CHICAGO GRAIN AND PROVISIONS

Pentures of the Trading and Closing Prices on Board of Trade.

CRICAGO, Aug. 25.—Influential buying in the flant hour turned a weak coin market into a strong one today, prices at the close showing a net advante of the close showing and the close showing a net advante of the close of

provisions irregular and 71% lower to 5c higher.

The uplift in corn today came on reports of scarcity in various sections. Buffele had scarcely a car of spot corn for sale there, Kansas points were said to be out of corn and using wheat for feed, Tennesses farmers reported that io: the first time in the state's history, except after floods, the bottom lands have falled to make a corn crop and from Nebraska came reports of an expert that in the last three weeks the crop there had gone back 24 per cent and that no relief was in sight. Early weakness, due to reports of good weather in most of the corn belt, gave way to strength when some of the leading houses who had been sellers turned buyers. The market closed at or near the high point of the day.

Wheat followed corn, hardening during the last part of the session. There was some buying of wheat for export, casterners taking about 50,000 bushels, and other sales are said to be in prospect. This and the strength shown in late trading by corn offset the essier feeling that had been manifested earlier on reports of fine weather all over the domestic celt. Covering by shorts helped harden prices toward the close.

There was a good deal of selling pressure in oats till toward the close, when some improvement in demand firmed prices.

Provisions were quiet and easy, the

prices.

Provisions were quiet and easy, the best show of strength during the day being on some good buying of pork near the close of the session. Articiel Open. | High. | Low. | Close. | sat'y. Wheat

\*Sunday. CATTLE-Receipts at this point were

"Sunday."

CATTLE—Receipts at this point were the largest any time since the opening of the range season, 500 cars being reported in. The run was larger than a year ago, and for that matter the largest of any day thus far this year. In fact, not since the second day of December has there been as heavy a run at this point as there was this morning. This of itself was a bear feature, and heavy receipts at Unicago and overwhelming receipts at Unicago and overwhelming receipts at Cansas City bad a still further openies in the market. As a result of this situation the market. As a result of this situation the trade here opened slow and duli. Buyers invariably started out by bidding prices that were anywhere from like to as much as 25c lower han last week on the general run of oattle.

First cattle to sen were corn-fed steers of which there was a limited supply, while the demand was quite good. Cattle of this description sold anywhere from steady to possibly as much as 10 lower than last week. The trade on other kinds of cattle continued very slow all the morning, with the prospect that it would be well along in the afternoon before a clearance would be effected.

Range beef steers generally sold 10gilisc lower than last week, while feeding steers were 15gi35c lower, the decline being the heaviest on the heavier and horned cattle. Cows and helfers were 10gible lower, and in some cases there were sales that looked as much as 35c lower. The market on cows and helfers were sales that looked as much as 35c lower. The market on cows and helfers were sales that looked as much as 35c lower. The market on cows and helfers were sales that looked as much as 35c lower. The market on cows and helfers were as a matter of

heaviest on the heavier and horned cattle.

Cows and helfers were logific lower, and
in some cases there were sales that
looked as much as 200 lower. The market
on cows and helfers was, as a matter of
course, weakened by the break on the
cheaper grades of western steers.

Quotations on cattle: Good to choice

HOGS....Supplies were light, there being only about 52 sars, or 3,500 head, on sale. This is sightly larger than last week and a gain of over 1,300 head as compared with last year.

The weakness that featured last week's close was still very much in evidence this morning. Shippers bought a number of loads at quotably steady prices, but there was not a full load of good lights on sale, and several loads of slightly mixed stuff first bids on a 10@15c lower basis. Sellers refused to make any such reduction as this, and as both buyers and salesmen held their ground, nothing was done until a late hour in the forence.

After three hours of apparently useless dickering salesmen finally came to the conclusion that there was no use in fighting the decline any further, and they began to cut loose at practically the same prices as were proposed by buyers sarly in the morning. Trade was very slow and at noon there were still a few loads unsold. Buik of the sales landed at 3/-50 97.56 and the best price paid was \$5.26. No. Av. Sh. Fr. No. Av. Sh. Fr.

SHEEP—On the whole anything on the fat order was bought up pretty freely again this morning, thus showing a continuation of the strength in last week's closing trade. Steady to strong prices were paid for lambs, while what mutton offerings were on sale indicated little change. It was a satisfactory market to the selling interests, as trade at nearly all outside points was reported slow, with an easier feeling as to values. The bullish feeling here was on account of another very moderate supply for the first day of the week at this time of the year and as yet supplies ne better than first day of the week at this time of the year and as yet supplies no better than normal are expected for the rest of the week. The receipts were mostly lambs, there being no more than about five cars of aged sheep in sight. The mutton offerings consisted for the most part of ewes, which found a ready sale.

