CHICAGO GRAIN AND PROVISION

Features of the Trading and Closing

Prices on Board of Trade.

CHICAGO, July B.—Hope that the spring crop would escape serious damage from rust took increasing attention today and lowered the price of wheat. The market closed steady at he to he under last night. Corn finished he to highe higher, eats up he to he an advance of 12%c.

Favorable weather northwest made the wheat pit disposed to accept a cheerful view of field conditions. The fact that cobles were firmer seemed to count for little as against statements that velvet chaff wheat was already being cut in South Dakota and that the North Dakota harvest would be in progress by August 1. In this connection some heavy selling was done on the idea that the threatened harm from rust would be eluded in good time.

Commission houses were moderate buy-sra of wheat on the decline and helped the market to react a little from the low point of the day. Late strength of coarse grain was a factor in checking the wheat bears toward the close.

Although rain and cooler weather west and southwost samed corn at first, higher prices ruled in the end, it was held that the moisture was not sufficiently general and there was but little change in the bullish character of dispatches from the districts where damage was alleged.

In oats a special feature was the active buying of December for outside account. The crop in Missouri was said to be almost a failure.

Realizing asies by longs formed the rules in most of the provision options. The main reason was the prospect of a more liberal supply of hogs next week. Leading options closed as follows:

ferior cattle are possibly around loc lower.

Good drylot cows and helfers have been about steady all the week. On the other hand grassy stock, which at this season of the year kills out very poorly, has been steadily working lower and is around 15925c under last week's figures. Stock cattle and feeders were very strong the first day of the week, but later on broke under the poor buying demand from the country in consequence of the dry weather. At the close of the week stockers and feeders are around 25640c lower than the extreme high point at the close of last week.

the offerings had changed hands by 10 o'clock.

The week's trade has been, on the whole, very satisfactory to the seiling interests. Or four days values have shown a higher tendency, and for the six days prices have registered a gain of fully 10c. With the exception of today's heavy run receipts have been moderate all week, and while the killer buyers have done their best to hold prices down the demand has been good all the way through. The rougher grades have not been in such good request as other kinds, but anything which caused competition between packers and shippers has found a ready outlet.

two shipped direct to one of the packers and the other two held over from Friday were the only features to the trade this morning. As usual, on the last day of the weak there were no indications of anything concerning sheep or lamis and prices are quotably unchanged from yesterday.

JURY WISE TO FREE GRUB Delay in Beturning Verdict Can didly Explained by

Foreman. Judge Kinsley, leaning over the judicial desk, watched the jury intently while the clerk called the roll, and as the last man responded to his name, he addressed them in low, courteous tones.

"Gentlemen," he began, "you have now been deliberating on this case for several hours, and though I am loth to exercise the discretionary power of discharging you with which I am clothed by the law, yet I feel that it would be improper to coerce your judgment by further confinement. If there were any chance of your being able to agree upon
