Certainly it is time to devise some method for checking this devastation of the young herds or se stop talking about the high price of beef.

What's the murry?

President Wilson's insistence upon currency legislation at the present extra session originally called to consider only the tariff, has brought protests from his own party followers against the haste and hurry, They would prefer to finish up with the tariff, and leave the currency bill for a stubborn refusal.

The Washington correspondents the hurry with several plausible explanations. The president and the currency bill backers are convinced. they say, that they are stronger now than they will be later, and that if they cannot get the bill enacted at this session, they will fall altogether. So long as the lawmakers are cooped up at Washington they are in an atmosphere favorable to the administration. The office seekers and patronage hunters know how to make themselves popular with the powers that be, and are naturally boosting the administration program. The fear is that should an adjournment home, the congressman or senator might find his constituents not particularly eager for the measure, and ter protest, he is, of course, an inter- a live wire. ested person insidiously lobbying for George and Jack Roosevelt, passed St. Louis Republican: Having had an nis own pocketbook, and does not reflect the sentiment of the home folks.

up afterwards by amendments. Fortunately, however, the prospects are that the president's hurry will not prevent the senate, at least, from taking time to consider the proposition carefully and in detail before final disposition.

And, anyway, if the currency bill

proves defective, it can be patched

Bryan Investments

Mr. Bryan's Investments. Lincoln Journal.

When Mr. Bryan announced that he nust lecture to help make expenses as secretary of state, people not familiar with his private affairs wondered how that could be. He himself said that he condition. As has been frequently interesting information: The prize for had been laying aside \$16,000 a year, presumably for the seventeen years since his prominence in politics made him a star of the chautauqua platform. these savings have been drawing interest the total should now be over \$200,000. Five per cent on this amount would be \$10,000 a year. It looked as Mr. Bryan were unwilling to use the returns of hi investments, as other secretaries of state have had to do, to piece out his salary at Washington. He seemed to refuse to make any personal financial sacrifice order to serve his country.

In the statement issued Saturday Mr. Bryan explains his position further. His pioney is invested in unproductive propinvestments are an expense to him, in fact, rather than income producers, Lipcoin people will understand this. Mr. Bryan has bought large areas of suburban land in the vicinity of his Lincoln home. Much of this land is now worth upward of \$500 an acre. For some he paid this much. Yet it is productive only as farm land worth \$100 an acre.

But this is only because Mr. Bryan an investor, looking for his profit from ton, where he has been attending the rise in land values rather than from dividends or from interest. He does not expect to receive less return from putting it into productive enterprises or interest bearing securities. If he collects less income then if he had invested his money otherwise, it is only because tion of income to the day he disposes of his land. Early Closing and Office Folks. OMAHA, Aug. 18 .- To the Editor of he Bee: I noticed in The Bee a few ays ago a statement to the effect that Mr. Cowell did not understand why so ittle interest was being taken by the sublic in his campaign for early closing of the retail stores. Only the semi-torpor nduced by the hot weather has prevented ne from going on record before as pro testing against such closing, and I have no doubt that the same reason has kept others from so doing, together with the fact that many of those most incon-

It really seems as though the agitators of the early closing were not giving due consideration to a very large class of their patrons, towit, those em ployed in office work. When are the men and women who must be at their deaks from 8 or 8:30 to 12, and from 1 to 5 or 8 in the evening; to do their shopping if the retail stores are to be closed on Saturday nights? Probably some would answer "during the noon hour," but this First, the most of our noon hour is sumed in the very necessary business of getting our lunches, and, second, a visit to any of the stores at noon discloses the fact that fully half of the sales people sible to get waited upon promptly and satisfactory. It is certainly perfectly just and proper

that salespeople should have the privilege of eating at the same hours as customary with the rest of us, but why should they not be on duty on Saturday evening (or some other evening) in order that the office people may have an opportunity to spend their money in Omaba, and see what ther are buying, instead of being forced to do business with mail order Know had been unable to supplement his office people in Omaha is an item worth salary with dividends from his stocks by considering in the retailer's receipts. And houses? Surely the combined salaries of furthermore, the salaried people usually pay cash, or at least settle their accounts of that famous sea coast resort on the some of his land from time to time to for a large number of the leisure class, occasion of his twenty-fifth anniversary. live upon as Secretary Knox could draw promptly, which is more than can be said live upon as Secretary Knox could draw to whose convenience solely the retailers now seem to be catering. I know whereof I speak because I used to handle collections for one of the largest retail stores in Omaha and very few office women were on the "slow pay" list. Are we not who can adapt themselves to any shopping hours fixed by the stores? We have no control over our own time during the day, and it is not reasonable to expect that our employers are going to close their offices every time we need to buy clothes. Let the stores arrange the hours of their employes so that each salesperson may have a portion of a day off each week to look after her (or his) personal affairs. That is more than most office people get. And let the saleswomen who work late in the evening come down late nough in the morning to comply with the nine-hour law.

