THE NEW "AUTO INN" GARAGE on Leavenworth street marks another important addition to the industry in Omaha. Equipped to meet all demands in overhauling, rebuilding and storing, the success of this fine enterprise is assured in advance. The men identified with it are masters in their line—thoroughly familiar with all makes of cars, and a corps of expert mechanics to assist—they are bound to grow rapidly and to take their place as one of the largest and best of their kind in the city.

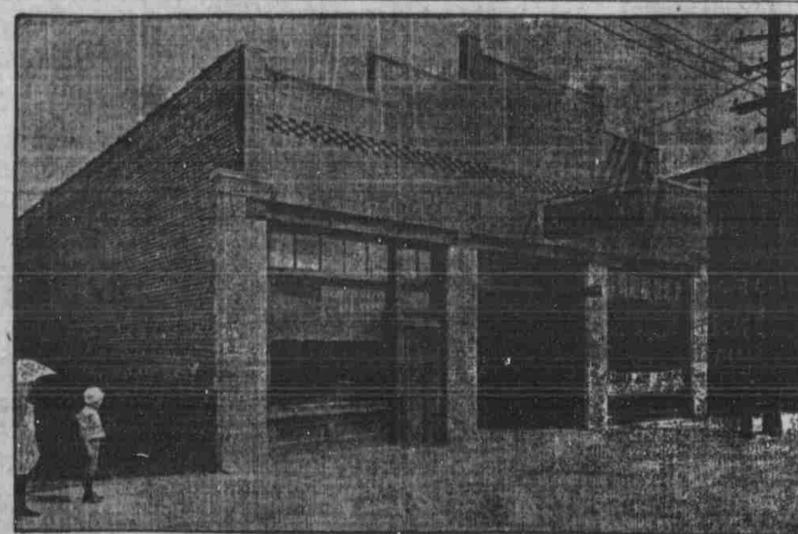

AUTO INN GARAGE

C. R. PFAESTER

NEW AUTO INN GARAGE, LOCATED AT 2816 LEAVENWORTH STREET.

The constantly increasing number of automobiles purchased by Omaha citizens has necessitated the construction of many additional garages and great improvement in this class of building has been noted in the last year or two. Out on auto row are many splendid new buildings constructed exclusively for the housing of automobiles and scattered throughout the city are hundreds of well built garages.

The city. This garage has recently been completed and is equipped to care for a large number of machines in storing, overhauling and rebuilding them. O. C. McCaslin and C. R. Pfasterer, both experienced men in this line, are managers of the Auto Inn and they have surrounded themselves with a corps of expert mechanics. The location is a good one for their business.

NIX ON POLITICS! LET'S TALK BRICK

After a year spent in California, Ralph E. Sunderland is again in the midst of building activity in Omaha. He says he will be too busy selling brick to spend any time with politics, although his interest in Omaha's civic problems has never abated.

TIMELY REAL ESTATE GOSSIP

Omaha Seems to Be Running Strong to Apartment Houses.

RECORD IS MADE IN BUILDING

C. F. Harrison Tells the Winnipeg Convention of the Wonderful Strides Made by This City

Before the snow blows and it is time again to stoke the furnace, hundreds of people of Omaha will be housed in the many elegant new apartment houses that are being built in Omaha. This has been a great summer for the building of apartment houses if one may judge from the crop of these fine buildings that has sprung up in the city. While the building of these structures has been widespread throughout the city the greater part of it has centered between Howard and Douglas streets and between Twenty-fourth and Twenty-sixth.

Within this little area of eight blocks has grown a wonderful crop of apartment houses, most of which are at present nearing completion. The greatest cluster in this group is that on the block bounded by Twenty-fifth street and Twenty-sixth avenue and Farnam and Douglas. Here the Athlone and the Alice, built by the Donahue estate, are nearing completion. They are five-story buildings and the two cover half the block. On the same block three other apartment houses are being built, one of them by Hastings & Heyden. All are nearly completed, with the exception of one, which is going forward with all possible speed.

