ALL NATIONS TO PLAY TWICE WITH THE STORZ TRIUMPHS

The coming Saturday and Sunday will mark the closing of the greatest season of semi-professional base ball ever experienced at Rourke park. As a fitting climax Manager Bradford's Storz Triumphs and the All Nations will battle. Featuring the All Nations' lineup are Donaldson the colored wizard, conceded to be the greatest southpaw in the game today, his color only barring him from being one of the stars of the big show and Senor Mendez the Cuban wonder,

who has the reputation of being the most marvellous all around player outside of the National and American leagues. Manager Bradford is making arrangements to accommodate the largest crowd in the history of the game at Pa Rourke's grounds.

### Millionaire Class.

The purchase of Catcher Burns from Montreal marks the introduction of the Philadelphia club into what Doon terms the "millionaire class."

The Quakers gave Howley, a catcher, two players to be selected by Montreal next spring, and \$2,500 in cash for the young backstop, that being the equivalent of \$5,000 in money. Howley left Philadelphia on August 27 to join Kitty Bransfield's club.

### Hard Plays Look Easy.

There is a rare array of speed in the left pastures of the National league, and for all around value Greater New York has two of the best in Burns and Wheat. Burns, more than any of the others, can make hard catches look easy.

### FREMONT PEOPLE DESIRE BRANCH LINE CHANGE

(From a Staff Correspondent.) LINCOLN, Sept. 10.—(Special.)—The hearing before the railway commission on the application of the people of Fremont for a change in the train service over the Northwestern railway between Fremont and Superior was held this morning.

Ross L. Hammond of Fremont opened the discussion, claiming that a change in time which would bring trains into Fremont earlier in the day and out later would be an accommodation to people along the line of road. E. R. Guernsey, A. L. Snow, W. H. Young and others of Fremont favored the change.

Superintendent Reynolds of the railroad company said that the road was always willing to do anything to improve the service, provided it could be kept within the necessary limit on expenditures.

W. T. Dawson, speaking for the people of Lincoln, said Lincoln wanted the new service because it would enable them to make the trip to Fremont and back in a day without trouble.

S. J. Hyatt, A. T. Hyatt and Charles Stoop and others of David City opposed the change.

Captain Adams and J. F. Silver of Superior did not want the schedule changed. The former said that Superior had paid \$35,000 to get the Northwestern to come to Superior and he did not think it was right for the company to change the service to help Fremont to the detriment of other towns along the line. He said if he lived in Fremont he would start a packing house because there was so much material there to be packed.

It is probable that the new schedule may be put into effect for a trial to test its merits.

### EASTERN NEBRASKA FRUIT GROWERS FILE ARTICLES

(From a Staff Correspondent.) LINCOLN, Sept. 10.—(Special.)—The Eastern Nebraska Fruit Growers' association, which was organized some time ago, has filed its articles of incorporation with the secretary of state. The association has a capital stock of \$20,000 and it is divided into 1,000 shares of \$20 each.

The association is formed for the purpose of educating fruit growers in better methods of growing fruit and taking care of it before it is gathered and in packing the same. The association also assists its members in the sale of its product.

It is said that the association this year has had the effect of getting \$2,000 more for the apples alone raised by its members than they otherwise would have received had they acted separately.

The association is managed by a board of directors consisting of E. M. Pollard, president; C. F. Beck, vice president; Val Keyser, secretary; A. M. Shubert, treasurer; and G. E. N. Saunders, George S. Christie and George Marshall. C. G. Marshall, former secretary of the State Horticultural society, is the manager of the association and the only salaried official of the organization. ### Two Hundred Million Loss by Disease Can Be Prevented

COLORADO SPRINGS, Colo., Sept. 10.—A money loss of \$200,000,000 yearly from disease can be prevented by improved sanitation and proper legislative action, according to Dr. John B. Andrews of New York, secretary of the American Association of Labor Legislation, in an address before the American Public Health association here today. Dr. Andrews spoke on "Occupational Diseases and Legislative Remedies."

Dr. Alice Hamilton of Hull House, Chicago, discussed "Industrial Lead Poisoning."

In the laboratory section interest was aroused by reports on work in diphtheria, sewage and serums.

A new committee was appointed to bring in a slate for officers for the coming year. This committee will probably report tomorrow.
