MANY CONVERTED TO BEAR SIDE

Moisture Gives the Corn Crop a Better Outlook and Many of the Pit Traders Desert the Bull Element of Market.

OMAHA, Aug. 12, 1913.

While the big longs and recognized buil leaders in corn gave that market a great deal of attention, as well as support yesterday, they were unable to hold the price up to the level where it closed on Saturday. The rains over the greater part of the corn belt since the close of the Board of Trade Saturday and the promise of additional precipitation coupled with much lower tempeartures, were the causes of heavy desertions from the causes of heavy desertions from the causes of heavy desertions from the cause of heavy desertions from the latter to the ranks of the bears. One of the built leaders, togetherd with a heavy short, bought a great deal of cern, the first mentioned paying great attention to the September, of which he is known to be iong, and the latter taking the December and May. With the exception of Kansas and scattered sections in other states the corn belt was pretty well wat down and it now looks as if the matter of deterioration is past for a period, at least, if not on the crop. Cash corn is being offered at little more freely in the country, although it was said here yetserday that Kansas City was bidding for corn at all points around Chicago. The trade in corn futures has gone largely out of the September and over into the other months because of the congestion now to be seen in the first named option.

Cash corn was unchanged.

Wheat displayed a considerable stub-

congestion now to be seen in the first named option.

Cash corn was unchanged.

Wheat displayed a considerable stubbornness and this too, in the face of teiling bearish factors. There was no export trade and bids for the other side of the ocean were out of line. There was no milling demands to speak of and yesterday's sales amounted to only 10,000 bushels. Cash wheat was 2c higher.

The growers of oats wers in no hurry to dispose of their surplus yesterday. According to the ideas of the more conservative men in the trade at Chicago while there was some pressure on the market yesterday, there was no change in sentiment as the day wore away, and prices were shout the higher. Cash oats were 160%c higher.

Clearances; Wheat and flour equal to \$25,000 bushels.

Liverpool closed with wheat %d lower and corn 15d lower.

prices were about 14c higher. Cash oats were 1463c higher. Clearances; Wheat and flour equal to 135,000 bushels.

Liverpool closed with wheat 54d lower and corn 14d lower.

Frimary wheat receipts were 1,538,000 bu. and shipments of 783,000 bu., against receipts of 1,238,000 bu. and shipments of 1,449,000 bu. last year.

Frimary corn receipts were 513,000 bu. and shipments of 299,000 bu., against receipts of 386,000 bu. and shipments of 286,000 bu. last year.

NEW YORK, Aug. 12.—Impelled by a variety of influences, many of them admittedly favorable, today's stock market renewed its recent advance, the rise embracing more than the usual number of secudities in practically all divisions of the list. Trading approximately was 880, 900 shares, which far exceeded any session of recent months, Maximum gains in the favorites averaged almost two points, but profit taking in the final hours largely reduced this advantage.

Stee, Reading and Union Facific at no time relinquished their positions as loaders. Trading in steel, which aggregated over 25 per cent of the whole, was again remarkable for the large lots which changed hands. LONDON, Aug. 12.—American socurities opened lower today. Later fair buying orders railied prices and at noon the list ranged from & above to % below resterday's New York closing. Console, money 754 Hitnois Central, do account 114 Grand Trunk.

It is interesting, as showing the state of the speculative mind, that much of the improved sentiment is attributed to the intention of the Treasury department, and

intention of the Treasury department, announced some time ago, to finance the movement of the crops. When this was first made known the financial district manifested something more than mild resentment and openly denounced the commercial paper feature of the program as savoring of "inflation."

Now a considerable faction rafers to the government's action as a bull arguments, saying it will relieve this center of any momentary strain, and will act-Corn and Wheat negton Bulletin. ments, saying it will relieve this center of any momentary strain, and will activally bring to it a large share of the crop money where it will find an outlet, if not in speculative, in various other channels.

Formation of the Southern Pacific syndicate, with its world wide ramifications, was also accepted as a sign that bankers are nat everse to a further advance in quoted values. Coppers were helped by an advance in the metal to 15 cents.

Additional ease in long time money was indicated, with an enlarged demand from interior points for commercial paper at six per cent. a reduction of one-fourth per cent. Station. High Low fall.

Cows and helfers were in active demand, with prices on that kind of stock logilac higher. Pretty much everything in the way of butcher stock was disposed of in good season.

The most advance was on stock cattle and feeders, as they suffered more decline last week and week before. Cattle of that description were 10920c higher, or around 25050c higher than the low time. This means that the recent break has been recovered and that prices are as high as they have been any time this season.

HOGS—Supplies were liberal this morning about 165 cars, or 11,500 head, being reported in. Added to this were some 1,500 carried over from yesterday. For the two days the total is 16,201, just a trifle smaller than a week ago, but nearly 5,000 larger than for the same days last year. 16 been provided and indications are that WASHINGTON, Aug. 12.—The condition of the United States treasury at the beginning of business today was: Net balance in general fund, \$131,002,006 however, are restricted to Elks and their bounds are restricted to Elks and their buying a fair share of the supply at formed receipts yesterday, \$1,27,173. Total

64 ... 6 50 SI. SHEEP—The bulk of a rather moderate supply of lambs sold very active at prices anywhere from 10g20c higher. Owing to the hig improvement in the quality over yesterday the sales on paper appear higher than they actually are. Buyers got out early and seemed eager for any-thing in the line of killing lambs, resultthing in the line of killing lambs, resulting in a short, snappy trade and everything at all decent for killers were cleared at a comparatively early hour. Among the transactions were some fat lambs, a straight cut of which brought \$6.75 yesterday that sold at \$6.85 this morning. The general quality of the offering being better than on the previous day a higher top was scored, the highest price being \$7.15, having been paid for several loads of lambs. Most of the killing lambs sold at a range of \$6.8537.15,

paid for several loads of lambe. Most of the killing lambs sold at a range of \$6.8567.15.

Aged sheep were none too active at steady prices and all such offerings were not disposed of until a late hour in the forenoon. The demand was not as broad as in the case of lambs. Some range wethers being the same as those at \$4.50, brought the same price today.

The life and advance in prices in the killing end of the lamb trade was reflected in the feeder market, as everything on the order of feeding lambs changed hands just as soon as sorted. More buyers were in from the country than in several days and most everyone of them wanted lambs. The best feeding lambs were quickly picked up at a range of \$6.3566.30. Feeder sheep were in light supply and at the time of closing this report few, if any, sales were made.

Quotations on sheep and lambs—Good to choice, \$5.7567.15: lambs, fair to good, \$4.5566.50; lambs, feeders, \$4.005.10: wethers, good to choice, \$4.506.00; lambs, feeders, \$4.005.10: wethers, good to choice, \$4.506.00; wethers, good to choice, \$4.506.00; wethers, good to choice, \$4.506.00; wethers, good, \$4.1566.35; wethers, feeders, \$4.002.35; cull sheep, \$2.0062.00.
