

PENROSE WOULD PUT TROOPS IN MEXICO TO PROTECT AMERICANS

Pennsylvania Senator Offers a Resolution Which, Under the Rules, Goes Over for a Day.

AN APPROPRIATION IS ASKED

Twenty-Five Millions Demanded to Maintain Soldiers Proposed.

GIVES REASON FOR HIS ACTION

No Desire to Bring About Intervention or War.

CONDITION, NOT A SENTIMENT

Nelson of Opinion that Movement Considered Would Have Much to Do in Embarrassing President Wilson.

WASHINGTON, Aug. 21.—Senator Penrose introduced today a resolution requiring President Wilson to take the necessary steps to place United States troops in Mexico to protect American lives and property, such a step to be decreed by the senate in no way an unfriendly act toward Mexico.

Senator Penrose introduced also an amendment to the resolution for an appropriation of \$25,000,000 to be expended as the president might direct, for the protection of lives of Americans in Mexico. He made no effort to secure immediate action on his resolution and with the suggestion of Senator La Follette it went over a day under the senate rules.

The amendment for the emergency appropriation, Senator Penrose explained, was similar to a provision in an appropriation act just prior to the Spanish war and he explained that the resolution is on the table in the senate until the bill comes over from the house.

"The administration has asked for \$100,000 to take Americans out of Mexico," said Senator Penrose, after announcing he would not discuss his resolution. "I think they have a right to be in Mexico. I think they have a right to be there under our treaties and under international law. We have no right to attempt to break up their homes and occupations. Rather than appropriate this pittance of \$100,000 to make this wholesale removal, I would appropriate this \$25,000,000 to keep them where they are and to protect them."

Not to Aeset Factions.

The Penrose resolution draws attention to the Monroe doctrine and to the possibility that continued destruction of property in Mexico would involve international complications and intervention by European nations.

The resolution specially declared that it is not the policy of the government of the United States to recognize or assist any faction or factions in the republic of Mexico and proposed:

"That the president of the United States be required to take such steps as are necessary to place a sufficient number of United States troops as a constabulary in the republic of Mexico, wherever and at such points as, in his opinion, they may be needed, properly to police and protect citizens of the United States and their property, and it is hereby declared that such employment of United States troops for the protection of lives and property of American citizens is not made with any intent that such policing and protection shall be construed as an act of hostility or unfriendliness toward the Mexican nation."

Senator Penrose said that in a day or two he would make a few remarks on the appropriation amendment and his resolution.

"I do not want to stir this matter up unduly," said the senator. "There is hardly a day that I am not appealed to by people from my state urging action to furnish protection to Americans in Mexico. It is not a sentiment; it is a condition."

Uwison, says Nelson.

Senator Nelson declared it seemed unwise at this juncture to agitate the question.

"Such agitation," said the senator, "is an embarrassment to the president, who is doing everything he can to bring about peace. This resolution should go to the committee on foreign relations and not be used here to exploit speeches of an embarrassing character to the administration. Let me cite a bit of history that a few of us well remember. We were very glad during the dark days of the civil war that no foreign government intervened in our trouble. We were threatened time and again with intervention from Germany, France and England."

"We agitate intervention, and intervention means war. We should do everything we can to avoid war and give Mexico the same chance we asked for and were given in the civil war."

Senator Penrose replied political intervention was not contemplated and that American citizens demanded police protection in Mexico, particularly along the border, such as has been afforded in Nicaragua and other Central American countries for twenty-five years past. He declared he was not urging war or intervention.

"The idea of annexation of any territory is too absurd to be entertained by"

To Try Explosives to Raise the Bodies from the Wreckage

SEATTLE, Wash., Aug. 21.—Divers sent north to explore the wreck of the steamship State of California will be unable to examine the vessel, because the water in which it sank is more than 200 feet deep. Divers say they cannot work at a greater depth than 100 feet. By means of explosives the wreckage can be shattered, however, and most of the bodies improved in the wreck may be recovered. Advice received from Juneau says that all of the survivors who were taken to the hospitals there are recovering rapidly and soon will be able to leave for their homes. Mrs. Peter Olson of New York, who was low with pneumonia and who was not expected to live, rallied yesterday and is out of danger.

Miss A. J. Wilson, who boarded the State of California at Prince Rupert, B. C., and who is listed among the missing, was a Presbyterian mission worker in the north.

