3-in-One for Cleaning and Polishing Furniture.

Nothing in the world does it better or quicker. Easy too: Put a few drops of 3-in-One on a cloth wrung out in cold water and wipe a moderately small surface at a time. Dry and polish with a soft woolen cloth or a bit of cheese cloth. This will remove finger marks, smoke stains, grime and dirt, leaving the original color of the wood and a lasting lustre. Always rub with the grain of the wood, never in circles.

3-in-One Kills Friction Everywhere.

It helps laundry machinery, takes the irritating squeaks out of rusty door hinges, makes a food chopper chop faster and an ice cream freezer freeze smoother. In fact, there isn't a place where wood or metal come together or turn on one another, that 3-in-One doesn't ease the turning. Try on all light mechanisms, tools, bolts, clocks, etc.
