## VETS START BIG CAMPAIGN

Five States Enter Popular Men for Commander-in-Chief of G. A. R.

### JOL. C. E. ADAMS IN THE RACE

Banker and Farmer at Superior, with Good War Record, Has Been Endorsed by State Department of Nebraska.

CHATTANOOGA, Tenn., Aug. 23.—Every indication points to a battle royal at the Chattanooga encampment of the Grand Army of the Republic for commander-in-chief. Five states have so far made entries, and each entry is a popular man. The states ready in the contest for the prize are, in alphabetical order, Indiana, Michigan, Nebraska, New Jersey and South Dakota.

The Department of Indiana has endorsed Comrade O. A. Romers, a private in the ranks. Mr. Romers lives at Kokomo, and is a popular man with the members of the Grand Army. He has the active and undivided support of his state, and counts on help from a number of the strong states of the central west, and from every member of the Grand Army to use the words of a friend and supporter, "who believes that the time has come when a private soldier should be honored."

**Nebraska's Candidate.**  
Nebraska has entered the lists with Colonel C. E. Adams, a banker and farmer of Superior, Neb. He is endorsed by his state department, and has a war record linked with the history of the Fourteenth army corps. Colonel Adams won distinction on many fields, is loyal to the Grand Army's interests and a successful man of affairs.

Michigan will come to the encampment carrying the flag of Hon. Washington Gardner of Aibion, the well known editor, statesman, and enter him as a candidate in the service. The only one who with General Sherman during the campaign from Chattanooga to Atlanta and sustained a serious wound at Resaca, which necessitated retirement on an honorable discharge. He was a member of congress from Michigan ten or a dozen years, serving with high honors on a number of important committees, making a national reputation as one of the republican leaders.

### Other Popular Aspirants.

New Jersey's candidate for the honor is Colonel Ralph D. Cole, a popular Grand Army man, who has a creditable war record. He has the endorsement of the New Jersey department of the Grand Army of the Republic and is regarded as the candidate of the eastern section, although sectionalism plays but little part in the selection of the commander-in-chief.

South Dakota has endorsed Captain N. H. Kingman of Selby and will come to Chattanooga determined to land him. Captain Kingman organized a company in the Thirtieth Wisconsin regiment and served with that organization until the close of the war. He has been one of the prominent figures in the Grand Army of the Republic since its organization and his strength is general.

With five strong candidates, said to be the greatest number ever presented before a national encampment, the fight for the honor promises to be spirited and full of interest. It should be explained that these men are candidates in the sense that their respective state departments have endorsed them.

## Hague Conference Records Additional Good Intentions

THE HAGUE, Netherlands, Aug. 23.—The twentieth universal peace congress held its closing today. The delegates voted to hold the next congress at Vienna in 1914 and it was decided to take to that congress the invitation of the mayor of San Francisco to hold the 1915 congress in San Francisco.

The peace congress finished its labors after recording a further series of good intentions and its appreciation of President Wilson's attitude toward peace. The thanks of the congress were communicated by telegram to President Wilson.

The question of the fortification of the Panama canal was resurrected today by Prof. Raymond of Washington and Prof. Slocum of Colorado, who secured the adoption of a resolution asking the United States government not to fortify.

In a resolution delegates expressed satisfaction at President Wilson's proposal for the submission of disputes which could not be settled diplomatically for investigation by an international committee.

**RED TAPE IS STILL WOUND ABOUT THAW**  
(Continued from Page One.)  
That he had retained counsel to defend Thompson and that he regarded the chauffeur as a British subject, and a victim of false arrest. As a matter of fact, Thompson is said to be the son of a Toronto policeman. For years, however, he has lived in New York City. District Attorney Center of Dutchess county, New York, Deputy Attorney General Franklin Kennedy and others concerned in getting Thaw back to Mattawan, are waiting developments, meantime exerting pressure on the Vermont authorities in anticipation of extradition proceedings in that state.

Thaw is petulant today, particularly so over Roger Thompson's declaration that he had been framed into the Mattawan plot. His cell is near Thompson's but they have not tried to talk to each other.