Has Beautiful Court.
The magnificent Helen apartments at Twenty-fifth and Harney, although they have been in use for some time, are just now being completed, according to the original plans, by the completion of the southeast wing. This gives these apartments an imposing appearance and leaves a beautiful court opening on the south

How Do You Handle Your MONEY?

Do you handle your money like you would handle ours if we paid you a salary—if you worked for us?

Or, do you let your money handle itself, wondering how far each dollar will go to reduce expenses?

MANY MEN are good, honest and faithful managers. They handle their employers' money and affairs diligently, but do not give their own business the proper attention.

YOU SHOULD SAVE

and invest a fixed portion of your earnings each week or month.

DO YOU?—and does your investment net you 7%?—at a guaranteed interest? **SOME BUILDERS guarantee 7%—paid 12% in 1912.**

Better Investigate

now. Shares \$1.08 each. As few or as many of as often as you desire—safe as a bank note. Ask us to prove it.

Be Your Own Landlord

Own Your Home. Don't Pay Rent. Let us show you our easy plan whereby you may become a home owner.

BUILDING LOANS

Money to loan to build houses, to improve business property or to pay existing loans. Borrowers may pay from 10 to 20 per cent on loans on interest dates. Interest ceases on amounts when paid. Loans closed promptly. Your business solicited.

W. H. THOMAS & SON

Douglas 1548. 222 State Bank Bldg.

on Harney street and enclosed on three sides by the five-story brick building. At Dewey avenue and Sherwood avenue Ernest Sweet is just completing a large apartment house and is just starting another. One is on either side of Sherwood avenue at the corner of Dewey avenue. They will be just south of the Macwood apartments.

All the work on the apartment houses is being pushed with the greatest energy in the hope that all may be in readiness to receive tenants by the time the cold weather comes on. In the main there is no question now but that the builders will be successful in this effort. While there are many apartment houses in the city, the tendency during the last few years has been for tenants to leave the older apartments and move to the newer and more up-to-date ones, where the accommodations were better in many respects. Some of the very old apartment houses have kept up to modern improvements by installing all the latest fixtures of modern houses, while some others have clung to old systems of heating and plumbing. It is these things that have caused many tenants to seek the newer apartments in questing about for locations.

The tendency in building apartment houses now is to run them all up to such a height as to get as much room as possible under one roof, it is the economy of building where ground space is valuable and besides it insures coolness in the summer. Thus the newer apartment houses that are going up in Omaha are practically all from four to five and six stories high.

Mr. Chairman, Ladies and Gentlemen—I think it was Mr. Bryce who said that the prosperity and greatness of the United States could only be expressed in pounds or dollars. You will therefore, pardon me if I express the prosperity of Omaha in figures of hope, cheer, alacrity and calm upon which Omaha largely depends for its growth, are in a way very humble products; yet they are the solid things which give prophecy and permanency and enduring growth to Omaha. We do not know what the future growth of Omaha will be, they can be assured of deliveries.

Crowned Fender Feature Spreads.
An advance feature of automobile construction sure to manifest itself in 1914 is the crowned fender. Fines of four manufacturers already have announced this feature. The Chalmers Motor company has recently installed machinery at a cost of \$75,000 to make the new fender which will be used on all 1914 Chalmers cars. Others are devising with manufacturers of pressed steel specialties with a view to installing crowned fenders if the future growth of Omaha will be, they can be assured of deliveries.

There is a Right Face Brick

for your building; a selection which will mark it with appropriate, attractive individuality. Like a well dressed person, a correctly bricked wall is unique, pleasing, right.

The Right Face Brick

for your building depends upon the style of architecture, the position of house, the nature of surroundings.

The Right Face Brick

is on display—waiting for you to call and inspect—at our beautiful new office, entire 3d floor of State Bank Bldg., 17th and Harney Sts.
