

KEARNEY BLANKS HASTINGS

Pitcher Wright Allows Home Team Only Two Hits.

FOUR RUNS MADE BY WINNERS

Hastings Plays Slightly Better Fielding Game, and Stone One Gives His Opponents Six Safe Ones.

HASTINGS, Neb., July 9.—(Special Telegram.)—With luck on its side Kearney today took the second game of the series by the score of 4 to 0. Hastings played a slightly better fielding game, but was weak at the bat, two strikes being the allowance of Wright while six was the sum total of Stone. Score:

Table with columns for AB, H, O, A, E for both teams. Kearney: 10, 2, 1, 1, 1. Hastings: 10, 1, 1, 1, 1.

Home run: Woodruff, three-base hit: Spence, McKnight, sacrifice hit: Fortman, stolen bases: Harrison, struck out: By Wright, 6; by Stone, 3; by Stone, 2; off Stone, 4. Hit by pitched ball: By Wright, 1. Hit by pitched ball: By Wright, 1. Hit by pitched ball: Stone, 1. Umpires: Freece and Johnson.

Seward Beats Grand Island

SEWARD, Neb., July 9.—(Special Telegram.)—Seward defeated Grand Island today, 7 to 3. The feature was a batting rally by Seward in the seventh, in which five runs were made. Score:

Table with columns for AB, H, O, A, E for both teams. Seward: 10, 7, 1, 1, 1. Grand Island: 10, 3, 1, 1, 1.

Home run: Seward, three-base hit: Seward, sacrifice hit: Seward, stolen bases: Seward, struck out: By Seward, 3; by Grand Island, 2; off Seward, 4. Hit by pitched ball: By Seward, 1. Hit by pitched ball: Grand Island, 1. Umpires: Freece and Johnson.

Beetle of Strange Kind Playing Havoc in the Vineyards

Grape growers of Douglas county are confronted with a new condition this year and one that threatens to practically destroy the crop. A beetle, an inch long, one that is new to this section, has put in an appearance and is creating havoc in the vineyards. The beetle does not work on the vines, but attacks the fruit, cutting the bunches of grapes from the stems.

Different kinds of sprays have been tried, but without results. So far, the only way of effectively dealing with the beetle has been to cover the grape vines with canvas and under this start tobacco leaf smudges. The smoke from the tobacco kills the beetles.

Kennedy to Preside at the Metcalfe Luncheon

J. A. C. Kennedy has been selected to act as chairman at the complimentary luncheon which will be given at the Commercial club this noon for Richard L. Metcalfe, prior to his leaving for Panama, where he will assume the duties late this month as governor of that place.

Public to See the Dry Cleaning Exhibits

The exposition of machinery for cleaning and dyeing clothes and the accessories of the cleaning and dyeing establishment will be thrown open to the public Thursday. Nearly thirty booths containing goods and machinery used by cleaners and dyers are at the Auditorium. There is much to interest the public.

Always Air Again Proves Its Efficiency

Protected by U. S. Patents. Beware of Infringements. The three winners of great Panama Pacific Road Race used Always Air equipped tires. Read what they say:

- First—Frank Berbeck. Ran 200 miles; no extras; Always Air saved me and won me the race.
Second—E. S. Waterman. Only two tires changed on my heavy Fiat; several nails in tires; no loss of air.
Third—Barney Oldfield. Always Air the big feature that gave me third place in hardest and greatest race of my experience. "You know me."

Guaranteed to do this: Always Air is sold under a positive guarantee to cure punctures up to the size of a twenty-penny spike—to stop all slow leaks, thus doing away with the chief cause of rim cuts and blowouts and to increase the life of your tires at least 50 per cent.

Guaranteed not to do this: Always Air is not affected in its operation by heat or cold, it will not injure tubes or casings, it will not harden, gum, dry up or deteriorate with use.

Always Air Makes Punctures Harmless. Always Air relieves your mind of that ever lurking fear of the puncture which comes just at the wrong time.

WINTER WHEAT OVER NORMAL

Total Production Nearly Five Hundred Million Bushels.

SPRING IS OFF SEVERAL POINTS

Condition of Corn Crop Six Per Cent Above Same Time Last Year—Yield Will Be Nearly Three Billion Bushels.

WASHINGTON, D. C., July 9.—The first idea of the size this year of the country's greatest crop—corn—was given today, when the Department of Agriculture issued its report showing the acreage, condition and estimate of the number of bushels of corn, which condition reports indicate will be produced. More definite figures as to the size of the great wheat crop, expected to be the second largest ever gathered, also were given, as well as the first idea of the size of the potato, tobacco and rice crops.

