ALBANIA DEVASTATED BY THREE ARMIES

NEW YORK, July 21.—A private message received by the Rev. Dr. Henry O. Dwight, secretary of the American Bible society, from an American missionary now making his way from Scutari into the devastated regions of Albania, says that the Servians are engaged in what is believed to be an attempt to exterminate the population of several of the Albanian districts.

Guards from the Serbian army, the message says, are patrolling territory definitely assigned to Albania, at a distance of as much as twenty-five miles from the boundary to prevent anyone getting out of, or going into the region. Thousands of refugees are in the mountains without shelter or food, exasperated and starving, feeding on roots, grass, bark and twigs.

"I found near Leah," the missionary said, "and all the way from Soutari, a great many villages burned and few fields planted. The country has been ravaged by the Servians, by the Montenegrins and by the Turkish army, under Essad Pasha, who thus punished the inhabitants for refusing to help him save Turkey. At Kroya we heard of four women and forty-eight men who had been wantonly hanged, shot or cut to pieces with swords by the Servians.

Chinese Strike Breakers Attack Captain of Ship

NEW ORLEANS, July 21.—Muttiny of twenty-five Chinese on the steamship Comus, arriving today from New York, resulted in a panic among the passengers, the probable fatal shooting of the mutineers, the wounding of others and slight injuries to M. L. Proctor of the Comus.

Proctor occurred on the forward part of the steamer today.

Proctor probably owes his life to the bravery of Mrs. Florence Shaw, a stewardess, who saved him from being thrown over the rail by the infuriated Chinese.

The officer had ordered all the Chinese to the hold when the vessel was about forty miles from New Orleans. The orientals protested that the heat was too intense. When Proctor insisted, six of them rushed him to the rail. Then Mrs. Shaw appeared and battled her way among the Chinese, preventing them from throwing Proctor overboard.

Proctor drew his weapon and began firing. Other members of the crew and several passengers rushed into the melee. Finally the orientals were cowed by superior force and were sent to the hold. The most seriously injured man is shot through the lungs, probably fatally.

The Chinese were being brought here to act as strikebreakers for the United Fruit company, whose seamen recently walked out. Each is under \$500 bond. Fearing some might try to escape as the Comus was coming up the river, the Chinese were ordered to the hold.

When the boat docked the orientals were ordered to come on deck, one at a time. With drawn weapons police took the men in charge. Their disposition has not yet been determined.

Swiss Guards at Vatican Threaten to Go on Strike

ROME, July 21.—The mutinous Swiss guardsmen at the Vatican today presented to Cardinal Merry Del Val, papal secretary of state, a memorial containing their grievances and the conditions on which they are disposed to remain in the service. The conditions are:

First—The dismissal of the commander of the Swiss guards.

Second—An increase in Swiss guards from eighty to 100.

Third—The commander and all officers to be chosen from among themselves.

Fourth—The abolition of the prohibition against the guards frequenting stores on the right bank of the Tiber and the granting of permission to frequent wine shops.

Fifth—A return to the original system of military instruction with the abolition of bayonet drill, target shooting and the climbing of roofs to protect the Vatican from imaginary assaults.

Sixth—No punishments to be inflicted in connection with the present agitation. Cardinal Merry Del Val afterwards conferred for a long time with the pope in an endeavor to find a satisfactory solution of the incident.

The Swiss guard at the Vatican has existed since 1526, when it was formed by Pope Julius II. The men are recruited from the Swiss cantons of Zurich and Lucerne, and they enlist for a term of five years. They must be at least six feet in height and all of them belong to families in which it has become a hereditary custom to serve at the Vatican.

CRISIS IN MEXICO IS REPORTED NEAR

Advices of Extraordinary Nature about to Happen Reach Washington.

INFORMATION IS WITHHELD

Freight with Tremendous Significance to Huerta Government.

MARKING TIME IN WASHINGTON

Nothing Doing Until Arrival of Ambassador Wilson.

LOOK TO HIM FOR THE FACTS

At Request of Secretary Bryan, Surgeon General Blue Orders Quarantine Officers to Ex-pedite His Passage.

WASHINGTON, July 21.—Alarming reports of an approaching crisis in Mexico have been received here by high government officials. It was stated today on unimpeachable authority that the developments of the coming two weeks are fraught with tremendous importance to the Huerta government.

So delicate is the information they contain that an intimation of the advice became known today only with the stipulation that it was unofficial and that it should not be represented as being the view of any official of the United States government.

Authoritative publication of the nature of the advice, it was said, probably would precipitate the very crisis the dispatches forecast. The means by which the predicted events were to be brought to pass or what was to follow were not hinted at in the reports, which, so far have found no reflection in the military or naval preparations by the United States.

Meanwhile the administration is marking time on the Mexican problem, pending the arrival of Ambassador Wilson from Mexico City, which is expected by Thursday or Friday.

Real Situation Unknown. President Wilson finds himself in the same state of doubt as to conditions in the district as he did when hope of getting at the facts he summoned the American ambassador to the capital. He realizes that even the Americans scattered throughout Mexico, individually are unable to get a comparative view of the situation in the whole country, their judgment being affected by purely local events. From the Mexican capital come reports that have turned every engagement into a federal victory and so far the administration has heard nothing except through the press reports from the constitutional side of the case. This has led to an intimation that information of a reliable character from that source would be welcomed by the administration.