Letters and telegrams of encouragement are pouring in on the prisoner, who is still without personal funds. His creditors appear to be pretty good, though, for imported cigars, candy, trunks and other luxuries are piled on his cot and table. He had trouble sleeping last night and sent for the jail physician to give him a sleeping potion. By the time the doctor arrived at the jail, Thaw had fallen asleep.

Should Roger Thompson decide to give the inside of the Mattawan plot, District Attorney Center will recommend that immunity from prosecution in New York be granted him. Such a confession would greatly strengthen New York state's case. It might be the basis of proving bribery of Mattawan attendants and on their indictment, New York would have an admittedly extrajudicial offense on which to demand Thaw's release from Vermont.

The Persistent and Jaded Use of Newspaper Advertising is the Road to Business Success.

## LETTER INDICATES SMITH'S DESIRE TO KILL WIFE AND SELF

(Continued from Page One.)

the bedroom in which the conversation took place. She told him he was crazy and you don't come home with me I'll shoot you. Do you want me to do that?" Smith said.

"Go ahead," replied the wife, "you have threatened to do it time and again, and I don't think you have the nerve to shoot a mouse."

Scarcely had she uttered the last word when two shots rang out and with a groan the woman sank to the floor. Smith rushed through the dining room and kitchen to the back porch, where from a strip he had brought with him he secured a razor, and re-entering the house, went to the dining room, where with a single slash he cut his throat from ear to ear. Middled, who had been in the parlor crouching behind a sofa, rushed from the house with cries for help.

In reaching the door she was forced to leap over the prostrate body of her step-father. Neighbors who had heard the quarrel summoned the police and Police Surgeon Fochtman.

**Little Chance for Recovery.**  
Both bullets had taken effect, one over the right eye, penetrating the brain and the other lodging in the spinal column, paralyzing the body from the waist down. Mrs. Smith was rushed to St. Joseph's hospital, where little hope for her recovery is vouchsafed by attendants.

Mildred, the daughter, who hardly realizes the seriousness of the affair, is being cared for by Mrs. W. Clifford, 239 North Twenty-seventh avenue. She will remain with the Cliffords until her grandmother, Mrs. George Yarrang of Carroll, Neb., arrives in the city.

The dead man was a carpenter and housebreaker by trade, but for some time had been without steady employment. Besides threatening his wife's life, he had on several occasions threatened that of the little girl, but had never struck either of them.

Coroner Crosby has taken charge of the body and will hold an inquest. The dead man was about 40 years of age, while the wife was 27. Mrs. Smith, up to her marriage about four years ago, lived at Carroll, Neb., where she was a prominent worker in the Methodist church. It was there she was married and about nine months before the tragedy occurred she accompanied her husband to Omaha. Henry Panzer, in whose home the trouble occurred, is employed in the carpet department at Hayden Bros. store. He is a widower and has a family of four grown children besides the 16-year-old boy, George.

## HUERTA CONSIDERS PLAN TO DISPATCH AN ENVOY TO WILSON

(Continued from Page One.)

El Paso via Juarez. Some of the latter already have gone.

Although it was the first permission granted since June 23, and many applications had been turned down, it was declared no change had been made in the government's policy, and officials pointed out that the neutrality proclamation permitted the president to authorize shipments in his discretion.

Unofficially it is said the United States is not averse to having the Huerta faction at Juarez well armed to discourage attack and a battle on the border with its consequent complications. Neither is this government averse to seeing the line of communication between Vera Cruz and Mexico City kept open as an avenue of egress for foreigners in Mexico City. No general shipments will be permitted.

## WORD RECEIVED FROM DIAS

Does Not Deny He is Candidate for Mexican Presidency.

NEW YORK, Aug. 23.—Rumors that General Felix Diaz will not be a candidate for president of Mexico at the election in October are replied to in a telegram from General Diaz himself, received here today, in response to an inquiry by W. H. Ellis, a promoter of Mexican enterprises.

The telegram, dated Quebec, where General Diaz is now staying, reads:

"In regard to your inquiry, so far as I know my partisans continue to work in my behalf."

