THE younger members of society are anticipating the entertainments to be given this year by the Junior club. This popular club of young men plans to have a banquet Monday evening, the 13th, at the Country club. This will be a stag affair and they plan to make arrangements for the winter dancing parties at this meeting. There will probably be an election of officers and some new members added.

The first dancing party will be in November and will be an informal affair at the Country club, partly in honor of the debutantes.

The largest affair which the Junior club will give will be the Christmas party, December 23, at the Hotel Rome. The younger married set will be the special guests at the holiday party, and it is planned to have about 100 guests and members present.

Following the holidays the club plans to give some informal parties, including roller skating and theater parties.

F. W. BASON AT FORT SCHOOL

Union Pacific Expert Selected to Assist Principal Gepson.

SCHOOL IS EXPECTED TO GROW

That the Teacher Should Keep a Line on the Boy After He Completes His Work in the School.

F. W. Bason, fitted by twenty-five years of experience as a practical mechanic for the position, has been selected by Superintendent E. U. Graff and President E. Holovitchner of the Board of Education to assist Principal E. D. Gepson of the Fort special school for boys.

Mr. Bason's salary has not been agreed upon, but it will be fixed at about \$1,500 a year, according to Superintendent Graff and Dr. Holovitchner. This is less compensation than he is receiving now as general supervisor of apprentice instruction for the Union Pacific railroad.

It is the hope of the Board of Education to make the Fort school one of the largest factors in the city in educational work among boys. It is said to be probable that in time 300 or 600 will take advantage of the opportunities there to secure a "practical education." Superintendent Graff believes an invaluable aid has been secured in Mr. Bason.

During the last week Superintendent Graff and Mr. Bason, assisted by Principal Gepson, have thoroughly investigated conditions at the Fort school. Concerning the plans for the institution, Mr. Bason said:

"This school will in time be a wonderful thing. We have been planning for new machinery and new courses. I am a practical man and I see in this school the opportunity for unlimited good work."

To Move Family Here.
Mr. Bason is now living in Chicago, but intends to move at once to Omaha. He has been with the Union Pacific for nine months, prior to which time he was with the Illinois Central. He is an expert mechanic in fifteen different trades. He can construct a locomotive from the ground up. In his position with the Union Pacific he has charge of all boys.

Mr. Bason has worked in nearly every state in the union and has handled boys of a hundred cities. One of his theories is, and he has put it into practice, that the instructor should not condescend his work when the boy is dismissed from school, but should supervise his efforts for a year or two after he graduates to make sure that he is progressing.

Dr. Holovitchner said:
"Bason is just the man we've been looking for. The only reason he would accept the position is that he can build a permanent home here. He is much pleased with the prospects and believes the school is destined to do a great work."

There are now twenty-five boys in Fort school. Principal Gepson says fifty can be cared for in the present buildings. This number will be enrolled before the year is out. A new building will eventually be erected for the school, the purpose of which is to help boys who are not proficient in academic work.

RETURNS FROM BOSTON TO ASSIST HIS FATHER

Mother of Sixteen Children.
"I am the mother of sixteen children and have the praise of doing more work than any young woman in my town," writes Mrs. C. J. Martin, Boone Mill, Va. "I suffered for five years with stomach trouble and could not eat as much as a bit without suffering. I have taken three bottles of Chamberlain's Tablets and am now a well woman and wish my friends I can eat anything I want to, and as much as I want and feel better than I have at any time in ten years. I refer to any one in Boone Mill or vicinity and they will vouch for what I say."

Strong Allegations Made in Divorce Case by Mrs. Dodd

Allegations that his relations with another woman have been improper, and that he has treated his wife with extreme cruelty are made in a divorce suit which was started against Dr. Clinton Q. Dodd, practicing physician of Bridgeport, in district court yesterday.

Mrs. Mae Dodd, who is now living in Omaha, charges improper conduct on the part of the doctor and another woman on August 11 and numerous other occasions, and asserts that he has used violent language to his wife.

Mrs. Dodd married her husband November 23, 1907, in Omaha. She asserts that he has property and money to the amount of \$30,000, and asks \$15,000 alimony. There are no children.
