OBJECTION TO SEGREGATION PLAN

Proposition to Separate White and Negro Employees of Government Departments is Denounced.

KANSAS CITY, Oct. 27.—The National Council of Congregational churches today appealed to President Wilson to use his influence to prevent separation of negro and white clerks in government offices throughout the country, when it adopted unanimously a resolution proposed jointly by Rev. A. G. Grinner of Washington, D. C., and Rev. H. H. Proctor of Augusta, Ga., negroes.

Dr. Grinner explained that the resolution was prompted by the recent separation of negroes and white clerks in the government office in Washington.

Endorsement of the Protestant Episcopal church's plan to send a commission to Great Britain to create interest in a world conference of religion looking to the unity of all churches, was given by the council when it adopted a favorable resolution.

The council applied to the city of San Francisco and the board of directors of the Panama exposition to adopt during the exposition every means to prevent the exploiting of the exposition by commercialized vice.

MISSIONARY DEFENDS HUERTA

Rev. John Howland Says Mexico Should Not Let Alamo.

KANSAS CITY, Mo., Oct. 27.—Defense of Provisional President Huerta's administration in Mexico and denial that the executive had a share in the murder of former President Madero and Vice President Suarez was made by Rev. John Howland of Guadalajara, a missionary, in an address before the annual meeting of the American Board of Commissioners for foreign missions held in connection with the national council of the Congregational churches here today.

He also paid strong tribute to the rule of Porfirio Diaz as worthy of the great eulogy. "He made a nation and destroyed a people,"

Dr. Howland has lived for thirty-one years in Mexico as head of the Colegio International at Guadalajara. "The widespread idea that General Huerta seized the presidency," said he, "or that he came in through the door of assassination is entirely incorrect. His acceptance of the presidency preceded his government was established and both officially and popularly accepted days before the death of President Madero.

"Huerta had nothing to gain by the death of Madero. President Madero left the treasury bankrupt and revenues were immensely reduced by the closing of most of the ports of entry, the interruption of traffic and general disturbance. The hostile attitude of American authorities against General Huerta caused the bankers who had arranged a large loan to be repudiated, and this has greatly impeded the pacification of the country. Mexico should be left alone. It is well able to take care of itself."

The American board of commissioners for foreign missions carries on the foreign missionary work of the Congregational board in America, having been founded 100 years ago. Today's sessions were given over to men from the foreign fields, who told of their work abroad.

Mr. Howland said that if there was no reason for such intervention, Mr. Howland said that the "United States has made Mexico an enemy by its dictatorial attitude."

Friendship and Equality. "In the future," he continued, "the nations to the south of us will draw closer and closer to us because of those circumstances of which I am speaking. We must prove ourselves their friends and champions on terms of equality and honor. We can't be fast friends on any other terms than those of equality. And we must show ourselves whether they are prebending their interests or not. It is a very perilous thing to determine a foreign policy in terms of material interests. It is indeed a degrading thing.

"The development of constitutional liberty and world human rights, the maintenance of national integrity as against imperial interests—that is our creed. I want to take this occasion to say, too, that the United States will not again seek to secure one additional foot of territory by conquest. It will devote itself to showing an honest and fruitful use of the territory it has and it must regard as one of the duties of friendship to see that from no quarter are material interests made superior to human liberty and national equity.

"I say this merely to fix what our real relationship should be. It is a relationship of a family of mankind devoted to the relations from which human liberty springs. (We have seen material interests threaten constitutional liberty in America, so we know how to sympathize. I would rather belong to a poor nation that is free than a rich nation which has ceased to love freedom. Morality and not expediency is the thing that must guide us, and we must never concede iniquity."

The president's speech was constantly interrupted by applause. He rode through crowded streets bowing and nodding to cheering throngs.

Hobson Elected Life Member of W. C. T. U.

NEW YORK, Oct. 27.—Congressman Richard Pearson Hobson of Alabama, who introduced a resolution in congress to prohibit throughout the United States the sale of alcoholic liquors was today elected a life member of the World's Woman Christian Temperance union at its convention here. The action was taken on motion of Mrs. A. K. Wiebel, head of the Alabama delegation, who announced that the woman's Christian Temperance union of that state would contribute his \$100 membership fee. The convention thereupon voted to send \$100 to Hobson to be used in his temperance campaign in Alabama and the delegates from Maine, Pennsylvania and Kentucky contributed \$50 more the same purpose.

Announcement that the organization would work for state laws requiring a three to five mile zone of prohibition around all government reservations was made by Mrs. Ella Hoover Thacher of Washington, D. C., head of temperance work among soldiers and sailors.