At the request of Secretary Bryan, Surgeon General Blue of the public health service has ordered quarantine officers at Havana and Key West to expedite the passage of Ambassador Wilson.

BRYAN PROPOSAL IS POPULAR

Projected Treaty with Nicaragua Gaining Friends.

MONROE DOCTRINE IN ADVANCE

United States Is to Pay Three Millions for Canal Route and Naval Base and Make Certain Guarantees.

WASHINGTON, July 21.—Strong support has developed in the senate for President Wilson's policy of protection and supervision over Nicaragua. An informal party of the committee on foreign relations today indicated that the treaty proposed Saturday by Secretary Bryan will be endorsed with a safe margin of votes and come into the senate with the backing of influential members of both political parties.

It became known today that the proposal does not bind the United States to any obligation for the outstanding debts of Nicaragua. The rehabilitation of the republic's finances is expected to come about through the stability that would be given to future operations through the control to be exercised by the United States.

Nicaragua would agree to make no debts in excess of its current resources, however, and the United States would be given the right to intervene with troops at any time to insure Nicaragua independence or to protect life and property. Nicaragua would agree to make no foreign treaties that would threaten its independence and the United States would pay Nicaragua \$3,000,000 for a right to build a canal and a naval base in the bay of Fonseca.

"The proposed control by the United States over the financial operations of Nicaragua is virtually an enforcement of the Monroe doctrine in advance," said one member of the senate foreign relations committee today. Senators Hitchcock, (Continued on Page Two.)

Mrs. Pankhurst is Again Locked Up in the Holloway Jail

LONDON, July 21.—Mrs. Emmeline Pankhurst, the militant suffragette leader who outraged the police on Saturday, was arrested this afternoon when she was entering a public hall to attend the weekly convulse of the Women's Social and Political union. She had intended at the meeting to issue another defiant challenge to the government. Detectives pounced on Mrs. Pankhurst with dramatic suddenness and whisked her away in a taxicab. A few of the women accompanying Mrs. Pankhurst made an attempt to rescue her and in doing so vigorously ironed the detectives with their umbrellas. Six of them were arrested.

A big force of uniformed policemen closed up behind Mrs. Pankhurst and her captors and stemmed the rush of infuriated women, whose yells of "murderers, assassins," drew great crowds to the scene.

Some of the women used hat pins as weapons of offense and several persons were badly hurt. When she arrived at Holloway jail Mrs. Pankhurst refused to leave the taxicab and was carried in by detectives.

New Passenger and Freight Rates in Minnesota Effective

ST. PAUL, Minn., July 21.—The new passenger and freight rates ordered by the United States supreme court in its recent decision in the Minnesota rate case became effective today. Passenger rates are reduced to 2 cents a mile and the new freight rates carry reductions of from 5 to 40 per cent.

The federal courts were to complete their part of the Minnesota rate case today when Judge Willard, acting on the motion of Attorney General Smith was scheduled to dismiss the injunctions against the state, which have prevented it since 1911, from enforcing the 5-cent passenger rate law. This is in accordance with the mandates of the United States supreme court filed Saturday.

Attorneys were to appear in court on behalf of the Chicago Great Western railroad and ask for a modification of its orders on the ground that the road's conditions are similar to that of the Minneapolis & St. Louis, which the supreme court exempted from the new rates, deciding they would be confiscatory.

Experts are making a valuation of the Chicago Great Western railroad property in Minnesota to ascertain whether rates would be confiscatory.

CORN CROP IS NOT DAMAGED

Such is the Opinion of Frank Fowler, Recognized Expert.

BURLINGTON REPORT DIFFERENT

Northwestern Reports Corn North of the Platte to Be in Most Excellent Condition at the Present Time.

With Nebraska wheat out of the way and either threshed or safe in the shock, crop experts are turning their attention to corn and regardless of the hot winds and intense heat of a few days ago, they hold to the optimistic, rather than the pessimistic view of the situation.

The report on the crop situation given out by Frank Fowler of the Nye-Schneider-Fowler Grain company of Omaha is most exhaustive, covering the entire corn belt of the state. It is compiled from the reports of crop experts stationed at more than 100 points in the Nebraska corn belt. In his compilation, Mr. Fowler says:

"Our reports indicate that no serious damage has been done to corn in Nebraska and western Iowa; indeed, the bulk has been benefited by the hot weather and after allowing for the damage on abnormally early corn, we are still ahead by reason of most of our corn not having reached the shooting and tassel stage. That period immediately followed by silking and pollinating, in the condition of our Nebraska and western Iowa corn today, probably means that our greatest exposure will be during the last week in July, say from July 24 to 31, inclusive. If we should have such strenuous weather conditions again during that time, the result would be very disastrous by reason of the small amount of moisture in the top soil.

"We feel that with ordinary weather and moisture conditions from now on, our territory can have as much corn as we ever raised in this state."
