What Women Are Doing in the World

Woman's club circles in view of the visit of Mrs. Percy V. Pennybacker, president of the Native tion of Woman's Clubs, who

will arrive in Omaha Saturday, October 4. While in the city Mrs. Pennybacker will be the guest of Mrs. W. S. Knight, who is an old friend, and Mrs. C. W. Hayes, president of the Omaha Woman's club An executive meeting of the Woman's club was held Friday and plans for the entertainment were made. If it meets with the approval of Mrs. Pennybacker a breakfast will be given in her honor Monday, October 6, before the first regular meeting of the club, which will be held that afternoon at 2 o'clock. Following the afternoon meeting Mrs. Pennybacker, Mrs. F. H. Cole. Mrs. C. Hayes, the executive committee of the club and delegates will leave for York. Neb., where the annual state meeting of the Federated Woman's Clubs will be pened that evening. Mrs. Pennybacker will be the guest of honor and will address the convention. In a recent letter to the club editor, written at Chautauqua N. Y., the national president says that she is looking forward to her visit in Nebraska, but owing to a long trip which she is about to start she can only say that she sends her greetings to the Ne braska women and hopes to meet then

Another woman of national prominence who will make Omaha a visit this fall is Dr. Anna Howard Shaw, who will be in the city November 5 to address the annual state teachers' convention. Every effort is being made by Mrs. Draper Smith, president of the State Suffrage association, to arrange the annual State Suffrage association convention to be held at this time, if it will be possible for Dr. Anna Shaw to meet with them then. This fall the convention will be held in Lincoln and every effort is being made to make it a brilliant success in every respect, and the presence of Dr. Shaw would add materially to the suc ceasful meeting.

Newest Sensation in Facial Beautifying

(From Beauty's Mirror.)

No beauty discovery within recent years has met with such enthusiastic approval as the parafied plastoid jelly method. The reason for its success is that it reaches the very foundation of most facial deficiencies—restoring youthful contour, bloom and heauty by overcoming the conditions responsible for their loss. This condition is lack of circulation and nerve tone due to ill health or advancing age. Spreading the jelly liberally over face and neck, letting it harden into a mask, brings a healthy blood supply to the dovitalized tissue. This draws in and "firms up" sagsy cheeks, chin or baggy tissue beneath the eyes, obliterates creases and fills out hollows. Paleness gives way to a delicate girlish flush. Even the eyes are strengthened and brightened.

Parafied plastoid jelly, which is entirely harmless, may be found in any drug store, it may be kept on fifteen minutes to an hour, then removed with plain water. Since nothing is left on the skin, the rejuvenated countenance bears no evidence of artificiality.—Advertisement.