Details of the acreage, condition, on July 1, and indicated acre yield and total production, interpreted from condition reports, of the various crops, follows: Winter Wheat—Area planted, 30,000,000 acres, compared with 28,571,000 acres last year. Condition, 83.3 per cent of a normal, compared with 83.5 per cent on June 1, 73.3 per cent on July 1, last year, and 79.3 per cent, the ten-year average on July 1. Indicated yield, 15.6 bushels per acre, compared with 15.1 bushels last year and 15.3 bushels, the average for the last five years. Estimated total production, 468,000,000 bushels, compared with 430,545,000 bushels last year; 450,545,000 bushels in 1911; 434,142,000 bushels in 1910, and 354,000,000 bushels in 1909.

Spring Wheat—Area planted, 19,650,000 acres, compared with 19,514,000 acres last year. Condition, 73.3 per cent of a normal, compared with 65.5 per cent on June 1, 80.3 per cent on July 1, last year and 85.3 per cent, the ten-year average on July 1. Indicated yield, 11.7 bushels per acre, compared with 11.3 bushels last year and 11.3 bushels, the average for the last five years. Estimated total production, 225,000,000 bushels, compared with 220,345,000 bushels last year, 190,682,000 bushels in 1911, 209,979,000 bushels in 1910 and 265,000 bushels in 1909.

All Wheat—Area planted, 49,650,000 acres, compared with 48,085,000 acres last year. Condition, 78.6 per cent of a normal, compared with 74.5 per cent on June 1, 80.1 per cent on July 1, last year and 83.9 per cent, the ten-year average on July 1. Indicated yield, 14.1 bushels per acre, compared with 13.3 bushels last year and 14.5 bushels, the average for the last five years. Estimated total production, 711,000,000 bushels, compared with 700,870,000 bushels last year, 621,238,000 bushels in 1911, 635,121,000 bushels in 1910 and 683,000 bushels in 1909.

The amount of wheat remaining on farms July 1 is estimated at about 255,000,000 bushels, compared with 23,576,000 bushels on July 1, 1912 and 24,971,000 bushels on July 1, 1911.

Corn—Area planted, 106,884,000 acres, compared with 107,063,000 acres last year. Condition, 86.9 per cent of a normal, compared with 81.5 per cent on July 1, last year and 84 per cent, the ten-year average on July 1. Indicated yield, 37.8 bushels per acre, compared with 29.3 bushels last year and 31.5 bushels, the average for the last five years. Estimated total production, 3,971,000,000 bushels, compared with 3,124,716,000 bushels last year, 2,631,488,000 bushels in 1911, 2,886,200,000 bushels in 1910 and 2,532,000,000 bushels in 1909.

Oats—Area planted, 35,341,000 acres, compared with 37,917,000 acres last year. Condition, 78.3 per cent of a normal, compared with 77.0 per cent on June 1, 80.2 per cent on July 1, 1912, and 84.5 per cent, the ten-year average on July 1. Indicated yield, 36.9 bushels per acre, compared with 37.4 bushels last year and 37.7 bushels, the average for the last five years. Estimated total production, 1,311,000,000 bushels, compared with 1,413,377,000 bushels last year, 922,298,000 bushels in 1911, 1,135,341,000 bushels in 1910 and 1,007,000,000 bushels in 1909.

Smaller Grains. Barley—Area planted, 7,255,000 acres compared with 7,800,000 acres last year. Condition, 76.4 per cent of a normal, compared with 87.1 per cent on June 1, 83.3 per cent on July 1, last year and 85.4 per cent, the ten-year average on July 1. Indicated yield, 22.8 bushels per acre, compared with 22.7 bushels last year and 24.3 bushels, the average for the last five years. Estimated total production, 166,000,000 bushels, compared with 223,324,000 bushels last year, 190,240,000 bushels in 1911, 173,532,000 bushels in 1910 and 173,000,000 bushels in 1909.

Rye—Condition, 55.6 per cent of a normal, compared with 59.3 per cent on June 1, 68.3 per cent on July 1, last year and 60.7 per cent, the ten-year average on July 1. Indicated yield, 16.1 bushels per acre compared with 16.8 bushels last year and 16.3 bushels, the average for the last five years.

