Lawyers and Free Justice.

A hot debute is on in Kansas City over the proposal by the leading Star, that justice be made free to the extent of the state furnishing the lawyers for all litigation just as it now furnishes the judges and the Thirty Years Ago juries and the stenographers. The lawyers naturally do not take kindly to the idea which, if it accomplished its object, would put most of them out of business. The nub of the the following:

Many complain that vice spreads to the 'best residence districts." Tell me why "best residenter" has any more right to have it kept from his neighborhood than the poor who must neighbor with it if "segregated," when it is more brazen and permittous. "Best residenter" has probably helped bring on the bad condition with his vote, and he probably can fight it better than the wretched poor farther down town. In either case it's pitted against a mother trying to bring up clean sons and daughters against frightful odds. Authorities also agree that the way to fight it is through education, to brush from men's minds the old lies that have been invented by ignorant men (probably M. D.) to justify their polygamy. And in the meantime the state has no business to go into partnership with it and if half the state were women it certainly wouldn't.

Mistakes, however, are liable to occur in the most carefully planned projects or enterprises. All Nebrasks, though it is an Omaha affair, would greatly regret to see the great festivity of Ak-Sar-Ben go out of commission. But there can be no dodging the fact that some of the closing features of the 1913 Ak-Sar-Ben was of such a character that hundreds of good people all over the state were more or less disgusted. We have heard persons make the statement that this year's Ak-Sar-Ben would be the last for them, until the moral standard had been raised to an altitude where the air of refinement was more in evidence; and it may take some pretty strong promises from the man agers to that effect to insure the usual large attendance during the festivities of 1514 Let King Ak-Sar-Ben beware and

Meaning of Columbus Day. cern the national indifference to the day Americans are naturally jubilant in view ing the events in the roign of freedom on their own soil and throughout the world. However, they refuse to celebrate Columbus day with native animation and enthuslasm, because the sense of the vocasion vividly awakens in the national consciousness the clanking of the chains of inedievalism, enslaving mankind to both state and church. Americans reverently pay tribute to Columbus as a great explorer, but they cannot consistently cele brate an occasion the sense of which is abhorrent to the national mind and incompatible with the ideals and teaching of the republic and destructive of its freedom and progress. A nation cannot become antipodal to itself even for a day of jubilation and celebration. However, Americans can and should relebrat Columbus day with appropriate sentiment. On the recurring anniversaries of the occasion Americans should cause the church and civic belis of the nation to peal forth the ring of liberty, calling its inhabitants to the temples of God, and there the nation, bowed in solemn prayer. fervently thank Almighty God that Christopher Columbus did not discover the continent of North America and dedicate it to the sovereignty of Spain, but that n wise and beneficent Providence gave