Governor Major is Still On the Road

KANSAS CITY, Mo., Aug. 21.—Encouraged with the results of their efforts yesterday, when according to Governor Major's estimate 300 miles of new roads were started forth today to complete the work so well begun.

Although the number of volunteers who engaged in the first day's campaign exceeded expectations, reports from nearly every county indicated that a larger number were yielding the picks and shovels today. In some districts farming operations practically were stopped as the farmers decided the road improvement was the most important in which they could engage.

Governor Major with Governor Hodges of Kansas left Jefferson City early today to resume active work on the roads. He was elated with results accomplished, as shown by reports received from the various counties of the state.

"The first of Missouri's two good road days was such a success that it exceeded our anticipation," the governor said. "In addition to the 200 miles of new road added to our highways system, repairs were made on hundreds of miles of old roads. I am pleased with the splendid road spirit that has been developed."

Sticks of Something Found Under Window

NEW YORK, Aug. 21.—Six sticks of what is believed to be dynamite were found this afternoon under a window of Mayor Gaynor's suite of offices in the city hall. They were found by the janitor of the building.

Fire Commissioner Johnson, passing at the time, telephoned the bureau of combustibles and ordered one of the inspectors to come to the city hall to examine the find and determine its nature.

After analysis the inspectors reported that the stuff was not a dynamite, but a quantity sufficient to demolish the city hall—and that detonating caps were found to be placed in the proper position for exploding it. A fuse, a piece of Chinese punk and three burned matches were found later near the spot where the dynamite was picked up.

Fire Commissioner Johnson, who examined the sticks superficially, said that there was something attached to one of the sticks which might be a copper wire or a fuse.

Child Lovers Agree on a Suicide Pact

YONKERS, N. Y., Aug. 21.—Charles Rich, aged 19 years, was found dead, and his 17-year-old sweetheart, Ruth Hamilton, mortally wounded early today, with evidence that they had agreed to die together. The clergyman's daughter, Lena Oakley, had stumbled across the girl's body as she was returning from a reception.

"I guess he's dead in the woods," the girl moaned before she became unconscious, and this clue led to the discovery of Rich's body on the edge of a wooded section, 100 yards away. A 28-caliber revolver lay by his side.

Governor Whitney Attacked by Moros

MANILA, Aug. 21.—Vernon L. Whitney of Iowa, governor of Jolo, had a narrow escape when attacked by Moros. He received five barong wounds, but probably will recover. He killed both of his assailants after a struggle.

Governor Whitney had just completed an inspection of the scout camp at Bual Loco and had sent his interpreter to order his launch. The interpreter was attacked by Moros, but escaped. Whitney heard of the attack and as he ran to investigate met two Moros who approached in a friendly manner, then suddenly attacked him. Whitney clinched one of the Moros while he shot the other and then, in a struggle, wrestled the barong from the other man and finished him with it. During the struggle, however, Whitney received bad wounds.

Five Lose Lives When Home Burns

DUBUQUE, Ia., Aug. 21.—Henry Sternwala, his wife and three small children were burned to death in a fire which today destroyed their home on a farm, fifteen miles northwest of Dubuque.

The fire broke out after midnight and when neighbors were attracted to the scene no trace of the family could be found. It was not until the ruins cooled off that the charred bodies were discovered.

QUARTER OF MILLION WORK ON HIGHWAYS

Hundreds of Thousands of Business Men and Farmers of Missouri Toil on Roads.

TO "PULL STATE OUT OF MUD"

Amount of Labor Done, if Paid for, Worth Over Million.

TWO GOVERNORS ARE PRESENT

Chief Executiv of Neighboring Commonwealth Lends Hand.

MAJOR RECEIVES TELEGRAMS

Scores of Messages of Congratulations from Friends and Officials in the East Reach Him.

KANSAS CITY, Mo., Aug. 21.—Sunset put an official end today to Governor Major's two good road days, during which it is estimated 300,000 business men and farmers forsook their business and their farms and went to the highways to give their work, that Missouri might receive impetus to become one of the leading good road states of the union.

When the last man laid down his shovel tonight, it was estimated the work done, had it been paid for, would have amounted to \$1,500,000. Better still, an unquenchable desire for better highways has been kindled, according to leaders.

Governor Major bade the last of 1 1/2 workers stop work at Jefferson City. Governor Hodges of Kansas, who has been helping Governor Major with the "job," grasped the Missouri executive's hand.

"It is over, governor, and I congratulate you and the state of Missouri," said he.

