The Dyspeptie's Dream Is a Good Meal

He Could Most Completely Enjoy It If He Ate a Stuart's Dyspepsia Tablet After It.

One of the greatest horrors to dyspep-sia sufferers is the fear of food conse-quences. They know from past exper-iences that meats, vegetables and fluids will not agree with them. The stomach tells them so and thus after awhile they actually learn to abhor such dishes. But often in their drawns they exper-ience the joys of eating a hearty soup-to-nuts meal of the good old fashioned kind. When they awake the old fear is still with them.

"Me could eat a meal like that if he look a Stuart's Dyspepsia Tablet,"
Of course this fear of food is natural.

Of course this fear of food is natural. It arises from an abused and diseased digestion, but the moment you put into the stomach along with the food you eat the very elements that will digest the meal you will suffer no evil effects, and thus lose your fear of food.

Such elements are contained in Stuart's Dyspepsia Tablets and they are so powerful and yet so thoroughly natural that of themsalves, when placed in a glass tube with a mixed food, they will actually digest that food.

More than the mere act of digesting the meal eaten, they go into the blood and thus enrich all the digestive machinery of man so that when the next meal is eaten the fluids are stronger and more capable of doing their work.

A little Stuart Dyspepsia Tablet taken after each meal will quickly restore the dyspeptic's digestion so he can enjoy the meal of his droams in reality.
