One Hour After Delivery of President Wilson's Message on Mexteo, the List Begins to Decline.

Union ravinc, neurithe cross of the day, now York Central, Can, Knieling and various other stocks fed off I to I points and the whole market was heavy at the close.

Mexican afairs retained first place in the demonstration of sentiment. After orders on hand at the opening had been executed the market settled down to await President wilson's message and training came almost to a standard. Delivery of the message made no effect on prices. It was an nour after the message reached the street besofe the list began to decline. Despite this lapse of time, it was the Mexican situation which was clied as the cause. Smedling, which has heavy interests in Mexico, was the weak-est stock among the leaders. The shining appeared to be due, however, less to any alarm over the situation than to selling by bears, who put prices down simply because they had not gone up on delivery of the message.

Union Fachine's decline was influenced by an unfavorable July statement, showing a decrease in net earnings of \$75,60. New Haven again devocoped weakness in the early trading, falling off 2% to a new low record at \$15. United States Express made another low record by falling to \$15.00. Porch Climbers Stopped as Enter Bishop's House

Unmindful that he risked his life, It, C. Caps of Thirty-first and Harney streets walked up to two porch elimbers who were breaking into the home of Bishop A. L. Williams, 815 South Th'rtyfirst street, and ordered them to leave

"Beat it yerself, now, or we'll plus you," exclaimed one of the thieves, ex-hibiting a pistol. Mr. Caps withdrew and called the police, but for some reason the latter did not respond. In the mantime the thieves made their getaway. The two men had elimbed the porch posts and torn off a screen from a window on the second floor when Mr. Cape discovered them. Bishop Williams and his family are at their summer home at Richards Landing, Canada, and in his absence the house is being occupied by George and C. R. Tyner, neither of whom

DO NOT CLOSE SCHOOLS IN

P I BECAUSE OF DISEASE BUFFALO, Aug. 27.-Practical and applied hygiene is much farther advanced in the Philippines than in the United Laughlin, surgeon of the United States public health service, who was one of the speakers at today's sessions of the fourth International congress on school hygiene.

"In this country," said Dr. McLaughlin, "we are prone to overlook the enormous influence of school children upon the hygiene of the home. The children of poor, ill-educated parents are often the intermediary through which the simple gospel of hygier,e and disease prevention reaches the parents. In the Philippines, in many instances, it is only because of the instruction of the health officer.
