

INSTALL SMOKE CONSUMERS

Boiler Inspector Says Many Are Complying with the Law.

MARKED IMPROVEMENT SHOWN

Some Put In Temporary Devices While They Investigate Adaptability of the Many Patents Which Are Offered.

R. U. Wolf, city boiler inspector, says merchants, hotel proprietors, manufacturers, railroads and business men are co-operating in a campaign to stamp out the smoke nuisance by obeying the anti-smoke ordinance to the letter.

"A great many have already installed smoke consuming or smoke prevention devices," said Wolf, "and others have ordered smokeless furnaces, underfed stokers or the chain grates which prevent huge volumes of dense smoke from escaping."

Here is a list of the places which have obeyed the anti-smoke ordinance to date: Paxton hotel, Ben Biscuit company, Evans Model laundry, David Cole Creamery company, Pantorium Dry Cleaning works, Baird building, Root apartments, Rite building, Alice apartments, Dribbus Candy company, Omaha National Bank building, Omaha Cold Storage company and the Millard hotel.

Of these the last three have installed steam and air jet devices temporarily while they investigate the adaptability of the several smoke consuming devices.

The following places have been using a chemical solution for treatment of the coal until they have decided on a permanent device: Douglas county courthouse, Brown block, Barker block, First National bank, Merchants National bank, The Chicago & Northwestern railroad has equipped locomotives running into Omaha from the west with oil burners and the Burlington road has attached air

and steam jets to the fire boxes of the locomotives entering the city. All the other railroads are co-operating in the abatement of the nuisance by teaching the firemen the best way to fire the engines and handle the coal.

NEW WATER DISTRICTS ARE CREATED BY THE BOARD

Thirteen additional water main districts have been created by the board of directors of the Metropolitan Water district and as soon as the controversy over the custody of the million dollars now held by the city treasurer for the water plant of Omaha is settled contracts for the laying of the mains will be let.

FRANK FURAY IS BACK FROM SHRINE OF ST. ANNE

Frank Furay is back from Quebec, where he went to pay a visit to the Shrine of St. Anne, hoping that his sight might be restored. He has returned without having received any benefit, he still being almost totally blind.

The Shrine of St. Anne is a Catholic church located on the banks of the St. Lawrence river, near Quebec, and for

300 years has been maintained by monks. Annually many people visit the shrine, and it is said that in the past, cures that have seemed like miracles, have been made.

Rine Thinks City Cannot Bring Suit

City Attorney John A. Rine has advised the city commission that in his opinion "it is very doubtful whether the city can maintain an injunction suit against W. G. Ure," restraining him from transferring \$1,000,000 belonging to the city of Omaha to the new metropolitan water district created by the last legislature.

Rine says any taxpayer could bring suit, but he has not decided whether this power rests with the city. The council asked him for this opinion when Ure notified the city that he would transfer this money if he was not enjoined. City Corporation Counsel Ben S. Baker would say nothing of the opinion. Some time ago he suggested that the city might bring an action, but he refuses to discuss the case now.

WOULD OUST MOTHER-IN-LAW

Lester King Asks Restraining Order from Judge English.

TRIES TO BREAK UP FAMILY

Wool Man Assests in Petition that If Mother-in-Law Would Stay Away He and Wife Could Get Along All Right.

To oust his mother-in-law from his home at 232 Woolworth avenue and to prevent her from causing differences between himself and his wife, whom he married last September, Leslie L. King, manager of the Omaha Wool and Storage company, has secured a temporary restraining order from Judge English of the district court. Mrs. Levi A. Gardner of Chicago, Mrs. King's mother, must leave the home if the judge makes the order permanent next Saturday, when the hearing is to be held, she will be unable to make any more visits there.

Says Mother-in-Law Interferes.

Mr. King alleges that when his mother-in-law makes a visit she stays about six months and that she has interfered with the conduct of his home ever since he was married. He alleges that a few months after the wedding she induced his bride to go to Chicago, but that the young woman immediately returned of her own volition.

A son was born to the couple July 14, and Mr. King asks that Mrs. Gardner be prevented from persuading his wife to take the baby from their home.

Mr. King alleges that his mother-in-law has sent for his wife's father to assist in persuading Mrs. King to leave home and makes Mr. Gardner, who is a real estate dealer, a defendant in his suit.