"And I thank you and the people of Kansas for letting you come down to help us," responded Governor Major.

Governor Major today received scores of congratulatory telegrams from officials and friends in the east who had read of his successful road days. "He was host at a dinner tonight for Governor Hodges. The Kansas executive will leave late tonight for Topeka, where it is announced he will issue a call for two general road days."

Hundred-Thousand-Dollar Fortune is Going a Begging

HASTINGS, Neb., Aug. 21.—(Special Telegram.)—Following slender threads of information picked up from early settlers, County Judge Sutton is searching for heirs or relatives of John O'Conner, the wealthy reclus who died intestate Sunday morning, leaving an estate of over \$100,000.

O'Conner walked into Hastings from Fremont with only 25 cents thirty-two years ago and from a beginning as a cobbler built up a fortune consisting of brewery stock, two big Adams county farms, three business buildings in Hastings and some lots and mortgages.

The three persons in whom he confided are dead and no one here knows anything of his family history or whether he has relatives living.

It is rumored that a woman claiming to be his wife visited Hastings twenty years ago and now lives somewhere in the northern part of the state. O'Conner lived out his career in the cheapest surroundings, occupying the smallest room in one of his buildings. Though born a Catholic, he refused to say a priest on his deathbed.

Famous Horse Ridden By Buffalo Bill is Bought by Nebraskan

DENVER, Aug. 21.—Colonel C. J. Bills of Lincoln today paid \$100 for the famous white horse ridden for twenty-five years by Colonel W. F. Cody (Buffalo Bill). Colonel Bills came by automobile from Lincoln for the auction sale of the bankrupt Buffalo Bill will west show, held today at the order of the United States district court.

The Nebraska man opened the bidding with \$10. Carlo Miles, an Indian, competed with Bills and would not withdraw until the price went to \$50, which was more than the sum he had raised by selling his own saddle and other personal effects. The Indian had planned to present the horse to Cody.

"If that man does not give him back to Buffalo Bill I'll steal the horse and give it to him myself," he threatened. He was appeased when informed that his successful rival's purpose had been the same as his own.

Now Helen Cleo Barker is Arrested

LOS ANGELES, Cal., Aug. 21.—Helen Cleo Barker, who testified before the federal grand jury was largely responsible for indictments now pending against George H. Bixby, the Long Beach millionaire, charging him with contributing to her delinquency, was arrested today in a downtown hotel with S. P. Rowland, a real estate dealer. Both were held in jail without bail pending investigation.

As a sequel to the indictment of Bixby, he was made defendant in a suit for \$2,000 damages filed by Miss Barker recently, because of indignities she alleged she suffered at his hands. At the same time similar suits were filed against the capitalist by Irene Marie Brown-Levy, another accuser of Bixby, and by Jeanette Ellias. All of the girls are minors.

Sulzer Will Fight Tammany Forces

NEW YORK, Aug. 21.—Regardless of the outcome of his trial by the court of impeachment, Governor William Sulzer proposes to enter the mayoralty campaign in New York City, according to his friends here. It is declared that he is particularly anxious to inject himself into the campaign in order to continue his fight against Tammany hall and Charles F. Murphy, its leader.

The impeached governor proposes to support the fusion nominee for mayor, who is John Percy Mitchell and to do his utmost in attacking the record of Murphy and the Tammany candidates.

CLEARANCES SHOW BIG GAIN

Omaha Banks Handle Million More Last Week Than Year Ago.

TO INAUGURATE A NEW SYSTEM

Beginning January First Banking Transactions Will Be More Comprehensive Compared with Preceding Year.

The bank clearances of Omaha for the week ending yesterday show a gain of over \$1,000,000 over the clearings for corresponding week last year. They are \$1,214,977.70 as against \$1,108,284.74 for the corresponding week last year. Clearings for the day were nearly \$150,000 larger than those of the corresponding date last year.

Beginning with January 1, 1914, a more effective system of comparisons of banking transactions will be in effect as the figures of all transactions for the present year will then be available for the first time. Hitherto there has been no definite check on the amount of business done in the banks from day to day other than what was shown by the report of the clearings. As the clearing house handles only such checks as are collected in banks, other than those in which the deposit of the maker of the check is held, the clearing house reports never could be considered an accurate index to the amount of banking transactions actually performed.

The National Capital

Thursday, August 21, 1913.

The Senate.