A range of \$7.2027.55 took most of the killing lambs and several loads sold up to \$7.76, being the top for the day. There was nothing toppy in the aged sheep division. Wethers and yearlings were scarce.

division. Wethers and yearlings were scarce.

There were all kinds of inquiry for feeding lambs as a good many buyers were in from the country and commission men were well supplied with orders. The feeder supply being light considerable competition was apparent and as soon as sorting was finished the feeder and of the shipments found a broad out-

let at good, strong figures. According to weight and quality the majority of the feeding lambs moved at a spread of \$0.500 to 75. Apart from some feeding ewes that brought \$2.50 there were no other again feeder offerings to speak of. Trade was over at a seasonable hour.

Yer at a seasonable hour. The official estimate gave 21,000 head o shorp and lambs as yarded, as against II,812 two weeks ago and 29,781 a year ago. The general quality of the lambs was good.

Was good.

After having been in Omaha dead broke since last Friday Albert Miller of Portland, Ore., is now on his way home with plenty of money in his pocket.

Miller had been over in Illinois visiting elatives. Thursday night he was on an Illinois Central train coming west. At Dubuque he presented his ticket to the conductor and in putting it and the purse in which it was carried into the inner pocket of his vest it slipped through and, unnoticed, fell to the floor of the car. He did not discover his loss until a new conductor came on the train west of Fort Dodge. Then he could find neither

ticket nor money. The conductor telegraphed to Fort Dodge, where the message was turned over to Special Agent Bull, who later arrested Robert Foster, a young man from Galena, Ill., who had been occupy. ing a seat with Miller. A search disclosed the \$75 that Miller had lost, which was sent on to the Omaha office of the Illinois Central and turned over to Miller.

METCALFE SENDS REQUEST FOR NEBRASKA SOUVENIRS

given me by the Nebraska association at Washington. I would like to have the Commercial club, or any of its members, send me something appropriate and attractive which I may either place upon a table or hang upon the walls of this

"I will thank you to bring this to the attention of the members of your or ganization."

OMAHA VETERANS ABSENT FROM TELEGRAPHERS' MEET

Although one or two of Omaha's old time telegraphers had hoped to be able | bales to attend, none will be present when the secretary calls the roll of the members of the Old Time Telegraphers and Historical association at Detroit Tuesday morning, the airst day of the thirty-secend annual reunion. The intense heat of the summer and other circumstances will keep the old timers in Omaha, even though they had been promising them-

selves all year to be present. George W. Naile, an old military tel-

Dry Goods Market.

NEW YORK, Aug. 25.—DRY GOODS—
The downward revisions in the price of standard prints and shirtings was the feature of the primary cotton goods market. There was a steady application by the jobbers for filling-in purposes. The demand for woolen and worsted dress goods was irregular. Japanese raw silk values touched the highest levels since 1907.

Oils and Rosin. NEW YORK, Aug. 25,—COTTONSEED DIL.—Firm; prime summer, yellow, spot, 8.25; September, 8.23; October, \$7.75; De-ROSIN-Steady; strained, common to TURPENTINE-Firm; machine, bbis.

Copper Stocks Relped by the Ad- Troubles that Were Precipitated on Householders When Private Profit Was Left to Arrange the Collection Routes.

traffic would bear. Worst of all, however, was the impossibility of people in the outskirts of the city getting any one to take their garbage away at all at any reasonable price. Complaints came also that garbage haulers would every now and then dump the contents of their wagons into vacant lots or guilles, or oven into sewer inlets, to save taking

them to some distant destination. Various suggestions for better garbage disposal were made, but nothing materialized. The city officials offered as their excuse either lack of legal authority or lack of necessary money. The subject of garbage ever found its way into the political platforms of candidates in the city campaigns, only to be sidetracked or overlooked after election. This period lasted from about 1902 to about 1907, (Another Article Soon.)

SUSPECTS WILL BE HELD

PENDING INVESTIGATION Harry McBride, Keystone hotel, and Harry Smith, 2810 Douglas street, who were arrested Sunday as suspicious char-

acters, were ordered by Acting Magis-trate O'Brien to be held for five days pending investigation of their records. McBride, who has served time in a Pennsylvania reformatory, and was bound over to the district court several months ago for highway robbery, is suspected of having robbed Anton Blieck, 1840 South Thirteenth street, of \$70 Saturday night.

COLEMAN OVERCOME BY GAS FORGETS TO SHUT OFF VALVE

Charles Coleman, 2006 Decatur street, was evercome yesterday by escaping gas in his room. Police surgeons attended him and he is now reported our of danger.

Before retiring Sunday night Coleman rried to light a jet in his room, but the vapor, which is controlled by a coin meter, was not on and he went to bed without turning off the valve. Early this morning some one dropped a coin is the meter and the escaping gas filled ais room.