"The United States has had a dry canteen for many years and we are going to keep it dry," she said. "We have a temperance administration now and Secretary Garrison stands firm on the question, so that now is the auspicious time to work for these state laws."

Mrs. Sarah L. Bertholter of Philadelphia, in charge of the department of school savings and thrift, announced that more than \$2,423.93 had been saved by school children in the United States in the last twenty years in the school savings banks organized by the woman's Christian Temperance union.

"This saving system has proved to be a great damper to the cigarette habit," she said.

Rosalind, countess of Carlisle, was today re-elected president of the organization, and Mrs. Lillian M. N. Stevens of Portland, Me., vice president. Miss Anna Gordon of Evanston, Ill., was re-elected secretary and Miss Mary E. Sanderson of Canada, treasurer.

The convention will close tonight.

Culbertson said he had a wife in Nebraska, but did not want to give her address. He denied ever having been married to or acquainted with Mrs. Dillon, the murdered woman. His story is that he was working in Canada and was making toward home. He had a little over \$30 in his possession and expressed a desire to send it to his wife. He claims to belong to the Modern Woodmen of America and the Ancient Order of United Workmen.

Ida C. Culbertson of Dorchester, Neb., claims to have been married to Cleve for the last six years in a telegram received here giving the description of her husband which tallies with the man held for the crime. In the telegram Mrs. Culbertson claims that Cleve was not previously married, although there is very strong evidence that he was the former husband of Mrs. Dillon, who it is believed he murdered for revenge, and that Lela Marsh, whom he also murdered, is his daughter, and that he formerly went by the name of Marsh at Omaha, Mrs. Dillon's home, where relatives now reside.

A wedding picture found in the Dillon home at Ray shows that the man in the photo with Mrs. Dillon bears a striking resemblance to Culbertson. Advice from Dorchester state that legal aid will be given Culbertson, who, it is said, has been absent several months seeking his fortune in the west.

When Culbertson was brought before Mr. Dillon, the dying man, he declared that he had never been at the Dillon home and had never seen Dillon before. Neighbors state, however, that he stopped along the route the afternoon of the murder inquiring the road to Dillon. Mr. Dillon, when the accused was brought before him, said: "You are the man who shot me in the back and you killed my wife and the girl. Why did you do it?" To which Culbertson replied that he knew nothing about it.

The prisoner at Williston appears to be much rattled and frightened. His name is Cleve Culbertson and his home at Geneva, Neb. An identification card, taken from him, issued by the

Mrs. Pankhurst is Refused Permit to Take Up Collection

INDIANAPOLIS, Oct. 27.—Mrs. Emmeline Pankhurst, the English suffragette, will not address the Women's Franchise League of Indiana in this city, as had been planned. The engagement was cancelled today by the league officials.

The reason given was that Mrs. Pankhurst asked that she be permitted to take up a collection at the meeting. In addition to the stipulated sum which she had first agreed to accept for addressing the league, Mrs. G. M. Henderson, secretary of the league, said the English militant would not be allowed to take up a collection and the engagement therefore was declared off.

Vanderlip Defends His Scheme for Bank

NEW YORK, Oct. 27.—Frank A. Vanderlip, president of the National City bank, issued a statement this afternoon in reply to one issued in Washington yesterday by Carter Glass, chairman of the house banking and currency committee.

"I regret," says the statement, "that the chairman of the house committee on banking and currency feels that I have drawn a red herring across the path of currency legislation. If a plan for a government controlled central bank is a confusing factor in the political situation, the men who are responsible for it are members of the senate committee on banking and currency. I have been merely acting at their request to draft a plan which would embody principles which they firmly held.

"The proposition of a government controlled bank, giving to all borrowers the same rate, originated with members of the senate committee, not with me. Nothing can be further from my purpose than to confuse the legislative situation. My while aim is to be co-operative and to do what I can to help work out a plan that will be both sound economically and meet every political tenet that the dominant party holds."

Big Eaters Get Kidney Trouble

Take Salts at First Sign of Bladder Irritation or Backache.

The American men and women must guard constantly against kidney trouble, because we eat too much and all our food is rich. Our blood is filled with uric acid and the kidneys strive to filter out, they weaken from overwork, become sluggish, the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy, full of sediment or you are obliged to seek relief two or three times during the night; if you suffer with sick headache or dizziness, nervous spells, acid stomach, or you have rheumatism when the weather is bad, get from your pharmacist about four ounces of Jad Salts take a teaspoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys, to neutralize the acids in the urine so it is no longer a source of irritation, thus ending bladder disorders.

Jad Salts is inexpensive; cannot injure, makes a delightful after-dinner little-water beverage, and belongs in every home, because nobody can make a mistake by having a good kidney flushing at any time.
