

OMAHA PROUD OF SCHOOLS

City Offers Exceptional Advantages to Seekers of Knowledge.

RECOGNIZED MUSIC CENTER

Advanced Studies Are Taught in the Universities and the Preparatory Schools Are Accredited Everywhere.

Many scholars boast that they are graduates of eastern universities and many musicians boast that they have studied under noted European musicians, but a complete education in Omaha may be obtained.

The biggest educational institution in Omaha is Creighton university, a Catholic school, regulated under the auspices of the Jesuit society, and offering a completed academic curriculum as well as courses in law, medicine, dentistry and pharmacy.

The college was named in honor of Count Creighton, who contributed freely to the support of the school and furnished the buildings in which the classes are taught.

The public school system in Omaha is superb. Large schools with complete equipment and competent teachers makes the elementary training of the child the best that can be had.

For the student who wishes an advanced musical education, Omaha is an ideal city. Teachers of music, vocal and instrumental, who have received the most complete of musical education, who have natural musical talent themselves, who have had years of experience at teaching and who are well versed in the technique of the art, have their studios in Omaha and they have been instructors to many a talented boy or girl who made a name in after years.

Omaha has several musicians who rank at the top of the list in the records of the country's musicians. Omaha is blessed with many teachers of stringed instruments and hand instruments who are recognized the country over.

Other educations besides professional, technical, academic and business may be secured in Omaha. A Presbyterian seminary is located in Omaha and half a dozen students become ministers every year.

Bellevue university is so close to Omaha that it may well be termed an Omaha school. Bellevue has all the advantages of the larger school for academic education, but has no college. Bellevue and Omaha both support foot ball teams and, although neither school has the success in that line that Creighton has, both play good games and play some creditable schools.

In the war of preparatory schools

Omaha is extremely fortunate. Brownell Hall is one of the best girls' schools in the west. Many students board at Brownell Hall who are from cities and states hundreds of miles from Omaha.

High School Efficient. The Central High school in Omaha is the second biggest in the United States and is accordingly efficient. The courses of study are far more complete than the courses of most high schools and several departments, for instance the department of chemistry, are superior to departments in some of America's universities.

In addition to the Central High school is the Commercial High school, a recent project which has already proven successful. Over 500 boys and girls are receiving a business education that will benefit those who are unable to continue their school work in the university.

The public school system in Omaha is superb. Large schools with complete equipment and competent teachers makes the elementary training of the child the best that can be had.

Omaha has better business colleges than almost any other city in the union. Boyles college is one of the large colleges of the country. Students from miles around receive their business training at Boyles. Advanced stenography, bookkeeping, telegraphy, English, commercial law and salesmanship are all taught by competent instructors.

For the student who wishes an advanced musical education, Omaha is an ideal city. Teachers of music, vocal and instrumental, who have received the most complete of musical education, who have natural musical talent themselves, who have had years of experience at teaching and who are well versed in the technique of the art, have their studios in Omaha and they have been instructors to many a talented boy or girl who made a name in after years.

Omaha has several musicians who rank at the top of the list in the records of the country's musicians. Omaha is blessed with many teachers of stringed instruments and hand instruments who are recognized the country over.

Entertainers Who Will Appear in Y. W. C. A. Course

Dorothy North

Louise Wallace Hackney

Mr. and Mrs. Michitazo Ongawa

The Young Women's Christian association is offering a course this year to furnish, primarily to its members, such popular entertainments as a business girl will enjoy after her day's work.

The opening number is by Enrico Palmetto, tenor, on October 13. Mr. Palmetto has earned the title of "Danish Caruso" in Europe; and in America—

his appearances have everywhere been uniformly successful.

The second entertainment will be a dramatic reading of "The Milestones" by Louise Wallace Hackney, on December 8. This play is one both new and popular. Until this year it has not been seen outside of New York and Chicago.

The most unique entertainment is a musical Japanese sketch, "Along the

Road to Tokio," by Mr. and Mrs. Michitazo Ongawa. Mr. Ongawa is a descendant of the noble family of Samurai, while his wife is an American girl with a charming mezzo soprano voice.

Barbara West, contralto, who appeared in Omaha last June with the Minneapolis Symphony orchestra, will give the fourth number on February 15. Miss West has firmly established herself in the estimation of the critics as a singer

fully competent to meet the demands of the most exact. Her voice is full, pure, rich and absolutely contralto in quality. Her personality and manner of singing are most charming.