Senator Penrose introduced resolutions necessary steps to place American troops in Mexico to protect Americans and to appropriate \$25,000,000 for such use. Considerable discussion over the Mexican situation followed.

Consideration of the tariff bill was resumed. Senator Pittman speaking in support of the bill.

Philippine committee approved appointment of Representative Harbord as governor general of the Philippines.

The House.

Not in session, except Friday.

Lottery investigating committee continued its hearing.

Temorals continued their caucus on American currency bill.

Fusion Movement Against Tammany is Growing Rapidly

NEW YORK, Aug. 21.—The fusion movement against Tammany hall was strengthened last night when the progressives endorsed the judiciary ticket designated by the fusion committee and also approved the fusion nominations in Brooklyn.

The perfection of the republican-progressives union leaves the way clear for the designation of the regular democratic ticket Saturday. Mayor Gaynor's friends expect that he will be renominated, but several other candidates have been mentioned.

Bryan to Go on the Stump Up in Maine

WASHINGTON, Aug. 21.—Secretary Bryan will spend two days early in September stumping the Third Maine congressional district for William Pitt-tangal, the democratic candidate.

This was announced today, following a conference at the White House between President Wilson, Representative Mc-Gillicuddy and Representative Palmer of the congressional campaign committee.

As the campaign will be largely on national issues the administration will take a lively interest.

Mr. Bryan probably will speak at Augusta about September 6.

Court Holds Teeth Belong to Wearer

WASHINGTON, Aug. 21.—Separation from one's wife, in the eyes of the law, furnishes no excuse for attempting to separate that wife from her store teeth, even though the husband did buy them and consider them his property. This is the ruling of Police Judge Aukum and as a result, Henry Hardisty is in the workhouse under a thirty-day sentence.

"But, judge, I bought and paid for them," Hardisty expostulated. "The wear 'em, but they're mine."

Judge Aukum declined to accept the husband's viewpoint. Incidentally it was learned that Mrs. Hardisty nearly swallowed the disputed property in her agitation when her husband threatened to separate her and her teeth, through the use of a razor.

Take Some Shots at King and Queen

LONDON, Aug. 21.—Revolver shots were fired by bandits today at King Charles and Queen Elizabeth (Carmen Sylvia) of Rumania, as they were riding in an automobile near Sinaia, a fashionable health resort in Rumania in the Carpathian mountains, according to special dispatches received here. Neither was injured.

Deposits of Crop Moving Fund Made

WASHINGTON, Aug. 21.—First deposits of the government's \$50,000,000 crop moving fund were made today in reserve banks in the southern states, among which were Baltimore, Richmond, Atlanta and Memphis. The three latter each received \$10,000,000.

Baltimore will receive between \$1,000,000 and \$2,000,000 and Chicago and St. Louis will divide in the neighborhood of \$1,000,000.

Robbed Fifty Years Ago, Wants Money

WASHINGTON, Aug. 21.—Nearly a half century ago George Chorn, then a dashing young soldier in the First Massachusetts volunteer infantry lost \$500. Today he wants the government to reimburse him and has appealed to it through Representative Mitchell. The latter is not quite clear as to what can be done for the veteran and as for interest on the amount he has so far balked at any attempt to figure it.

Chorn explains that back in the '50s, just before his retirement was mustered out, he was set upon and robbed by four men of his own company while in camp at Bunker Hill, Md. He was on guard duty at the time. While the identity of the men was known, Chorn alleges there was no court-martial, because of the disbanding of the regiment which then was under way.

HAMBURG, Germany, Aug. 21.—Two automobile bandits this morning visited the Commercial Savings bank at Wilhelmshurg, a suburb, murdered the cashier, and escaped with aatcher full of bank notes and several thousand dollars in currency.

The bandits drove up to the bank in a taxicab soon after the institution opened for business, pointed revolvers at two young clerks, who scurried for shelter. The cashier, an aged man, screamed for help and fought with the two men until he fell with a bullet through his head.

GLYNN DEMANDS THE SURRENDER OF THAW TO NEW YORK STATE

Claimant to Governorship Wants His Man at Once and Lays Claim to Right of Possession.

IS TOLD THAT HE MUST WAIT

To Remain in Canada Until Extradition Proceedings Finished.

DEPORTATION IS CONSIDERED

Dominion Officers Look Upon Prisoner as Undesirable Citizen.

HEARING SET FOR WEDNESDAY

If Released from Custody, Plan is to Take Harry to Coaticook and Then Turn Him Loose on the Border.

