BANKERS SHY AT CURRENCY
 State Association Has Little to Say on Money Bill.
WADE DELIVERS HIS ADDRESS
 Makes Slight Criticism, Which Does Not Draw Forth Much Talk from Members—J. R. Cain is Elected President.

(From a Staff Correspondent.)
 LINCOLN, Sept. 26.—(Special.)—The discussion on currency at the state banker's convention today which had been looked forward to with considerable interest because it has been rumored that the state bankers would take issue with the national bankers, was not up to the expectations as far as the "scraps" was concerned.
 Very little discussion was had after Festus J. Wade, president of the Mercantile Trust company of St. Louis had delivered his address on "Banking and Currency Legislation."
 While Mr. Wade believed that the currency bill was the best bill of the kind ever written, he said in his speech that he was opposed to it for the reason that it does not admit to the organization of the proposed board of control any state bank or any trust company and also the number of reserve banks provided for in the bill.
 Cain Made President.
 J. R. Cain of St. Paul was elected this afternoon as president of the association and the board of directors will consist of R. O. Marnett, Nebraska City; W. H. McDonald, North Platte; C. H. Cornell, Valentine; T. L. Davis, Omaha and George J. Adams, Benders. These officials select the secretary and treasurer.
 At noon today the attendance at the seventeenth session of the State Bankers' association had reached 86, and names being still added.

District Court in Merrick County

CENTRAL CITY, Neb., Sept. 26.—(Special.)—District court is in session this week, Judge Thomas presiding. The first case coming up Monday was that of Jess Hedrick, a prominent real estate dealer of our city, as plaintiff, against J. W. Harndon, T. W. Costello and the Maryville Mercantile company, a corporation, Missouri, defendants. The jury brought a verdict in favor of the defendants. The testimony involving the trading of a stock of goods for some of our valuable Merrick county land was very voluminous and the case was strenuously contested from start to finish. It appears that the Maryville people had commenced suit at the end of the line and, on the other hand, Mr. Hedrick had commenced suit here, and it was a race to see which side would secure the first listing. The case was set for trial in the Maryville court for September 26, and the case here was set for the 22d, thus gaining precedence by three days. The attorneys for the plaintiff were J. C. Martin, E. E. Ross and John Patterson, and for the defense Charles G. Ryan of Grand Island, assisted by a Missouri attorney.

ALMA FRUIT FARM IS IRRIGATED FROM A WELL.
 ALMA, Neb., Sept. 26.—(Special.)—Senator John Cordeau of McCook was in Alma Thursday looking over W. A. Sharpnack's irrigation plant just south of town, getting information in regard to irrigation from wells. He was greatly impressed with what he saw. Intensive farming is Mr. Sharpnack's hobby. He irrigates his vegetable and fruit farm from one well. The water is pumped from the well into a reservoir with a gas engine outfit. From this it is carried underground to all parts of his farm to tile, and when the water is turned on it comes to the surface through pipes and the land flooded as desired.

Land Registration Begins at Valentine October 13

VALENTINE, Neb., Sept. 26.—(Special.)—On October 13, 1913, will begin the registration at this place for the land that was the old military reservation where Fort Niobrara was located. The registration will continue till October 23, giving twelve days for the people wishing a chance at the land to register. Valentine will be well able to take care of the crowds that are expected, as everything is being done in the way of getting things ready to accommodate the people that will come to register. As the land is only a short distance from the city, it is expected that most of the people coming will stay long enough to go out and take a look at it, as it is well worth the trouble as it is some of the very best of land and there has been nothing done with it at all since the abandonment of old Fort Niobrara several years ago. There are 43,000 acres of the land to be drawn, some in it in quarter-sections and some in Kinkaid's.
