No part of this, he says, has as yet been paid, and the company has steadily refused and neglected to settle with him.

TO MANAGE THE DISPENSARY

Nebraska Uni Will Take Over Dispensary Hospital Work.

WILL KEEP IT OPEN LONGER

Trained Nurse to Be in Attendance and Hours Will Be from Nine in Morning to Six O'clock Every Evening.

The work at the dispensary at Jacob's Memorial Hall will be under the supervision of the medical department of the University of Nebraska after August 1. The success of the Visiting Nurse association has prompted the medical staff of the university to continue along the lines which were adopted by the nurses two years ago in that a nurse is in attendance during the day. The medical school has always maintained a splendid dispensary which has been open to the public a few hours each day, but now it will be open the entire day from 9 a. m. until 6 p. m. The dispensary will be enlarged and will include the entire lower floor of Jacob's Hall.

Miss Lillian Stutz, who has been in charge for the Visiting Nurse association, resigned to accept the position in the work of the medical department of the university.

Dr. Palmer Finley and Dr. Clyde Moore are the members of the committee from the university who are in charge of the plans. They are greatly pleased with the outlook in the new location. By signing a nurse the entire day the doctors feel that the work or following up treatment may be greatly improved and that the trained nurse may be able to do much of the dressing of wounds which has heretofore taken the time of the doctors.

The Visiting Nurses will direct their work along other lines in the future. They will be announced, however within the next two weeks.

Brother and Sister Making Tour of the World Are in Omaha

Lieutenant Herbert Nordwall and his sister, Wilhelmina, world walkers, have arrived in Omaha. They have no definite itinerary and obey the impulses of the wanderlust wherever it directs them. Lieutenant Nordwall received his appointment in the Dutch army after he graduated from the National Military academy at Breda, but he could not see himself confined to army life and instead chose a career as pedestrian and wandering lecturer. That was six years ago, and since then he has toured the whole world.

His sister, Wilhelmina, after graduating from a convent in London late last fall survived the life before her back at Amsterdam. It looked rather staid and tiresome and she had heard such great narratives of her brother's experiences that she, too, decided to see the world. She sings and her brother lectures, and through the revenue incoming from this work they are making their way from place to place. Miss Nordwall also carries a Holland dog with her. She calls him 'Tumseh', and picked him up ashore and her brother were at the wharf in Amsterdam. Just before the boat left for New York.

Both are attired in Holland peasant costume. The brother is 28 and the sister 19 years of age.

Wants Bonds to Aid All Needing Help Authorized

"Shure, and how'd the bonds go yesterday?"

"Yes'tiddy."

"'Tis in the place where they're votin' thim cyclone bonds?"

"'Tis in the place where they are votin on them, but they have not yet voted them," a judge of election told the lady, who just 'lowed to 'drap' in as she was apassin'.

The hour was 1 p. m., the voting precinct down in the patriotic Thir-rd ward. And up to that minute eight patriots had stepped in to record their sovereign wills for or against the issuance of \$200,000, 4% per cent-payable-semi-annually-tornado relief bonds.

Six able-bodied men of average intelligence sat waiting at \$5 each per day to serve the influx of voters, who failed to flux. Up to noon six, one apiece for the judges and clerks of election, had voted and that included one of the election officers as well as three colored citizens.

Presumably that was an average precinct. At any rate, it was sufficient to indicate the general absence of interest in the proposition to relieve storm sufferers, born of such zeal and animation some months ago.

"It was a mistake," observed an election officer, "not to strike when the iron was hot. I've noticed on a number of occasions that popular enthusiasm, like a red hot iron thrust into water, cools quickly after sizzling awhile."

"Yes," said another officer of the board, "many people don't even know this is the bond election day. Take that old woman who was just in here, she thought it was 'yes'tiddy.'"

The lady might have been off on her dates, but she was not wanting for ideas and opinions of the bonds.

"Ah, what's the good of them bloody bonds, anyway?" she said. "If they'd vote bonds for everybody, what needs a bit of a lift now they'd be a little sense in it."

And with a wink of her blue Celtic eye she confided on the side: "I don't mind saying I might be willin' to accept a little hand meself an general principles."

The attorney general told Senator Hitchcock that the matter would be taken up with the secretary of the treasury, beyond which no assurance was given what would be done about the appointment.

It is generally understood that Secretary Bryan wants Judge A. S. Tibbets of Lincoln appointed to this place, though Mr. Bryan has never admitted it.

The officer, being strictly honest, refused this unflattering bribe and carried out his duty with the result that Morris received a fine of \$50 and costs when brought before Judge Altstadt.

PINKHAM IS NAMED FOR GOVERNOR OF HAWAII

WASHINGTON, July 24.—President Wilson today nominated L. E. Pinkham of Hawaii to be governor of Hawaii.

Good Reason for His Enthusiasm

When a man has suffered for several days with colic, diarrhoea or other form of bowel complaint and is then cured sound and well by one or two doses of Chamberlain's Colic, Cholera and Diarrhoea Remedy, as is often the case, it is but natural that he should be enthusiastic in his praise of the remedy, and especially is this the case of a severe attack when life is threatened. Try it when in need of such a remedy. It never fails. For sale by all druggists.—Advertisement.

LITHOGRAPH CLAIM \$66,000

Other Claim Pushed, Though Effort Being Made to Tide Over Crisis—Indiana Sent to Pine Ridge Again.

DENVER, Colo., July 24.—(Special Telegram.)—"Buffalo Bill's" wild west and "Pawnee Bill's" far east show did not leave for Colorado Springs last night to fill its date in that city today. Instead it remained in Denver held fast by an attachment for \$66,000 and the failure of its owners to agree upon a basis of settlement under the weight

attachment in favor of the United States Lithographing and Printing company of Chicago, which was issued by Judge Perry of the district court Monday afternoon. Deputy sheriffs under the direction of Commissioner of Safety Nesbit collected the proceeds of the show Monday night, some \$6,300, and were again on hand last night. The deputies were present last night not only to collect the cash returns to pay the claim of the Chicago firm, but also to see that none of the property of the show was moved.

Adolph Marks of Chicago, who represents the lithographing company, is said to have agreed to allow the company to proceed on its tour upon the payment of \$25,000 of the \$66,000 claim. Major Gordon W. Lillis, "Pawnee Bill," agreed to pay his share of this amount, but could not come to an understanding with Colonel Cody, whereby the latter would meet his half.

Several conferences were held yesterday and last night at which there were present Cody, Lillis, Marks and Attorney John T. Bottom, representing the Sells Photo circus, whom "Buffalo Bill" owes \$20,000 on a note due next Monday.

The 114 Indians now with the show will be sent back to the Sioux reservation at Pine Ridge, South Dakota, while the other employees will remain with the show in Denver temporarily at least.
