AFFAIRS AT SOUTH OMAHA

Free Land in Nebraska Attracting Attention of Many Men.

SEEK TO BE IN AT DRAWING

Tradesmen, Politicians and Laborers Looking with Anxious Eyes Toward the North Platte Forest Reserve. With their eyes fixed upon the fancy prices brought by beef cattle at the local yards, many South Omaha men are waiting eagerly to take their chances at getting a piece of land at the drawing to be held this month for the North Platte forest reserve. The land fever has affected men in all grades and lines of life in South Omaha. Peking house laborers and professional men, politicians and stockmen, merchants and tradesmen are preparing to get back to the land if they can win at the approaching drawing. One packing house man has saved enough money to make the trip and to pay his filing fee in the hope of winning a home where he will be able to work for himself and not for a corporation. "It's a gamble," he said, "but it's the best I can do. I hate to pay carfare out there, though, when I could so much easier apply from home if the laws were otherwise."

Among the stockmen the desire for cheap land is noteworthy. They all recognize the fact that cheap land means cheap beef. They have before them everyday object lessons of the success of the stock growers. The large commission firms and the stock yards officials are inclined to look upon the large range holders as being more desirable as beef raisers, claiming that the Kinkaiders and small ranchers cut up the ranges and reduce the grazing lands generally without producing any adequate return.

Already a number of men have left for the northwest section of the state, where they expect to file on claims or be in at the drawing. Others will leave in a few days. Armour's New Dining Hall. At the cost of several thousand dollars Armour & Co. have just completed the erection and equipment of a new dining room for the use of their employees. The new dining room is situated over one of the plant's viaducts, with plenty of light and air and built of fireproof material according to the officials at the plant. The new room is specially equipped for the women employees of the plant. Besides a dining room where the workers may eat in sanitary surroundings, the new addition to the plant provides wash rooms and a modern sanitary toilet for the women.

RED LARGE PIMPLES ALL OVER FACE

Festered and Came to Head, Scratching Made Sores, Caused Disfigurement. Used Cuticura Soap and Ointment. Face Now Clear.

1413 E. Genesee Ave. Saginaw, Mich. — "Cuticura Soap and Ointment cured me of a very bad disease of the face without leaving a scar. Pimples broke out all over my face, red, and large. They festered and came to a head. They itched and burned and caused me to scratch them and make sores. They said they were seed warts. At night I was restless from itching. When the barber would shave me my face would bleed terribly. Then sores would form afterwards, then they would drop off and the so-called seed warts would come back again. They were on my face for about nine months and the trouble caused disfigurement while it lasted. "One day I read in the paper of the Cuticura Soap and Ointment. I received a free sample of Cuticura Soap and Ointment and it was so much value to me that I bought a cake of Cuticura Soap and a box of Cuticura Ointment at the drug store. In about ten days my face began to heal up. I kept on using Cuticura Soap and Ointment and in a very short time after, the sores dropped off the red spots where they were vanished also. My face is now clear of the warts and has a scar is left." (Signed) LeRoy C. O'Brien, May 12, 1912. Cuticura Soap 25c. and Cuticura Ointment 50c. are sold everywhere. Liberal sample of each mailed free, with 32-p. Skin Book. Address post-card "Cuticura, Dept. T, Boston."
