NEW YORK, Aug. 15.-Foreign condi-tions exercised considerable influences over today's stock market. Official utterances by British officials indi-Local Securities. Quotations furnished by Burns, Brinker & Co. 449 Omaha National Bank Bidg. Omana: utterances by British officials indi-cating improvement in the relations among the leading powers made for a buoyant market in London, that center later sharing moderately in the move-ment here, though probably selling on balance. Farls markets were firm, al-though rents were lower, but the Herlin market developed no pronounced trend, aside from some direct purchases of Camadian Pacific. A significant sfactor was the large for-eign interest in the underwriting of Union Asked. American Bank Note pfd. Three days this week 12,639 26,666 42,663 Same days last week 12,639 25,207 55,817 Same days 1 wks ago. 8,549 25,779 32,645 Same days 3 wks ago. 8,005 22,835 31,800 Same days 4 wks ago. 9,609 22,009 17,002 Same days 1 ast year. 17,808 22,177 37,002 The following table shows the range of prices for hogs at Bouth Omaha for the last few days, with comparisons: Cian di A significant matter was the large union even interest in the underwriting of Union Pacific's Southern Pacific stock, which was more than twice over-subscribed in short order. This is said to be the first European participation of any size in American securitics since the depression of last spring. Incidentally the success of this project caused a sharp silvance in Southern Pacific shares as well as the syndicate holdings, their respective sains being 1% and 1% points. From its uncertain opening, the mar-ket soon developed a stronger tone, steel and Amalgumated scoring figher prices, likewise Canadian Pacific, Reading and a miscelianeous lot of industrials. In the final dealings profit taking and the less encouraging outlook in the steel indus-try wiped out much if not all of the advance in the leaders, while renewed short selling beinged to unsettle the gen-eral list. Crop news was again conflicting with a continuance of drouth in some of the mindle western sections. In the face of whis, however, western neerchants are evencing increasing optimism, born in part of the Treasury department's crop money policy. Fossibility of an agree-ment to hasten the tariff bill seemed to excite little interest in financial circles. The bond market was steady with government's unchanged and dealings light. Total sales (par value) aggregated bists. Number of anles and closing quotations on stocks were: Sales. High Low. Cleas. eign interest in the underwriting of Union Pacific's Southern Pacific stock, which A Bridge t. Ry. Com. cent pfd..... Date. | 1915. |1912 |1911. |1910. 1909. |1905.

There is no drouth, no disastrous scar-city of rain there. Farmers who are returning from other excursions report a promise of big crops of all kinds.

Bigger yield, and much higher price for the crops, because they are right at the door of the greatest market in the country-that is where the New Yorker has the greater opportunity than you. He gets an average of \$6 to \$11 more per acre for his crops every year than you do.

Does dairying appeal to you? It's a great country for that. As a side issue there are eggs. They bring from 30 cents to 60 cents a dozen in New York City, during the winter months.

A great diversity of crops, higher prices, bigger average yield. That is New York farm land. Come and learn these facts for yourself.

Prices for improved farms are low now, but it is generally anticipated that they will double in the next five years.

Here are some of the farms you will

"A PEACH OF A PLACE"-158 acres, finely improved, only \$75 per acre, \$11,460. Near two cities, Waterloo and Geneva; well arranged 14-room house, three barns, three wells, diversity of crops grown; 1,060 peach trees already planted. Neigh-bor received \$12,000 for peach crop from fifty acres in one year. Reasonable terms.

"LAKE VIEW FARM"-130.93 acres, all in cultivation except 7 acres of pasture 510 per acre, \$12,500; 12-room house and barns that could not be reproduced for less than \$7,500; full bearing five-acre apple orchard and many young fruit trees; soil so fertile that it produces bigger crops every year than the best land in the middle west averages; situaled on west shore of beautiful Cayuga Lake. Near three towns. Good terms.

FARM No. 225-61 acres, \$2.50 per acre, \$5,700. Two small farms thrown into one, with two sets of improvements, each consisting of house and barns, natura, drain age, stream runs through land. Six acres of pasture and four of second-growth umber. Surrounded by other good farms. Haif mile from McDougall.

FARM NO. 221-137 acres. \$70 per acre, \$9,600. Big bargain, in midst of region of farms of great fertility. Good land though a little rolling. Five-acre or-chard; twenty acres wood and pasture. Coblestone house that would cost \$5,600 today. Three barns. Only one mile from thurch and school. shurch and school.

FARM NO. 217-128 acres, 385 per acre, 110,880. Good soll, only partly tilled. Eight-room house, two barns; big anap active farmer.

Write for our booklet, containing sev-enty beautifui illustrations of western New York farm scenes, which have just been taken by Louis R. Bostwick, the country's most famous landscape pho-tographer. Mr. Bostwick has spent a month in New York getting these pic-lures. If you plan to take this trip with must know at once, to make sleeping car reservatio

PAYNE INVESTMENT COMPANY, Fifteenth and Farnam Sta., Omaha, Neb.

THE best improved stock, dairy and grain farms anywhere are now for sale in central New York. These farms aver-uge better results and cost less by half ihan farms in the Missouri valley. Forty Different Types of Engine for Farm Power Plants

The farm power demonstration at Fremont during the second week of September will show more than forty different types of engines, each adapted to a different use. People that are looking for some kind of an engine for delivering power on the farm, from this great aggregation will be able to make a selection of the best adapted to their individual needs. Never before in the history of the world has such an op-LONDGN. Aug. 18.-American secur-ities opened steady and a fraction higher bortunity for actual demonstration of capacity and adaptability been offered to the public. These hot days arouse sympathy for the horses that are compelled to do the heavy work. The engine needs no sympathy, but is ready for its work in all kinds of weather. It is marvelous how a very little amount of gasoline or

of oil can be made to develop power far every one will be anxious to see how ture. Everyone interested in the debeyond what anyone has ever expected the human mind in its application to velopment of agriculture will wish from horses. It makes one proud to mechanics has been enabled to meet the see this exhibition of the latest and the live in an age of such development, and growing demands of a growing lightcul-