The final number on March 9 will be given by Mrs. Dorothea North, soprano. Mrs. North is a former pupil of Alexander Heilmann, Stern conservatory, Berlin, and has had several years of successful concert experience in Europe and America.

BIG ENGINES AND BIG TRAINS

Heavy Locomotives Have Mighty Pull and Out Transportation Cost.

The introduction on some roads which have heavy grades of huge locomotives with enormous hauling capacity illustrates the effort being made for a degree of efficiency that will offset increasing cost of transportation and the more pressing demands of traffic that has to be handled.

work of four engines of average tractive power.

The record has been made on the deep-water division between Elmore and Clark's Gap, for a distance of fourteen miles against a grade for the last eleven and one-half miles of 2.67 per cent, or about one foot in forty-nine.

Recently a Mallet on the Santa Fe drew a train 4,000 feet long, or nearly a mile, consisting of 100 loaded cars, weighing 4,81 tons at twenty miles per hour on a 4 per cent grade.

state commission and other sources of information has increased as follows: 1900, 25,255 pounds; 1905, 34,624; 1910, 27,252, 1911, 27,949; 1912, 25,877.

Four-cylinder compound locomotives, the most powerful recorded in connection with the statistics of the commission, increased from 24,245 pounds tractive power in 1907, to 32,440 in 1912. In 1911 the comparison was destroyed by the addition of Mallet compounds which for that year had an average of 18,625 pounds.

ninety-nine loaded freight cars (ninety-eight of which were loaded with cantaloupes) 111 miles in five hours, including stops and delays, the train being said to be the longest ever run in Texas. On the Erie a Mikado type of engine pulled over the New York division a loaded train of eighty-three cars, weighing 6,000 pounds, 2,429 being revenue freight.

To make possible the economies obtained with big locomotives and big cars widespread changes have been required throughout railway plants. Roads have

been completely rebuilt with sturdy 160-pound rails, steel bridges have replaced wooden structures, better ballasting has been done, wider clearances provided, better signalling, as well as more efficient braking control, more rapid handling of coal and water made possible by improved methods and appliances and a myriad of other improvements installed.

Brief Decisions. There is always something to learn about a man beyond the details in a letter of introduction. Efficiency experts can get points by watching the methods of some women in managing their husbands.

The Perfect Car. "This story of yours is all right," said the editor, "but your description of the hero's automobile is simply impossible. If there was an automobile made as perfect as the one you describe, I'd buy one tomorrow. Where in the world did you get your ideas?"

Can't Help But Admire Babies

Every Woman Casts Loving Glance at the Nestling Cuddled in its Bonnet.

This is a most wonderful external help to the muscles and tendons. It penetrates the tissues, makes them pliant to readily yield to nature's demand for expansion, so there is no longer a period of pain, discomfort, straining, nausea or other symptoms so often distressing during the anxious weeks of expectancy.

Ak-Sar-Ben Pennants!

They are beauties both in design and coloring. You can have your choice of a red, yellow or green one, for only fifteen cents and a Bee coupon at The Bee office.

EVERYBODY will want a pennant for Ak-Sar-Ben Carnival. It will be the fad to carry them all week, and to decorate business places,

autos and homes with them. By using all three colors, they make most attractive window displays.

Besides the Ak-Sar-Ben pennants, we can supply you any of the following at the same price of only fifteen cents, when accompanied by a Bee coupon: Nebraska, Iowa, Missouri, Minnesota, Yale, Harvard, Princeton, Cornell, Knights Templar, Shriners, Masons, Eagles, Knights of Columbus, Odd Fellows, Modern Woodmen, Woodmen of the World.

They are handsome, exclusive designs, beautifully embossed on college felt, size 15x36 inches, usually sold for seventy-five cents and one dollar.

A Bee pennant coupon will appear every day on page 2 of The Bee. Cut them out and save them. You will need one coupon for each pennant, and YOU WILL WANT THEM ALL.

Advertisement for The Modern Funeral Home, featuring LEO. A. HOFFMANN, Founder of the business, located at 24th and Dodge Streets, Omaha. The ad highlights the quality and economy of their services, including expert embalming and funeral directing. It also mentions that Hoffmann furnishes service with quality and economy, and lists various funeral services offered.