I went to Klipatrick's to present my argument to Mr. Cowell in person, but he was not in (it was noon) and perhaps this more public method of protesting will encourage other office women to A BUSINESS WOMAN.

Printed-But With Reservations. SILVER CREEK, Neb., Aug. 18 .- To the Editor of The Bee: A few weeks ago I took exception to some remarks of one of your correspondents, who for some time, apparently without any bowels of ously stuffing us to the point of nausea with a miscellaneous assortment of racket-store morality and some suspictous-looking religious dope that smelled atrongly of John Calvin and Johnathan Edwards. In so doing I am afraid I did not follow very closely in the beaten paths of orthodox Christianity. To be entirely frank about it. I think it is true that I got clear off the reservation and attacked the very foundations of orthodox Christianity in three certain letters, which to my own amasement and the infinite dismay and disgust of the brethren, you permitted to appear in your columns, I was desirous of hav ing the brethren meet my attacks sountry at large that the session is much squarely and defend themselves and their religion: I even tried to goad them into doing so, but they would not. Instead. like a swarm of angry bees, they made the air volcanic with their invectives and their buggings.

I now again find myself in a similar mixup, with this difference, that two of the brethren, a gentleman of Plattamouth and Father John Williams of Omaha have shown a disposition to meet issues squarely, particularly the latter, while an anonymous gentieman of Columbus, who thinks he is a Christian, but evidently is not, very properly lambasts the whole bunch of my traducers for their ungedly behavior toward me.

And now, Mr. Editor, just as I had been felicitating myself that I should this time be able to hold at least one or two of my critics down to business and have Illinois leads in the amount of internal a nice little set-to with them, you, taking your cue from the fact that the governor of Kansas is being petitioned to set a day for prayer for rain, butt in andtry to sidetrack the whole thing by suggesting that we discuss the question of the efficacy of prayers for rain. I am disgusted with you, and to forestall another flasco, I make you a proposition and will assume that you accept if you publish this letter, Let me chew this religious rag with the brothren for a short time until they may be able properly to diagnose my case logical school says the world never was and then I will make the offer to one of them, probably to Father Williams, to be a Christian, if he will tell me how.

I am induced to make that offer and if it is made it will be made in perfect good faith, for the reason that I realize that I am liable to "shuffle off" before very long, and this hot weather impresses t on my mind that in my present un godly condition I would not be able to keen very comfortable under the marked rise in temperature. And then, too, my wife wants me to get an automobile. ak a the case urgent. I had thought to hang on fifteen or twenty ... yet but it I get that auto I shull have to cut it down to about two or three years. (Say, confidentially, do you

think my wife was thinking of that when she asked me to get that auto?) CHARLES WOOSTER.

HIDE AND SEEK.

It was an old, old, old, old lady,
And a boy that was half-past three;
And the way that they played together
Was beautiful to see. H. C. Bunner, "Poems."

She couldn't go running and jumping.
And the boy, no more could he,
For he was a thin little fellow.
With a thin little twisted knee.

They sat in the yellow sunlight, Out under the maple tree. And the game that they played I'll tell Just as it was told to me.

It was Hide-and-Go-Seek they were play-Though you'd never had known it to With an old, old, old, old lady

The boy would bend his face down On his one little sound right knee, And he'd guess where she was hiding. In guesses One, Two, Three:

"You are in the china closet!"
He would cry and laugh with gleeIf wasn't the china closet,
But still he had Two and Three.

"You are in papa's big bedroom,
In the chest with the queer old key!"
And she said, "You are warm and
warmer,
But you're not quite right," said she.

"It can't be the little cupboard
Where mampa's things used to be,
So it must be the clothespress, gran'ma!"
And he found her with his Three. Then she covered her face with her tin That were wrinkled and white and wee. And she guessed where the boy was hiding.