## INTERURBAN TRAINMAN OF INDIANAPOLIS ON STRIKE

INDIANAPOLIS, Ind., Aug. 23.—A strike of interurban trainmen on the four systems entering Indianapolis, apparently not well organized, went into effect this morning on refusal of the companies to reply to the request of the union's grievance committee for arbitration of demands for a nine-hour day and higher wages.

Police men guarded every interurban car that went out of the city. There was no indication, however, of any trouble.

## ASSESSMENTS OF ALL THE TELEGRAPH COMPANIES CUT

PIERRE S. D., Aug. 23.—(Special.)—The tax commission, after a hearing, has reduced the figures for assessment of telegraph property in the state, having reduced all the lines 2 per cent from the former figures, making final figures:

Western union	\$88,000
Central	60,000
Postal	8,000
Sault Ste. Marie	2,000
Total	\$1,082,700

**News Notes of Clay Center.**  
CLAY CENTER, Neb., Aug. 23.—(Special.)—The Clay county fair closed here last night. For the last three years the receipts were not sufficient to pay the premiums after payment of other necessary expenses, and as a result a large deficit faced the management this year. The receipts this year, however, paid the expenses and the premium deficit for past years. Less money was expended for high-price races and other more entertaining attractions were put on. The Clay county cup in the tennis tournament was won by Beck of Edgar and Hubbel of Dewees in the finale from Corey and Pugh of Clay Center. Harvard won in the base ball tournament.

Acting County Judge J. A. Wheeler assessed an inheritance tax of \$45 against the estate of J. E. Doane, deceased, late of Edgar. His estate was devised to his daughter, Mrs. J. E. Wyrick.

**Time Price Put in Two**  
by using the United States five. They last twice as long. The Clay Rubber company, distributors, 1022 Harvey street.

**Large Lump, Medium Lump or No. 1 Nut at, per ton, \$6.50**

\$6.50—that's the present summer price on "Zeigler" coal—and it buys the Large Lump, Medium Lump, or No. 1 Nut, the sizes most users demand. A price concession on a coal like "Zeigler" is a worth while concession, too, for you get at one and the same time, a coal that is sootless, clinkerless, and almost smokeless. As far as heat units are concerned you won't find a hotter coal on earth than this same "Zeigler." It's warm weather now, 'tis true, but the memory of cold days is still fresh. Buy coal NOW and save.

We will quote you summer prices on genuine Scranton Anthracite a.s.o.

## Metcalfe's Pleased With Reception in Their New Home

Word has been received in Omaha that R. L. Metcalfe, the newly appointed civil governor of the canal zone, with Mrs. Metcalfe and their three sons, arrived at Colon, Panama, August 7. They were met by Colonel Gorgas and Cook in a tug, about twelve miles out from Colon. Upon arriving at Colon they were received by a large contingent of the American colony, where a special train awaited them for the forty-eight-mile trip to Panama City. Arriving at Panama, they were met by the secretary to the president of the Republic of Panama, and were driven in the carriage of the president to their home on Ancon Hill. The house had been prepared for their reception by members of the commission and their wives. The beautiful house was ablaze with light, and every room was filled with flowers, orchids, lilies and roses predominating.

The evening following their arrival, Colonel and Mrs. Gorgas entertained at dinner for Governor and Mrs. Metcalfe. Colonel Gorgas, it will be remembered, is the man in whom the perfect attainment of the canal zone is due. A general reception is to be held in the next week at the Tivoli hotel for the Metcalfes. Mrs. Metcalfe, in a recent letter to relatives in Omaha, comments enthusiastically upon the beauty of the country, the charm and hospitality of the people, Panamanians as well as Americans, and the safety of the social life.

## Conference Over Currency Bill is On

WASHINGTON, Aug. 23.—With the so-called insurgent democrats of the house banking committee routed by the seventy-hour coup in which Secretary Bryan completely endorsed President Wilson's plan for the administration currency bill, the conference today began consideration of the measure and took up the rediscuss features, with prospect of having the completed bill presented to the house early next week. Administration leaders were more confident of harmonious and speedy action.

