CHICAGO GRAIN AND PROVISIONS Features of the Trading and Closing

Prices on Board of Trade. CHICAGO, Aug. 18.—New high records for the season were made in the corn pit today after a weak opening. The close showed a net advance of %2%c. Wheat closed a shade to %2%c up at net higher prices for the year and provisions made a net gain of 7%202%c.

Buil leaders took command soon after the corn market opened and thereafter dominated the pit. Rains in the drouth-stricken southwest and caster cables

stricken sbuthwest and casier cables caused a weak opening of which influen-tial purchasers promptly took advantage. Shorts were eager buyers also and prices rallied. Then came a temporary reaction, but the bulls started such a rush of buying that prices were quickly carried up-ward to high marks for the year, May, September and December options. A de-crease of 1,688,000 bushels in the world's visible supply and prediction of dry, hot weather in the near future seemed to the chief factors animating bull nt.

among the chief factors animating bull sentiment. Enormous increases for the day—2,060,000 Enormous increases for the day—2,060,000 bushels—gave some strength to that market after early weakness, the opening being depressed by easier cables and large world's shipments. The strength of the corn market also helped give firmness to wheat and good cash demand was an additional uplifting influence. Demand fell off late in the session and the market closed easy.

After an easy opening oats advanced to its new high mark of good speculative buying. Light run of hogs at the yards advanced provisions. There was a good investment demand for January options

NEW YORK STOCK MARKET

Advance in All Quarters of List During Early Part of Session.

In Spite of Improving Tendency, Traders Not Inclined to Fol-

low Up the Market

NEW YORK, Aug. 18.—On a comparatively small amount of buying stocks advanced in all quarters of the list during the fore part of today's assiston. The supply appeared to be scant, and under the lead of the coppers and grangers the market forged ahead easily. In addition to the standard issues, the oll and electric stocks made substantial gains.

In spite of the improving teadency, traders were not inclined to follow up the market advance. Profit taking, together with some renewed bear seiling, cut into the day's gains, bringing back prices in some cases to the opening level. In the final dealings quotations were lifted again and at the close fell short of the day's high figures.

Reports of rain in sections where crops have been suffering severely from drouth constituted the principal factor in the day's rise.

day's rise.
There was a slightly easier tendency in the money market during the crop mov-ing season was an influence in stimulat-ing builish sentiment. In the same cate-gory of tavorable factors was the report of exports of domestic products for July, showing a total of \$47,739,000, compared with \$55,018,000 last year.
Wells Fargo express made a further decline, dropping nearly ten points, a net local record. In 1888 this stock sold

Bonds became irregular after an early show of firmness. Total sales, par value, 3940,000.
United States bonds were unchanged on call.

MORGANTHALER MAKES A

SPECIALTY OF KILLING DOGS

Coach Morgenthaler, who will train the Omaha university eleven this year, is gaining considerable reputation as a slayer of mad dogs. It is rumored that Chief Dunn is contemplating appointing him custodian of the public safety as regards rabid canines. Last Tuesday Morgenthaler dispatched a vicious locking cur which was intent on obtaining a hold on passing pedestrians at the Myers-Dillon corner, Sixteenth and Farnam streets. Sunday afternoon the former Creighton star, while leisurely loiling in one of the seats before the Schiltz hotel, observed a "mad" dogs rushing to and fro on the walk attempting to snap at whoseever was near Seizing a handy chair, Morgenthaler

Indeed of the star of the st Seizing a handy chair, Morgenthaler quickly divested the canine of all victors intentions. Obtaining a pistol he bravely did away with the dog forever. Just at present the university is hoping that he 22 will be as handy in vanquishing his opponents on the gridiron the coming sea-

HOWELL FAIL TO 'MAKE' HIS OFFICE MANAGER

A strange face, but a somewhat familiar figure, entered the offices of the water board this morning and gased about. Water Commissioner R. Beecher Howell walked up to him and asked: "Anything can do for you?"

The man with the strange face burst out laughing and Howell looked askance. What are you laughing at?" he queried. "Why, you know me, Howell. I am

Charles Saunders." Then Mr. Howell tumbled. Saunders had come back from a vacation without his mustache. It being the first time in twenty years in which Mr. Saunders has not carried around the silken appendage to his upper lip.

