CHICAGO GRAIN AND PROVISIONS

Features of the Trading and Closing

Prices on Board of Trade.

Prices on Board of Trade.

CHICAGO, Ill., Sept. 17.—Corn took the lead today on 'change and brought about nearly an all-around advance. The reason was that consignment of corn dropped off sharply from many districts which have recently been heavy shippers. A net gain of %c to 'ke was scored by corn. Wheat finished unchanged to &c higher than provisions unchanged to a rise of 25c.

Unmistakable strength showed itself

and provisions unchanged to a rise of 25c.

Unmistakable strength showed itself in corn from the start. The prolonged rains were said to be delaying shelters, and there were reiterated assertions that the crop would not exceed a radically low estimate. Eastern cash demand was also said to have improved to a considerable extent.

It was not much of a flurry, however, until receivers began to explain that offerings from many quarters in the country were failing away in a surprising style. After that, no important reaction took place.

Dressmakers Figure Some Coin Spent for Personal Adornment

CHICAGO, Sept. 16 .- There are a few women in Chicago who spend \$75,000 in personal adornment, according to an estimate submitted at the semi-annual convention of the Chicago Dressmakers' club today. The dressmakers figured that the average factory girl spends \$3.84 a week for clothing.

These figures were arrived at by aver-

aging the estimates made by the various delegates. The table reads:

declared that many working girls lose money because they don't know how to make their own clothing.

Spectacular Performances of Reading Stands Out Conspicuously.

OTHERWISE LITTLE ANIMATION

New Haven Shares Touch New Low Level for Year, Going Over Two Points to Eighty-Eight and Three-Eighths.

NEW YORK, Sept. 17.—The spectacular performances of Reading stood out conspicuously today in a stock market which otherwise displayed little animation. Trading in Reading in the first hour was the heaviest which has been seen in any one stock for weeks. The rise before the opening here of over two points in London, following the sharp upturn in this market recently, caused excited speculation in the stock. The first transaction was a block of 11,000 shares at 1694g13893. The quotation was run up quickly to was a block of 12,000 shares at 1604,60169%. The quotation was run up quickly to 170%, the highest figure of the year, a level over ten points above last week's low, and a gain on the day of 2%. There Reading's boom came to an abrupt end. The price fell back a point and trading grew quieter.

The general market was affected unfavorably by these gyrations. It was held that Reading's rise represented merely a severe squeeze of the shorts, and little weight was attached to the bullish rumors put out concerning possible

merely a severe squeeze of the shorts, and little weight was attached to the bullish rumors put out concerning possible increased dividends, large earnings and segregation of Reading assets, involving a stock distribution. Operators refused to follow Reading by bidding up the rest of the list and sold stocks instead. The hesitating tendency at the opening soon gave way to a definite movement downward. Later, when dealing in Reading resumed normal proportions, there was a corresponding improvement in the tone of the market.

Union Pacific, the Seaboard issues, Great Northern Ore and the Petroleum stocks led in the rise, with some showing of strength in other quarters. The market gradually grew heavier as the day advanced, however, and in the last hour was under pronounced pressure of the day.

following the announcement that only the regular dividend had been declared by the Reading directors, the stock lost what was left of the day's gain and some-thing more.

what was left of the day's gain and something more.

Reading shares were especially heavy, and the collateral 4's lost three points.

New Haven touched a new low level during the year, going over two points to \$3%.

Time money rates remained at the recent levels, but call money was firmer, rising to 3% per cent.

Bonds were heavy. Total sales, par value, \$1,50,000.

United States bonds were unchanged on call.

Balloon Carried Up;
Falls 500 Feet; Dies

WOODSTOCK, Conn., Sept. 17.—Thirteen-year-old George Bernier, who was holding a guy rope to a balloon while it was being inflated preparatory to an ascension at a local fair this afternoon was suddenly carried 520 feot in the air and then dropped to instant death in front of the grandstand, where 5,000 people were assembled.

In order to secure a better hold on the guy rope during the inflation of the balloon, the boy wound the rope about his wrist several times. When the balloonist, Harold Gates of Newburyport, Mass., started his ascension the boy did not have time to unwind the rope and was carried swiftly upward, dangting by one hand. Gates was not aware of the boy's predicament until the rope had unwound fitself and the boy was dashed to death.

CATTLE-Cattle receipts were large again today, but none too large to supply the spiendid buying demand. Buyers of all classes of stock were out early in the morning and everything in sight had changed hands before 10 o'clock.

Corn-fed beef steers were in dight supply and were very free sellers at prices that were 10c or more higher than yesterday. Whatever weakness may have been shown by yesterday's market was fully made up today.

Western beef steers were in moderate supply as compared to the demand and the offerings were enapped up about as fast as buyers could get at them. The prices paid were strong to 10c or more higher as compared with yesterday.

Cows and heifers were in splendid demand and they, too, showed about the same advance as beef steers, being around 10c higher, with everything selling early.

ing early.
Stockers and feeders were sought after and the market was strong at yesterday's

and the market was arrong at yesterday's figures.

HOGS.—Receipts were estimated at 116 cars, or 7,700 head, making the total for the three days 15,497 head. This is slightly smaller than last week, but 1,000 head heavier than for the same days of last year year The market opened out in very much

The market opened out in very much the same way as on previous days of the week, packers being very backward about taking hold. Sellers were of the opinion that values should be some higher, but packers started out bidding steady prices, and first sales were made on this basis. A little later on bids on the heavy and mixed kinds strengthened slightly and some sales of heavy mixed slightly and some sales of heavy mixed stuff looked to be almost a nickel higher, but the greater part of this advance was due to the improvement in quality, and making this allowance prices were at no time more than a shade higher than

Tuesday's average. Trade was very drassy throughout and it was well along towards midday before anything like a clearance was made. Buik of the sales was made at \$7.0027.55, the same as on Tuesday.

Shipping demand was very slack again today and while several loads of lights mixed hogs went to the shippers at firm prices, the better grades of lights were more or less neglected. While there was nothing fancy here a number of loads of fairly good light stuff were included in the offerings, but the best price paid was \$8.25.

Representative sales:

198 20 5 76 15. 100 ... 6 35 32.

## Beef from Argentina Sells for Low Price in New York Market

NEW YORK, Sept. II.-The consignment of 100 tons of Argentine beef, which arrived here Monday, the first big shipment ever brought to the United States, all has been disposed. Part of it was sold to dealers in this city and found its way into the retail trade. When sold as Argentine beef the consumer got the benefit of a 4-cent reduction on pound. The meat sold so well that butchers are beginning to inquire for it. but they will have to wait for the next
