New York. FARMERS TO TAKE SPECIAL TO NEW YORK, JULY 19TH.

The special excursion of Nebraska farmers to western New York farm lands, which leaves Omaha via the Northwestern, Tuesday, July 29, at 6 p. m. should interest every progressive farmer in the states. should interest every progressive farmer in the state.

This is an excursion for farmers only. No doctors, lawyers, merchants, preachers or widows are wanted. It is a revelation trip, to show Nebraska farmers the wonderful opportunities in western New York. It comes at the close of harvest time, when the farmer can see for himself just how fertile and productive is this land.

proximity to the greatest market in the country, and the consequent saving in freight, and because of the greater average yield per acre in New York than Nebraska, gets from 36 to \$11 more per acre for his farm products, than does the Nebraskan.

Nebraskan.

Come on this trip and see how the New York man, who has 100 acres under cultivation, gets from \$600 to \$1,000 more yearly than you do, on the same amoun. of land.

Come and see how you can make that extra \$1,000 as well as the other fellow.

Here are a few of the farms that the excursionists will see in western New York:

excursionists will see in western New York:

'A Peach of Piace'—152 acres, finely improved, only \$75 per acre, \$11,490. Near two cities, Waterloo and Geneva; well arranged 14-room house; three barns; three wells; diversity of crops grown; 1,000 peach trees already planted. Neighbor received \$22,000 for peach crop from fifty acres, in one year. Heasonable terms.

"Lake View Farm"—129,93 acres, all in ouitivation except seven acres of pasture; \$110 par acre. \$42,500. Twelve-room house and barns that could not be reproduced for less than \$1,500; full bearing five-acre apple orchard and many young fruit trees; soil so fertile that it produces bigger crops every year than the best land in the Middle West sverages; situated on west shore of beautiful Cayuga Lake. Near three towns. Good terms.

Farm No 256-81 acres, \$2,50 per acre, \$6,700. Two small farms thrown into one, with two sets of improvements, each consisting of house and barns; natural drainage, stream runs through land. Six acres

GRAIN AND PRODUCE MARKET

Wheat is Stubbornly Bearish in Face of Heavy Purchases.

CORN IS NOW IN NEED OF RAIN

Expert Makes Visit Tarough South and Finds Plant Will Deteriorate If Promised Moisture is Not Forthcoming Soon.

OMAHA, July 23, 1913. The word abnormal will nardly convey to the reader the conditions surrounding the wheat market or yesterday. The stuation was stubbornly bearish, in the the wheat market of yesterday. The stuation was stuboorny bearing, in the
face of enormous takings of cash wheat
at Chicago and other points throughout
the country. The business in Chicago
was placed at 50,000 bushels. No. I hard
and No. I red winter, and that at the
seaboard was said to have aggregated
100 boatloads, or \$6,000 bushels. Whether
these saies were duplicated or not could
not be ascertained late yesterday, but
it was learned, however, that part of the
business at the Atlantic ports was consummated late Monday. In addition to
the above transactions there were liberal
engagements of vessel room for early
August business and it was said that the
freight rate was favorable to the charter.

August business and it was said that the freight rate was favorable to the charter.

The bears in wheat take the stand that the United States already has enormous quantities of wheat for saie and the with the harvest and threshing of the spring wheat crop the offerings will be larger than buyers can take care of. Cash wheat was unchanged.

It was said by John E. Schultz, one of the most learned crop men in the business, last night that should there be good raina, as shown on the weather map, soon prices are bound to go lower, but that corn should be bought on any good break. Mr. Schultz after a trip throughout the entire corn belt said that the plant was badly in need of moisture and unless the plant was visited by rains soon deterioration would be seen. Cash corn was unchanged at 4c lower.

From the action of the oats market yesterday traders were inclined to look upon it as having been overbought in the last few days. There is a disposition, however, to buy on every decilne. Cash oats were ke lower.

For provisions the outcome varied from 567%c backset to 15c advance.

Export sales of wheat here today amounted to a full million bushels. The total for the day before was also a big one, 890,000 bushels. Exporters were said furthermore to be outbidding ordinary dealers in Kansas and Nebraska. Wet weather interfering with the European harvest was the reason accepted as explaining the unusual foreign demand.

Country offerings of wheat which early in the day had falien to practically nothing, assumed ilberal proportions when the market advanced. Hedging sales that resulted wiped out in turn most of the gain, but still left buillish sentiment uppermost in the final trades.

Wet weather over a large part of the belt led to rush of selling in corn. There was good speculative buying on the break, but the effect was offset by the slowness of eastern demand. Oats dropped with corn, and as a result of cool temperatures allowing late planted sections to fill better than had been expected.

Most of the provision trade continued to be in lard, although fluctuations were wider in pork. Offerings, chiefly from packers, exceeded the demand.

HOGS—Receipts were fairly liberal for a Wednesday, there being in the neighborhood of 121 cars, or 5,000 head, reported in. For the three days the supply amounts to 25.614 head, being over 1,500 heavier than last week and aimost 2,500 larger than the same days last year.
Shippers and speculators bought the first hogs this morning at prices that were steady to possibly a little lower than yesterday. Packers, however, started out to break the market and made their opening bids at fully life lower figures. For over an hour there was practically nothing sold, but about this time prices looked up a little, and when trade really started values were generally about 5c lower. Packers only bought what hogs they really had to have at these figures and as soon as the more urgent orders had been filled the market siumped off, leaving over thirty loads unsold. Bids after this last break were quoted as 5500c lower, and even at these figures packers did not seem to care Persistent Advertsing is the Road to

whether they hought anything or not. Taken as a whole, the trade was very unestisfactory, and it looked as though the average would be around a nickel lower. Most of the sales were made at \$1.7592.85, with a sprinkling of the oetter grades of light and mixed stuff on up to \$2.10, the high price for the day. When the last hogs did finally start to move values were decidedly weaker and the general run of these late sales were quoted as \$2.00 lower. In the case of rough packers prices were in some instances a flat ten lower. Movement on the close was lifeless, and at mid-day there were still several loads of hogs in first hands.

Another event which made for builts, another event which made for builts. caution was the unexpected demise abroad of Anthony N. Brady, for many years active in the affairs of such cor-porations as Brooklyn Rapel Transit, Consolidated Gas, United States Rubber

Consolidated Gas, United States Rubber and American Tobacco.

Trading became extremely dult in the late hours, save for a smart movement in Amaigamated Copper, which falled to impart any material strength elsewhere, the closing again inclining to heaviness, particularly in New Haven.

Local money rates were easier for sixty and ninety days.

The general bond market was lower in sympathy with stocks. Panama 2s shared with government 2s in establishing a low record price. Total sales par value aggregated \$1.520,000.