WILL NOT COMPROMISE

WITH INSURGENT DEMOS

WASHINGTON, Aug. 18.—President
Wilson has no intention of compromising with insurgent democrats on the administration currency bill. He made it plain today that he intended to stick by the report in the democratic majority of the house banking committee and was confident that the house would adopt the Glass bill without material change.

FIREMAN VICTIM OF BLAZE

Property Worth \$70,000 Destroyed by Flames at Grand Island.

FIRE STARTS IN A HAYLOFT

Intense Heat of Last Three Weeks Makes Everything Dry as Tinder -Twelve Horses Burn to Death.

GRAND ISLAND, Neb., Aug. 18 - Tony Fleischer, fireman, aged 25 years, was killed and about \$70,000 worth of property was destroyed in a fire yesterday, which at one time threatened to traverse the heart of the railroad section and cut a wide path through the city. Two favorable conditions aided the department in keeping the fire confined to the livery barn in which it started and the adjacent lumber yard and planing mill of the Geer-Harrison company. One was a southwest wind blowing toward the wide stretch of railroad tracks instead of toward the city. The other was the city's bountiful supply of water and fine pressure. Six streams were at one time playing on the fire, all of strong force. Tony Fletscher was the only support of a widowed mother. Hent Melta Wire.

He was directing one of the streams of water on the fire at the planing mill, with a position in the alley. The heat of the flames from the livery stable melted a wire of the Grand Island Electric company, the wire being charged with 2,300 voits, and it dropped down on . the fireman, coming into contact with the nossle. Blue flames shot from the nozzle as from a fountain The fireman ... fell. The nozzie lay under him. Chief Dillon and Former Councilman E. Virege, pulled him away.

Physicians ordered the man removed from the alley. where several electrical workers were trying to revive him and worked about him in a nearby yard, under the shade of trees, for several hours without success.

Starts in Hayloft. The fire originated in the nayloft of the Plack & Rhodes livery stable, about 10:30 the rest of the west than the half of the roce. Plack & Rhodes livery stable, about 10:30 were lambs and most of them were sat and of good quality. Buyers got down to business early and a good clearance was ordering a blacksmith to come to the barn for certain repairs on a vehicle. Four young men were sitting about in the barn. They smelled smoke, Looking back to the section where the horses were they saw fire dropping down from the upper floor. They cried out an alarm, and rushed to the release of the horses. There were about thirty animals in the barn, and all but twelve were released. Some of them, however, are badly burned. Twelve at teast, perished. Mr. Rhodes, himself, released one animal, led it to the street and felt confident that he could save the rest. When if he turned to get the second animal, the entire middle and rear sections was one body of fire.

Everything Like Tinder. The intense heat of the last three weeks had made everything as dry as tinder. The department left its headquarters before a regulation alarm reached it, but before its first hose had been laid over one-half of the big old frame building was a solld body of fire. The flames lapped over upon a house owned by E. Miner, to the northwest, and to the Geer-Harrison planing mills and lumber yards to the north. The former was saved and perhaps prevented tho fire from crossing the street and taking another large frame building, in which CHICAGO LIVE STUCK MARKET case the big bridge owned by the Donald company, wholesale grocers, and the Union Pacific freight department would have been in the path of the fire.

The Union Pacific shops blew the gen-19,000 head; market, steady to shade higher; beeves, \$7,0009.00; Texas steers, \$6.75697.70; westerns \$6.3067.00; stockers and feeders, \$5.4067.90; cows and heifers, \$3.6065.30; calves, \$8.0067.07. head: market, generally steady; few light, \$500c higher; bulk of sales, \$7.0068.20; light, \$8.0069.00; mixed, \$7.0068.20; light, \$8.0069.00; mixed, \$7.0068.30; head; market, \$7.30697.55; pigs, \$4.0068.00.

Feet Were Frozen

A tale of ice and snow and suffering from cold and frozen feet was told to the perspiring employes of the district court when a petition was filed for Mrs. Sadie Steward asking a divorce from her husband because he drove her from home one cold night last January. On January 5, according to the wife,

Frank Steward beat his spouse and forctbly put her out of doors. Her bare feet became frozen, she alleges, and she has suffered much as the result of exposure: to the frigid atmosphere. Both are col-
