

SERIOUS SIDE OF GARBAGE

Problem Must Be Dealt With in the Light of Experience.

OMAHA FACE TO FACE WITH IT

Collection and Disposal of City's Refuse Ought at Least to Be Made to Pay for Its Own Cost.

(Concluding Article of Series)

The principle of the new garbage disposal plant in New York, located on Barren Island, is the same as that in operation in Columbus, O.; Boston, Mil- bourn and other cities.

The non-condensable and inert gases pass on to a gas-tight furnace equipped with crude oil burners of sufficient capacity to maintain a temperature of 1,500 degrees Fahrenheit and thus destroy the remaining odors before the products of combustion pass into the stack.

Where the Money is Made. Heretofore New York's garbage had been disposed of through municipal agencies and productive, it is said, of fabulous graft at the city's expense.

The contractor's chief source of revenue comes from the process of steaming the garbage, separating the oils and fat to make soap and grease and pressing and drying the residue for manufacturing fertilizer.

Omaha's Trick Not Unusual. Omaha has had no more difficulty with the garbage situation in the years gone by than New York, proportionately. It is a problem in all cities that have not reduced it to a scientific, sanitary basis.

For sixteen years previously New York has been paying from \$1,000 a year upward to private concerns for the disposal of its garbage.

One thing is certain, when the people of Omaha have come to the point finally of deciding this question for themselves, they should not allow anything but the very best interests of their city to animate them.

That you can do by riding yourself of the cancer. Weak, sluggish, inactive kidneys allow the acid crystals to circulate in the blood, and these leading to the joints and muscles, cause rheumatism, lumbago, and stiff, swollen, aching joints.

ISSUE CALL FOR TENNIS AND DEBATING MANAGERS

A call for candidates for the positions of tennis manager and debating manager and assistant, has been issued at the high school and marks the beginning of these activities for this school year.

Heretofore tennis, as a school activity, has never been entered upon except during the latter part of the spring, because of the lack of suitable courts.

Mr. Reed of the school is at present in correspondence with a number of towns which Omaha High has debated in former years, and a schedule of debates will be arranged within the next few weeks.

COMMERCIAL SCHOOL GIRLS TO ORGANIZE CULTURE CLUB

A meeting was called yesterday for all girls attending Commercial High school who are interested in organization of a new social culture club.
