at least one big transient dealer has set up here and has an exclusive right to certain fireworks," said Butler. "We are investigating, and if he is found to be a transient the license inspector will force him to take out a 35-a-day license under the law or get out of town."

FORMER OFFICIALS HAVE BIG CONSTRUCTION PLANS

Peter Elasser, former county commissioner, has started the construction of a one-story fireproof store building at the southeast corner of Fortieth and Farman streets. It will contain three stores, one of which already has been leased to a plumber. John Lynch, present county commissioner, is building an apartment house at Twenty-second and Leavenworth streets. It will contain four apartments and cost \$12,000. Key to the Situation—See Advertising.

BECOMES INVOLVED OVER DISPOSAL OF GARBAGE

William Salfeldt, 106 Canton street, became involved with Peter Neisen, one of his neighbors, over the disposal of refuse. Salfeldt had been ordered by Judge Foster to make sewer connections on his property, but Salfeldt disregarded the order. Upon being summoned by the court, he attempted to relate the family troubles and when told to restrain himself to the subject, he made derogatory remarks concerning the judge. He was allowed to remain in custody for several hours, after which the judge remanded him for contempt of court, giving him a month to connect with the sewer.

TELEGRAPH OPERATOR IS STRICKEN WITH APOPLEXY

George W. Shaw, manager of the Burlington telegraph office at the headquarters building, was stricken with apoplexy at 6 o'clock yesterday and taken to the Wise Memorial hospital. His condition is critical and little hope for his recovery is entertained. He was at the office in charge of work all Wednesday and when he went to his rooms, 237 Davenport street, at night, appeared to be in the best of health. Yesterday morning, when dressing, he fell to the floor, immediately becoming unconscious and has since remained in that condition. Mr. Shaw is a single man, his wife having died many years ago. He is close to 70 years of age and has held his present position with the Burlington forty years. Prior to that he was a telegraph operator and at one time took the press report for The Bee. He was one of the first operators in the country to discard the tape and register and receive messages by sound.