White Potatoes—Area planted, 2,686,000 acres, compared with 2,711,000 acres last year. Condition, 83.3 per cent of a normal, compared with 83.3 per cent last year and 83.3 per cent, the ten-year average on July 1. Indicated yield, 93.1 bushels per acre, compared with 112.4 bushels last year and 96.1 bushels, the average for the last five years. Estimated total production, 248,000,000 bushels, compared with 420,947,000 bushels last year, 252,727,000 bushels in 1911, 249,025,000 bushels in 1910 and 259,000,000 bushels in 1909.

Tobacco—Area planted, 1,144,000 acres, compared with 1,235,000 acres last year. Condition, 82.8 per cent of a normal, compared with 87.7 per cent last year and 84.8 per cent, the ten-year average on July 1. Indicated yield, 899 pounds per acre, compared with 786.5 pounds last year and 823.3 pounds, the average for the last five years. Estimated total production, 1,029,000,000 pounds, compared with 982,850,000 pounds last year, 908,100,000 pounds in 1911, 1,164,415,000 pounds in 1910 and 1,066,000,000 pounds in 1909.

Flax—Area planted, 2,246,000 acres, compared with 2,501,000 acres last year. Condition, 82 per cent of a normal, compared with 82.9 per cent last year and 87.3 per cent, the ten-year average on July 1. Indicated yield, 8.7 bushels per acre, compared with 8.8 bushels last year and 8.5 bushels, the average for the last five years. Estimated total production, 21,000,000 bushels, compared with 25,072,000 bushels last year, 19,370,000 in 1911, 12,715,000 bushels in 1910 and 20,000,000 bushels in 1909.

Hay—Condition, 80.3 per cent of a normal, compared with 87.7 per cent on June 1, 85.3 per cent on July 1, last year and 82.3 per cent, the average for the last five years. Indicated yield, 1.33 tons per acre, compared with 1.47 tons last year and 1.38 tons, the average for the last five years.

Panhandler Gets Ten Days in Jail

John Thompson was sentenced in police court to ten days in jail for panhandling on lower Douglas street. Thompson stopped Lacey Waller and Fred Robert three separate times within an hour with his plea for "a dime to ride across the bridge."

BICYCLIST BRUISED IN COLLISION WITH A CAR

Wendell Kerschmar, 4 years old, 84 South Twenty-fourth street, met with a painful accident Tuesday afternoon when he ran into a Leaveworth street car at the intersection of Thirty-fifth with a bicycle. He was riding north and was going at a lively speed, when the wheel brake failed and he was thrown with considerable impact against the passing car.

Dr. F. J. Schlier, 413 State Bank building, happened to be passing at the time and, after administering medical attention, took the youth to his home. No bones were broken and his injuries are not serious.

Everybody Is Going to Colorado This Year

Are you? It will be a brilliant Summer assembly amongst those old mountains. That glorious country, with its Sunsets of Fire, its perfect climate, its Estes Park, its Cherokee Park, its Longs Peak, and its Pikes Peak, is known and loved and talked about wherever travelers meet. Make up your mind now that you are going, and that you are going over the

Union Pacific

STANDARD ROAD OF THE WEST

The Great National Highway over which for two generations the East has gone West and the West has come East. It is the road of heavy double tracks and Automatic Electric Block Safety Signals all the way to Colorado—features exclusive to the Union Pacific. The installation of these two features alone cost many millions of dollars. Its roadbed is ballasted with Durdess/Shepherd Gravel; your ride will be as pleasant and free from care as if you were in an open carriage on the boulevards. Make your going to Colorado as pleasant as your stay is sure to be, especially when it costs no more to take this the best route. Triennial Conclave Knights Templar to be held in Denver August 12-15, 1913.

WOULD OUST SLOT MACHINES

P. C. Caldwell Asks Alternative Writ in District Court.

COUNTS 116 IN SOUTH OMAHA

Would Force the Board of Fire and Police Commissioners to Immediately Put Them Out of Business. Patrick C. Caldwell of South Omaha has found that 116 slot machines are in operation in South Omaha. He calls them gambling machines and has filed a

petition in district court of Douglas county asking that Mayor Thomas Hoctor, John H. Divine and William P. Donahue, members of the Fire and Police commission of South Omaha, be commanded by alternative writ to meet forthwith and issue orders to the police department to have the operation of the slot machines stopped, and at the same time arrest the men, companies or corporations who are allowing the machines to be operated in their places of business.

JEWELER MISSES THREE VALUABLE GOLD CHAINS

Two Mexicans evidently touched C. B. Brown & Co., jewelers, 237 South Sixteenth street, for three watch chains worth \$50. The pair asked to see a number of patterns and a little while after they left it was discovered that the three chains were missing.