Objections to features of the bill, the passage of which the Chicago conference of bankers, probably will find expression on the floor of the house and will be presented to the senate banking committee, where most hope of amending the bill centers.

## Modern Woodmen Ignore the Vote

ROCK ISLAND, Ill., Aug. 23.—The count of the advisory vote of the membership of the Modern Woodmen of America was taken today. The voting was a result of the opposition to the increase in rates ordered by the Chicago convention. The results of the voting show that of a total membership of 200,000 but 48,732 voted.

The vote stood: For the old plan, under which the society is now operating, 20,000; for an increase, 10,732; for Chicago plan rates, 8,611; for adequate rates, based on the society's own experience, 3,871; for national fraternal congress rates, 287; for step rate plan, 203. Officials expressed no surprise at the lack of interest shown by the membership as there was an organized effort among the insurgent faction to keep members from voting.

**Fined for Bentrix Bridge.**  
SHENANDOAH, Ia., Aug. 23.—(Special.)—Married one day and arrested for beating his wife the next is the record achieved by Wilbur Hanley of Shenandoah. Hanley and Mrs. Alta Osborn were married Wednesday evening in Council Bluffs. Thursday evening, while on their way to town, he set upon his bride and was pulled away with difficulty by the neighbors. He paid a \$40 fine in police court.

**News Notes of Geneva.**  
GENEVA, Neb., Aug. 23.—(Special.)—A concert was given in the park last night by the orchestra from the girls' industrial school. One thousand people formed the audience. Prof. Le Roy instructed a band at the school as well as the orchestra. Several songs were given also by the girls.

The funeral of Mrs. Anna Sprout was held at the Methodist Episcopal church yesterday. Mrs. Sprout died at Neligh, at the home of her daughter, Mrs. Cook, and the body was brought here to the home of Mrs. W. S. Huston, a daughter. The deceased was over 90 years of age.

**Unionists to Reject Basis of Settlement**  
FLAT RIVER, Mo., Aug. 23.—The local unions of the Western Federation of Miners at Elvins, Desloge and Harlan, Mo., today voted to reject the basis of settlement for the strike in the southeastern Missouri lead belt, as proposed yesterday by the State Board of Mediation and Arbitration. The principal objection to the plan, from the viewpoint of the union men, is the absence of a specific recognition of the union.

If the union vote today at Bonne Terre and other places is against the plan of settlement proposed by the Board of Mediation, another plan will be submitted Monday. If that fails, it is said the dispute may be arbitrated.

## "Here's the Answer" TO THE GREAT HEALTH PROBLEM

## TO DEDICATE KEOKUK'S DAM

Great Power Plant in Mississippi River is Now Ready.

### ENGINEERS' WONDERFUL WORK

Higher Than Pyramid of Cheops, Looks Bigger Than Panama's, Wheels Biggest Ever Made.

KEOKUK, Ia., Aug. 23.—A \$27,000,000 water power dam, the largest in the world, will be dedicated next Tuesday. The celebration opens Monday with Governor's day, when executives en route to the governors' conference at Colorado Springs are expected to attend, but the dedication ceremonies do not take place till the following day. An elaborate program has been arranged.

The total quantity of concrete in this work, all one massive monolith, is almost exactly equal to the masonry in the great pyramid of Cheops. All the work of construction was done under the strict supervision of the United States army engineering corps.

This water power development in the very center of the Mississippi valley, where the states of Iowa, Illinois and Missouri join, in the result of hard work for forty years by the people there, abouts who finally were successful in inducing capital to attempt what for many years was considered impossible or unprofitable. The citizens of Keokuk and Hamilton, Ill., induced congress to pass the franchise act which President Roosevelt signed and then spent four years in trying to find the capital to build the \$27,000,000 plant, after they discovered an engineer capable of constructing it. The work is looked upon by the people of that section as peculiarly their own, although they own none of the capital stock which was subscribed in New England, Canada, England, Belgium, France and Germany.