According to Mr. King, if he and his young wife were left alone they would

like together happily and without disputes. Mrs. King was formerly Miss Dorothy A. Gardner. The wedding occurred September 7, 1912, at Harvard, Ill.

Offers Exchange of Lots With City for Fire Barn Site

Dr. Harold Gifford has offered the city a lot half a block south of the site of the proposed fire house at Nineteenth and Hatney streets in exchange for the fire house lot, and City Commissioner C. H. Withnell will ask the other city commissioners to approve the change of site.

"The lot Dr. Gifford offers us is 72x15 feet and the one on which we have let the contract for the construction of the fire engine house is only 68x12 feet," said Withnell. "Gifford's idea is to get the engine house as far away from the public library as possible. I believe as he does and, if possible, will persuade the city commission to accept my view."

The change, according to Withnell, would entail no extra expense, except the erection of certain concrete pillars for the fire house, the cost of which would be paid by Dr. Gifford.

POLICEMAN FRANCL PUTS BURGLARS ON THE RUN

Police Officer Francl, with ever vigilant eye sauntered up the alley between Douglas and Farnam, and Twentieth and Twenty-fourth streets Wednesday night, trying the back doors of the shops to determine that all was well. As he approached the rear of the Frank Rubber company, 220 Farnam street, he frightened two men who had been tinkering with the lock.

Francl started in pursuit of the two, firing his revolver in the air as he ran

when he suddenly stumbled over a box. He sustained a severely sprained back, and, after calling the station, was attended by Dr. Fochtman and removed to his home.

BULL MOOSERS TO HAVE SESSION NEXT TUESDAY

A bull moose conference is scheduled for next Tuesday at the Paxton hotel. The future policy of the party will then be declared, and there is some possibility that its gist will be to the effect that the moosers still refuse to mix with any other political body.

ASKS EUGENIC MARRIAGES

Resolution So Providing to Be Presented at Church Conference.

REV. LEAVITT PRIME MOVER

Clergy in Charge of Work of the Society for the Friendless is the Author of the Proposed Measure.

Autumn annual conferences and synods of various church denominations in Nebraska will be asked to adopt resolutions committing the clergy to eugenic marriages, enjoining on each minister a pledge to require from every "gentleman coming to them for marriage to present health certificates from the family physician of the lady or other reputable physician."

The promoters are not satisfied merely with certifying to the state of the man's health.

Rev. J. A. Leavitt, in charge of the work of the Society for the Friendless in this section, has the following resolution to lay before these various conventions in behalf of his organization.

Whereas, there is a vice wave sweeping over the country, and

Whereas, this vice wave is the most prolific source of divorce, and

Whereas, this last year there was about one divorce for every three and one-half marriages in Lancaster county, one in four in Douglas county and one in seven in the state, and

Whereas, the majority of our criminals come out of broken homes;

Therefore, be it resolved that we favor a law demanding a clean bill of health from all seeking a license to marry, and

Whereas, we should do right because it is right and not because it is law,

Therefore, be it resolved further that we request the clergy to anticipate such a law, to create sentiment for it and to protect our children from the baneful effects of this social disease by publicly announcing that they expect gentlemen coming to them for marriage to present health certificates from the family physician of the lady or other reputable physician.

WOMEN'S READY-TO-WEAR NEXT—Coats of covert, serge, checks, etc., sold before as high as \$25, at \$3.98 each. Lot of white serge suits, some slightly soiled, sold up to \$40.00, at \$12.50. The tail end of tailor suits, colors and popular fabrics, sold up to \$45, at \$9.50 each.

BACK TO WOMEN'S MERCHANDISE AGAIN! Do You Need or Can You Use an Extra Skirt? Some time ago we told you about a purchase of Dress Goods bought from a western jobber—bought very cheap, too; indeed had to have them at a low price for the lot was huge. Once before we gave everybody a chance to get a skirt for a song almost. But everybody didn't avail themselves of the opportunity. Some were away—others meant to come and some couldn't come. Now a chance for all once again. Friday we will make for your measure Skirts for \$3.75. Well made and in most instances the materials alone worth more.

Dear Old Dixie Land sure had its innings this year for it has been a great season for cotton fabrics. Now we would clean up and sell out all the left overs and with months of hot and pleasant weather ahead you can't make much of an error, should you fall into temptation and buy an extra

THOS. KILPATRICK & CO. dress. Run your eye down the list and get posted anyway. Friday 8 A. M.
