tobacco, which can be smoked all day with pleasure. Tuxedo can not bite the tongue; it burns freely and smoothly, giving a cool, sweet smoke.

And thousands of the fans that pack the stands consider their pipeful of Tuxedo as half the enjoyment of their afternoon off.

From the scoreboard man to the magnate in the private box, everybody on the grounds is "catching on to" the supreme merit of Tuxedo.

Tuxedo is made from the finest, mildest leaves of high-grade Burley tobacco, so treated under the famous original "Tuxedo Process" that it burns slow and cool, with a delightful flavor and aroma. The "Tuxedo process" makes it impossible for this perfect tobacco to bite or sting the most delicate throat or tongue.

Tuxedo has many imitators-in outward appearance. It has no equal in the pipe or cigarette.
