

H, YES, it's hot, and the heat has taken all the starch out of our society folks, or, rather, those of them who are still here. But This is the first of the dances for the it's all a question of adjustment to conditions, if what some of my children at this club and these will be friends tell me is true.

While the mercury in the thermometer was hovering close to the hundred mark yesterday the children at one of the neighbors spent the Army Notes. afternoon playing that it was winter, and actually made themselves believe that it was snowing outside and that an icy blast was blowing through the been at Fort Omaha for a few weeks. crevices of doors and windows. They went down into the cellar to put have been oredered to Honolulu and will more coal on the furnace and huddled up close together to keep from leave this week. freezing. When the play game was over they insisted they were not warm at all and that they had been having just the best kind of a time.

Moral: Let some of our sweltering society folks put on a North Pole after spending several weeks at Fort snag and sank. It had on board a cargo stunt. That seems to me to be the thing for these days of mental suggestion.

### Summer Plans.

Mrs. O. D. Kinlinger and daughter, placed for six. Dorothy Kiplinger, will leave Wednesday for Bass Lake, Ind., where At the Country Club. they will be the guests of Mrs. Goorge Moore, who has a cottage at the lake. Later they will go to Racine, Wis., the old home of Mrs. Kiplinger, to visit rela-

### Personal Gossip.

A daughter was born Sunday noon to Mr. and Mrs. B. M. Achtenberg of St. Joseph. Mr. and Mrs. S. Robinson of this city left today for St. Joseph to visit their daughter, Mrs. Achtenberg.

# Builders and Union Men Differ on the **Present Status**

Clark Shelley, secretary of the Builders' exchange, has reported that the carenters, who have been on strike for three weeks, have returned to work, accepting the old 50 cents an hour rate. The carpenters asked for 55 cents an hour, a five cent raise. When the con-tractors refused them, a strike was called and all 50 cent men were taken from their work. Many apartment house and store building jobs were affected, but the contractors went on with the work with the 55 cent men they had. Later the union called some of these men off the work, together with a number of foremen, who were receiving 55 and 60 cents an hour.

The strike was not forceful and not very effective, says Shelley, and agreements were reached whereby the strikers went back to work.

R. J. Bollars, secretary of the local carpenters' union, emphatically denies that any of his union men have gone back to work at 50 cents per hour, as is claimed by Mr. Shelley. "Some of out men have gone back to work, to be sure, but it has been at 16 cents, wherever they have gone to work."

# Moorhead Estimates Ten Thousand Have Registered to Vote

About 1.000 men in round numbers egistered Monday in order to be eligible to vote at the special county bond election for tornado relief. It was the last day of registration for those hoping to vote at that election which takes place July 24. Although the registration books have not yet been checked up so that all the names can be conveniently tabulated, it is estimated at the office of the election commissioner that in the neighorhood of 10,000 have registered from Omaha and South Omaha.

lake, near Sheridan, Wyo., in a wook er so to spend the "heated term."

# NO. 3. Paid Advertisement by the Omaha Gas Company.

# Why the Gas Company Is Willing to Accept

OMAHA GAS COMPANY

Inasmuch as the Gas Company has agreed to the proposed gas rate compromise, good faith with the City's representatives demands that the Company advocate the approval of the franchise by the people.

The idea that the proposed franchise will confer enormous profits upon the Company, suggested by objectors, is wrong.

With the right of the City to regulate the rates by contract for short periods plainly provided in the franchise, these rates being subject to REFEREN-DUM TO THE VOTERS, enormous or unreasonable profits to the Gas Company are IMPOSSIBLE.

The Company is willing to accept the proposed compromise chiefly because it will enable the Company to MAINTAIN EFFICIENT AND ADE-QUATE SERVICE, will end pending controversies, and will establish a basis for the future.

Nothing can more greatly injure the standing of a gas company with the people than inferior service and failure to make extensions of mains to growing districts.

THE ONLY WAY IN WHICH WE CAN PRO-TECT AND MAINTAIN OUR PRESENT INVEST-MENT IS TO KEEP ON SECURING AND PUT-TING IN NEW CAPITAL FROM YEAR TO YEAR TO MEET PUBLIC DEMANDS.

If you take away our ability to obtain the necessary funds, you deprive us of ability to perform our duties as a public servant, and you ALSO DEPRIVE A CONSIDERABLE PART OF THE PUBLIC OF A UTILITY WHICH THEY NEED AND WANT. now.

Our engineers estimate that if Omaha continues. the past rate of growth, new capital amounting to not less than \$1,000,000 will be required WITHIN THE NEXT FIVE YEARS for ADDITIONAL improvements and extensions.

The improvements and extensions referred to will consist of new property and enlargements; not to replace depreciated parts of the property, or for maintenance. The present property, as ANY expert will testify, IS IN SPLENDID PHYSICAL CONDI-TION, OPERATING AT THE HIGHEST EFFI-CIENCY.

The ADDITIONAL investments cannot produce anything like a proportionate increase in gross or net revenues; as most of the additional customers will be small consumers in the outlying districts.

It is extremely difficult at present to secure large amounts of capital for any purpose or upon any terms. It is IMPOSSIBLE for a service company to do so now or any other time upon reasonable terms with only five years remaining of its franchise.

Drawing up a proposed franchise ordinance does not reduce the COST of making and delivering gas.

Dollar gas at present will not yield a fair return upon the actual property investment of the Gas Company. Whether it will do so in the future is a question no one can answer.

It is more important to us to endeavor to place ourselves in position to continue giving adequate service than to insist upon a rate which is fair to us
