MR. HOMER CONANT of New York, formerly of this city, is spending a few days here visiting his mother, Mrs. M. H. Conant. Mr. Conant has just returned from a stay of several months in Paris, where he has been continuing his work as fashion artist. His description of an apartment in Paris designed by Paul Poiret, who is at present the rage in Paris and New York, is both unique and interesting.

"This apartment," says Mr. Conant, "is most weird; it is like many of the costumes designed this season by Monsieur Poiret, for he gets his inspiration from the Perstans. The carpet of the living room is black, and on this are green rugs. In one corner of the room is a Turkish couch covered with gold cloth, and the couch pillows are of the same. The walls are hung with wonderful tapestries, and the furniture white enamel, with elaborate Persian designs done in oriental shades of red, blue and yellow. The stairway is also unusual—Vermillion red, with a Persian design. The bath room is black and white tiling, with the Roman bath sunk into the floor, and the light coming from the ceiling."

Paul Poiret designed the costumes for some of the recent operas in Paris. They are said to be most original and attractive. While some of the models are quite startling, others are of a style demure and modest. Among the Poiret models worn in Omaha recently were: A simple white evening gown worn by Miss Frances Nash; this has a tunic of white and the bodice is mostly dainty white tulle. Miss Helen Cudahy wore a dainty pale green model of charmeuse, with the angel sleeves and bodice of tulle. Mrs. Olive Watson of Lincoln has a more elaborate model of brocade crepe and velvet in shades of apricot and cream, with trimmings of black and white tulle.

IF BACK HURTS BEGIN ON SALTS
Flush your Kidneys occasionally if you eat meat regularly.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which clogs the kidney pores so they sluggishly filter or strain only part of the waste and poisons from the blood, then you get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, get about four ounces of Jad Salts from any reliable pharmacy and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then see fine. This famous salt is made from the acid of grapes and lemon juice, combined with bicarbonate and has been used for generations to flush clogged kidneys and stimulate them to activity, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which all regular meat eaters should take now and then to keep the kidneys clean and the blood pure, thereby avoiding serious kidney complications.—Advertisement.

RUMPUS OVER VACCINATION

Burdin, Board of Education Member, Demands Practice Stop. SAYS CHILDREN ARE POISONED. Confers with Graff and Holovitchner, Who Will Lay Question Before Judiciary Committee for Immediate Action.

A. J. Burdin, member of the school board from the Fifth ward, has called a halt on vaccination, in the public schools, following the wholesale inoculation of Monmouth Park school children with anti-amalpus serum. Burdin held a conference on the subject for two hours with Superintendent E. U. Graff and Dr. E. Holovitchner, president of the board.

"The whole matter will be put up to the judiciary committee of the board," said Mr. Burdin. "It is time to stop this sort of thing. We have gone on the presumption that children must submit to vaccination when in fact there is no legal reason why they should and there is, from the standpoint of hygiene, no reason whatever for such a practice. I have always opposed vaccination and it is opposed by reputable physicians, who admit it is simply a method of overcoming one poison with a more powerful poison. I have seen children crippled, losing the use of arms; I have seen them suffer from the effects of vaccination and I am at a loss to understand why the people permit it to go on."

Superintendent Graff and Dr. Holovitchner would not discuss the ultimatum issued by Mr. Burdin. They refused to admit that the question of vaccination was discussed.

"We are holding a little conference to see how far we could go in the matter of open schools," said Dr. Holovitchner. Mr. Burdin said compulsory vaccination was an abridgement of the freedom of the people guaranteed by the constitution of the United States. He said: "A free people should be allowed to select their own physicians, their own medicine and their own manner of treatment with as little restriction as they should be allowed to select their food. We are vaccinating hundreds and thousands of children in this country every year without just cause. It ought to be stopped."

Mr. Burdin is not a member of the judiciary committee, but he probably will go before the committee and fight out his case there, and, losing with the committee, says he will carry it before the board.

JOHN GAARD GETTING WELL; BOY ASSAULTERS LET GO

Edward Minikus, Harold Johnson, M. A. Dora, Fred Compton and Edward Carvill, the five lads who on the evening of September 20 assaulted John Gaard, an expressman, at Twenty-fourth and Leavenworth streets and seriously injured the man by striking him on the head with a brick, were discharged in police court. The discharge came as the result of Gaard's failure to prosecute. Mr. Gaard has about recovered from his injury and owing to the fact that the Minikus boy is a relative of his he decided not to push the case against the boys.

Dog Brings Letter from Himself to the Acting Mayor

A proof-stepping Boston bull terrier walked into Acting Mayor Dan B. Butler's office with a sealed packet in his mouth, wagged his head and delivered the message. The packet was a photograph of the dog, the property of C. M. Dietz, and the message was the following letter from "Punch," the dog himself: "After several thousand years' devotion to mankind we are glad to recognize a true friend. May you live to rule over many men and never forget the rights of your best friend, the dog." Butler recently declared he was opposed to muzzling dogs and Punch, representing several thousand canines, called to thank him for the kind expression.

GERMAN CLUB AT BELLEVUE HOLDS ITS FIRST MEETING

The German club of Bellevue college held its first meeting Wednesday in Lowrie parlors. The affair was to organize the students, more than a formal meeting, and Miss Carter, head of the German department, assisted by Prof.

Peters, entertained. An animated German conversation was preliminary to a musical program which was, of course, from the German masters. Miss Hamblin sang a German version of the old lullaby, "Rock Me to Sleep," which was well received. Following this solo all the guests joined in a general songfest, after which refreshments were served. Everyone had a splendid time and if all the meetings are like the first, the society will be an immense success.