### Aids Navigation.

Deep water navigation now is made possible for sixty-five miles up the Mississippi, including a stretch of river hitherto impassable except through a government canal with three locks which cost \$20,000 to operate and is rendered unnecessary by the lock and the lake above the dam. The dam is three times as large as the next largest single installation of water wheels in the world. It comprises thirty turbines and electric generators which produce a total of over 100,000 horse power on the shaft connecting them. Besides the dam there is a power house, a lock, a dry dock, a sea wall and an ice tender, all of large construction and with a total length of ten feet less than two miles and a half of massive concrete.

The dam stretches nine-tenths of a mile across the Mississippi from the Illinois bluff into which it is tied to its junction with the power house on the Iowa side of the river. It is fifty-three feet high, forty-two feet wide on the bottom and twenty-nine feet wide on top and consists of 102 arches spaced each thirty feet between six-foot piers. In each span is a spillway thirty-two feet high topped by a steel case eleven feet high. By opening and closing a variable number of these gates the water above the dam is kept

at a certain height and sufficient water for navigation below is always passed through the dam.

### Power House Dimensions.

The power house is a third of a mile long, half a city block wide and as high as a fifteen-story skyscraper, 177 feet. Its basement is massive concrete with passages for the water to flow through the thirty turbines into a tall race along the opposite side, which was excavated twenty-five feet into the hard limestone bottom of the river, into which all the works are keyed. Each water wheel is several times as large in dimensions as the largest ever built before. Half the power house is now completed, and the other half is under way, economy being conserved by starting operation of half of it as soon as possible.

The total quantity of power produced on the turbine shafts on the entire power house is more than is used for manufacturing in Missouri, and one-fourth the quantity used in manufacturing in Illinois, including Chicago and its environs. This water power converted into electricity is intended to be used in manufacturing in the new power zone along the Mississippi extending from Burlington, Ia., to St. Louis, which latter city takes 80,000 horse power of current over a transmission line carrying it at 110,000 volts. Fort Madison, Ia., Quincy and Alton, Ill., and Hannibal, Mo., are other cities in the power zone. It is not the intention to build any more transmission lines than those north and south from Keokuk, which are now in operation. Keokuk and Hamilton, at opposite ends of the great dam, get their current without stepping it up to the high voltage of the St. Louis transmission line.

### Lock Bigger Than Panama.

Below the power house and between it and the Iowa shore is the new lock built by and entirely at the cost of the power company to become the property of the United States upon completion. It was put into commission June 12 and has the same width as the Panama locks and is one-third higher than any one lock on the isthmus, the width being 119 feet and the lift forty feet. Its lower gates are a foot longer and three feet thicker than those at Panama, to enable them to withstand the higher head of water. Between the lock and the Iowa shore is the dry dock, which is not yet completed. It is 1 per cent smaller than the one in the Brooklyn navy yard and, like the lock, becomes the property of the United States when completed.

Along the Iowa side of the forebay is the sea wall of concrete, fifty to seventy feet high, which protects the shore there and especially the railroad tracks, fourteen miles of which were relocated and elevated for the Burlington road in order to get them above the higher water above the great dam. The ice tender is a concrete bridge half a mile long extending from the power house to the adjacent Iowa shore, which will, with the dam, hold the great ice flow on the river in the spring until it melts without breaking up and jamming the dam.

### Shooting for Geneva.

DESHLER, Neb., Aug. 23.—(Special.)—Deshler shutout Geneva at Geneva by a score of 1 to 0. Hansen, pitching for Deshler, struck out seventeen men. Score: Deshler.....4 0 0 0 1 0 0 0-3 1 3 Geneva.....0 0 0 0 0 0 0 0-0 0 0 Batteries—Deshler, Hansen and Durnam; Geneva, Snyder and Knight.

# Warner's Safe Remedies

## ASTHMA

This disease is a spasmodic bronchial affection, closely associated with neuralgia, hay fever and bronchitis. It occurs at all periods of life and is often hereditary.

**Warner's Safe Asthma Remedy** when burned and inhaled, gives prompt relief, and for 26 years has been successful in thousands of cases where all other remedies have failed to produce the desired results. If you avoid exposure to dampness and night air, Warner's Safe Asthma Remedy is sure to afford you permanent relief.

