In the second hour the market fell back again and business virtually ceased. Prices were on a dead level until shortly before the close, when there was another smal upturn. Final changes among the leading stocks were unimpor-tant. Tobaco issues were exceptionally weak. Lard: Arkansas. OMAHA, Oct 7, 1913 The larger holders of wheat at Chicago and other markets have been promising for at least a tortnight that the north-western movement would fall off sud-denly and perceptibly. The receipts yes-terday, however, were 1,663 cars, and while this was nearly 200 cars short of a week ago and 600 cars smaller than a while this was nearly 200 cars short of a week ago and 600 cars smaller than a while this was nearly 200 cars short of a week ago and 600 cars smaller than a while this was nearly 200 cars short of a week ago and 600 cars of wheat between that city and points several hundred miles north also that with terminal fa-cilities for unloading the grain now wait-ing at Minneapolls and Duluth the re-ceipts would show an increase over those of corresponding periods. Winnipeg re-ceipts were 39° cars larger than hast year hans have fallen in the southern hemis-phore where needed, and the markets of the old world were nearly all lower be-aressure there of second-hand Manitoba wheat, and continued iree offerings from susta at lower prices. McGee Keal Estate Co., 106 Pearls St. Council Bluffs. Maplewood tant. Tobaco issues were exceptionally weak. The significant feature of the day was cesation of the liquidation in Iron and Steel stocks, which had been driving them down for several days. It was the opinion of some traders that selling of these stocks, particularly United States Steel, had been overdone, and covering of shorts was the main factor in the morning advance. Aside from the main source, bidding for the stocks was small and after the covering movement ceased the market wa salloewd to take care of itself. \$450 to \$600 Sid.

The Orange Judd Farmer, in a special article says that the new crop of wheat is late in being seeded, but with reason-ably favorable weather and soil, there will be an increase in the acreage. Speculation in wheat favored the bear side yesterday, and total losses of Sidfac were made for the day. The bulls in telling their side of the possible changes in wheat point to the increased clearances from our shores to the high land and occan freights, and to the orobability of the bear campaign being abruptly checked shortly. There is no doubt that the bears in wheat have han-died some paper profits and it is ex-pected that they will endeavor to force prices still lower. 2,015 Lowered prices at all other points and 4,000 a fairly generous local supply made buy-ers very bearish this morning, and they started out bidding at a decline of about 200, Outside of a few loads picked up by shipper buyers and one or two sales made to packers real early in the morning nothing was done for nearly two hours. By this time prices had picked up a little and the supply started moving slowing, at a decline of fully 15c and in some cases as much as 15000. These prices prevailed until all orders were filled when, with quite a number of hogs still unsoid, buyers became very indifferent and bids slipped back to their early basks, that is, fully 20 lower. CHICAGO, Oct. 7.-Improved demand for hard winter grades for export and milling had much influence today in ral-lying the wheat market. Closing prices were firm at %@%c to %c higher. Corn finished %c to %@%c up and oats with a gain of %@%c, but provisions were 12% @17%c down. Active call for United States hard win-ter wheat developed quiet unexpectedly, both here and southwest. The grain, which was unusually heavy and dry, seemed to be meeting with special favor in Europe, rivalling Canadian spring. Sales of the hard winter today com-manded the best premiums of the sca-son up to now. @1746 down Warranted to Give Satisfacilya. **Gombault's Caustic Balsam** Sales of the hard winter today com-manded the best premiums of the sca-son up to now. Assertions that receipts northweat would continue to diminish helped to lift wheat prices. The arrivals today were only two-thirds of those of a year ago. A big increase of the world's available supply, however, had counted in favor of the bears, and there wers advices of beneficial rains in Argentina. Spasmodic weakness from such causes disappeared entirely though in th elast hour, chiefly on account of the better export and milling call. Corn, after suffering a' sharp break, underwent a strong upturn. Rain that was said to be damaging forage in (Kan-sas and elsewhere was responsible for the buge. There were reports, to, that Argentina corn arriving in New York was in poor condition. An early setback in prices came mainly through aggressive short solling on the part of pit traders. in the morning and the forenoon was well advanced before buyers and sellers got together. There was a fair demand for beef steers, although buyers did not appear as anxiour for supplies as on some days of late. Still it was very evident that they wanted the cattle, and desirable kinds, at least, sold in about the same notchen as yesterday. There was, in fact, little change in the market. Good corn fed beeves sold as high as \$0.55. Cows and helfers, like beef steers, were a little slow, but still there was a rea-sonable inquiry and the prices paid did not show much change. Good stockers and feeders were also steady with yester-day, but the demand was not very ur-gent and the trade as a whole was a little slow. Inferior and common kinds were very dull and weak.
