CHICAGO, Oct. 23.—After undergoing considerable depression today, wheat railled when increased receipts at Minneapolis and Deluth were explained as due to a temporary cause the clearing out of many railroad side tracks. The market closed firm, a to is over yesterday. Corn finished is to issue of provisions dearor by 2% to 124,018c.

Bears had their own way most of the time in the wheat pit. To such an extent was this the case that they oversold at the bottom prices reached, and it took only a little antagonistic leadership to start a scare of shorts near the end of the session. Earlier in the day, however, sentiment was dominated by the fact that instead of arrivals diminishing northwest, the number of loaded care coming into terminals had been heavily enlarged.

Furthermore, cable quotations were disappointing to the bulls, and there were advices that Russian received.

heavily enlarged.

Furthermore, cable quotations were disappointing to the buils, and there were advices that Russian stocks were increasing at a rapid rate.

Encouraging demand for cash wheat helped to lift the option market. Sales to mills were 14,000 bushels and Baltimore announced that export bids were only half under the asking prices.

Husking reports that repeiled short sellers turned the corn market upgrade, but not until the buil leaders did considerable in the direction of reducing holdings. Fine weather was responsible for much of the selling, and there were seaboard advices of continued sales of cargoes from Argentina. Oats developed strength owing to Buffale dispatches, which told of poor condition shown by Canadian shipments. Cash house here were active buyers.

Commission house demand for lard put backbone into provisions. The market received aid also from an upturn in the price of live hogs.

at all decent at logilic advance in prices. Among the early sales were some native lambs at \$7.00, range ewes at \$4.75 and some range wethers and yearlings at \$4.50. There were no strictly choice killers offered. Today's market makes the trade for the week steady to strong with last Friday.

Activity was the market feature in the feeder division and prices improved anywhere from 10c to Ec over yesterday's prices. Good feeding lambs moved around \$6.0000.25, being quoted by most sellers as about 100's clower than the close of last week. The common grades were regarded as showing a decline of 200200 during the week. There has been little if any change in aged feeder offerings all the week, quotations being practically the same.
