## New York. ARGUMENT NO. 6.

There are few carpenters, plasterers and brickmasons in Omaha who have worked every day for the last year Weather conditions have not always been favorable. There has not always been work or there have been labor troubles.

of these men have been cut down ma-terially. Not only have they been forced to suffer, but their wives and children have had to deny themselves because the bread winner did not earn enough

REAL ESTATE. WARM & RANCH LANDS FOR SALE

A Steady Job

The result has been that the incomes

Think of the difference between these men's lot and that of the average farmer. Every day the farmer's land has been getting more valuable. His crops have been maturing and his income has been coming in. At the end of the year the farmer has more ready money than has the city man, and in addition to that he has property that has increased in value and which is able to pa him an income every year for the rest of his life.

This is the big reason why this class of city men particularly should go rack to the farm: You are your own boss when you become a farmer. You in fact, fix your own income. You are independent of everything.

There the land is held at a reasonable figure. It is as fertile as any land my-where and it is fitted by nature for diversified crop raising. The great markets of the world are all around. Trans-

The reason that this land is chear is because the young people of the country have moved to the city. Their paints are becoming old and there is no milet to work the farm. They must soll end must sell quickly. Therefore, however, your opportunity to make the decision and get you a fine farm cheap.

That's what we want to show you come up to our office and let us show you some photographs of this wonderful place and let us prove to you that your opportunity is there. If you cannot come, write us and we will forward literature to you at once.