**Relieved in Five Minutes**

Mr. J. Hancock of Wolfston, Mass., writes: "I had Asthma very bad and had to sit up night after night. I could not sleep. I had tried all kinds of remedies but nothing would help. I bought Warner's Safe Asthma Remedy. In five minutes I had breath. I could sleep. I had to be helped. I would not be without it."

Druggists or postpaid on receipt of price, 75 cents.

**EACH FOR A PURPOSE**  
1—Kidney and Liver Remedy  
2—Rheumatic Remedy  
3—Diabetic Remedy  
4—Asthma Remedy  
5—Nervine  
6—Pills (Constipation)  
7—Pills (Bilelessness)  
8—Pills (Blood Purifier)  
Write for free sample giving the number of remedy desired to Dr. J. C. Warner, 238 Rochester, N. Y.

## COL. SAMSON IS A BUSY MAN

Prepares for Big Crowd Monday Night and for the Shows.

### AUDITORIUM FOR BIG SHOW

Representatives Go to Des Moines to See About Securing Attractions for the Big Fall Carnival.

E. H. Mack, postmaster of Bancroft, Neb., called at the Ak-Sar-Ben office and said that he could speak for Bancroft and Pender in the matter of their arrangements for coming to Omaha for the initiation at the Des Moines night. He said he could not give the exact figures, but he knew that those two towns would be represented by a large crowd in the special train that is scheduled to carry the business men of six towns to Omaha that evening for the Des Moines show and initiation.

N. W. Hopkins of Oakland says that Oakland will be represented by a live bunch of business men and that Craig, Lyons and Bertha are getting up large delegations to catch the special train for the evening's entertainment in Omaha at 8 o'clock. The committee will again meet the visitors and escort them to the Des Moines state fair.

The board of governors will not meet Monday evening as three members will be in Des Moines and other members are out of town on other business.

Thirty-two pennants to a block are to decorate the principal business streets of Omaha during the festivities. There will be four strings to a block and eight pennants to a string. This, together with the lighting and the individual decorating the merchants are expected to do on their store fronts, is expected to make a magnificent display for the festival week.

The contract has been let for the printing of the edicts. This was done two weeks earlier than last year.

**No Spectators' Tickets.**  
Secretary Weaver is constantly reminding former members that there will be no spectators' tickets issued for the ball this year and that if they want to go to the ball they had better get their names on the membership roll as soon as possible.

The auditorium has just been leased for the big vaudeville feature that is to be put on this year in the evening. Features of the Irwin Brothers Wild West show, together with vaudeville acts are to make up this evening feature that will afford a place for the crowds to go even in rainy weather.

**Big Tent Show.**  
The contract has been let for a big tent for the hippodrome show on the carnival grounds. The tent is to have a seating capacity of 2,000.

Posters calling attention to the Ak-Sar-Ben festivities are to be placed in every town within 100 miles of Omaha. Five prizes have been offered for the motorcycle and bicycle feature of the floral parade this year. Last year no motorcycles or bicycles took part in the parade. Charles Beason, in charge of arrangements, says that he is particularly anxious to have these get in this year with the most elaborate decorations possible. Many motorcycleists and bicyclists are already planning their decorations. Arrangements for entrance to the parade are made through Mr. Beaton.

**Geneva's Teachers.**  
GENEVA, Neb., Aug. 23.—(Special.)—The roll of teachers for the Geneva schools is as follows: Superintendent, E. M. Chiles; Lillian Krubeky principal; Rita Welch, assistant principal; Ora Burch, Florence Currie, George Stevens and A. Draper, high school; Claire Owens, teacher of music; Wessie Burke, eighth grade; Earl Hill, seventh grade; Emma McGraw, fifth grade; Emma Cumberland, fourth grade; Julia Burke, third grade; Marguerite Mohrman, second grade; Carrie King, first grade; Margaret Vaughn, kindergarten teacher; Helen Edgcombe, the Ward school.