OTTAWA, Ont., Aug. 21.—Formal demand for the surrender of Harry K. Thaw was made by telegraph on the Canadian immigration authorities here today by Acting Governor Glynn of New York. The department replied that it would take no action until the present extradition proceedings had been concluded.

The department let it be known that it would seize Thaw and attempt to deport him should his extradition to the United States be refused by the Dominion courts.

If Thaw is set free at Sherbrooke, the immigration act will be applied after the usual formalities. No assurance is given by the immigration department that he will be surrendered to the New York officers. On the contrary, it is understood if Thaw is returned to the United States by the immigration authorities, it will be by way of New York. He will be taken to Coaticook and thence, after the formal inquiry, to the border.

THAW IN COURT WEDNESDAY

Agreement as to Time for Argument on Writ of Habeas Corpus.

SHERBROOKE, Que., Aug. 21.—Harry K. Thaw, Mattawan fugitive, will be arraigned in the superior court here on a writ of habeas corpus at 10 o'clock Wednesday morning next. His counsel agreed to that this afternoon.

Lawyers for Harry K. Thaw, pending for position in his fight to resist deportation to the United States, after his flight from Mattawan, won an advantage in Sherbrooke today by delaying his appearance in the superior court by a writ of habeas corpus. Dominion immigration officials and with them the district attorney and sheriff of Dutchess county, New York, had hoped that Thaw would be produced at 10 a. m., discharged on the present defective commitment and thus allowed to fall into their hands for deportation at a point on the border as yet undecided.

Thaw's lawyers, however, believing in the advantages of delay, declined to serve their writ on the jailer, or as locally known, governor of the prison, and Thaw remained in his hospital ward chatting with his mother-in-law and sister, Mr. and Mrs. George Lauffer Carnegie.

Superior Judge Globensky was sought by the immigration officials and the officials from New York, to insist on the service of the writ, ostensibly returnable forthwith, but the court held that Thaw's lawyers were within their rights.

Thaw's attorneys' victories.

There were no court proceedings during the forenoon, although townpeople jammed the court room. Thaw's battery of lawyers, victorious so far in this strange procedure of keeping their client in jail, agreed to announce this afternoon what disposition they purposed to make of their idle writ. If they still persist in not serving it, the immigration authorities and District Attorney Conser of Dutchess county planned to have the writ declared void and insist on Thaw's arraignment at once, either here or Coaticook, near where he was arrested.

Today the case had reached a stage where the usual returns of parties to a criminal action are absolutely reversed. On the one hand, the lawyers for the prisoner were found fighting hard to prolong his imprisonment, while the authorities, local, dominion and United States were anxious to have him set free, safe in the belief that the immigration officials would seize him and force him across the frontier.

Mr. and Mrs. Carnegie spent nearly an hour with Thaw before noon. "He is looking fine," said the former Margaret Thaw, as she left the jail.

Dr. Britton D. Evans, director of the New Jersey state hospital at Morris

The Manufacturer's Message

When a prominent manufacturer advertises his product in the daily newspaper it means that he seeks a national wide circulation for whatever he makes. He wants people everywhere to know that he has produced something of merit that they want, and that will stand the acid test of publicity.

So he tells his message in the great distributor of news—the medium which, above all others, goes the quickest and furthest into the homes of every intelligent community in this country.

Enterprising merchants knowing the selling value of an article thus nationally recommended and distributed should encourage the reliable manufacturer to advertise in the best newspapers and thus create a demand which insures a ready sale for his product.

Merchants and manufacturers with live-wire problems on their hands are invited to write to the Bureau of Advertising, American Newspaper Publishers' Association, World Building, New York.

The Manufacturer's Message

When a prominent manufacturer advertises his product in the daily newspaper it means that he seeks a national wide circulation for whatever he makes. He wants people everywhere to know that he has produced something of merit that they want, and that will stand the acid test of publicity.

So he tells his message in the great distributor of news—the medium which, above all others, goes the quickest and furthest into the homes of every intelligent community in this country.

Enterprising merchants knowing the selling value of an article thus nationally recommended and distributed should encourage the reliable manufacturer to advertise in the best newspapers and thus create a demand which insures a ready sale for his product.

Merchants and manufacturers with live-wire problems on their hands are invited to write to the Bureau of Advertising, American Newspaper Publishers' Association, World Building, New York.
