TALKED AS MUCH AS THOMAS

Complaining Schoolmaster's Loquacity Tell-Tale in Itself.

ALL HIS ENEMIES IN THE CLUB

Kearney Normal President Was Bitterly Opposed Only by Those with Whom He Would Not Consort.

(From a Staff Correspondent.)

LINCOLN, Neb., Oct. 27.—(Special.)—The Lincoln members of the Schoolmasters' club who feel so agitated because The Bee has shown up the workings of the club, might be charged with the same offense that is charged in responsible for the removal of Dr. Thomas, that of "talking too much." This member, whoever he may be, says that Thomas was kept out of the club because most of the club did not want him in and each time his name was proposed he was voted down without a question as to how he stood with the members of the club. The way he puts it is that six black balls was enough to keep a man out, but in his opinion there was never enough black balls in the box to go around whenever Dr. Thomas' name was proposed.

A Peculiar Condition.

This presents a peculiar condition of things, according to a friend of Dr. Thomas. He has lived in Kearney thirteen years. He is beloved by all who know him. His standing in the community is above reproach. Men who have done business with him all that time are his warm supporters. As he goes out over the state he is greeted on every hand with a warm shake of the hand and feelings of good fellowship. His only enemies to be found are the gang of educators who run the schoolmasters' club. The only reason that he can give for their enmity to Dr. Thomas is that he has fought the club in educational politics. The only reason the members of the State Normal School board can give for Dr. Thomas' dismissal from the board is that he "talked too much." He has been open in his fight against the schoolmasters' club only so far as its power in the state goes as a political party and its connection with a certain book trust. For this he must be thrown out of the position he holds as the most successful normal school president the state has ever known and the state suffer by the loss. At the schoolmasters' club is not in politics.

A Political Macabre.

There is a law adopted by the State Teachers' association that no man or woman who is not directly engaged in educational work can become president of the Nebraska State Teachers' association. President Thomas of the Kearney normal is a candidate for that position and with a group following him just before the time for holding the meeting and the election the State Normal board, composed of two members of the schoolmasters' club and with the other two who voted with them directly interested, Dr. Thomas is removed from a position and thus made ineligible to the office of president of the State Teachers' association. And yet the schoolmasters' club is not in politics.

Appoints Miss Lathrop to Take Place Vacated by King.

(From a Staff Correspondent.)

LINCOLN, Oct. 27.—(Special.)—State Treasurer Walter E. King, one of the members of the State Normal board who opposed the removal of Dr. A. O. Thomas as president of the Kearney Normal, received a petition this morning signed by thirty-five business men of Ogallala, asking that the normal board hold another session and give Dr. Thomas a chance to appear and answer to any charges which the board might desire to make which would tend to disqualify him from continuing as president of the school.

SILVER CREEK WANTS BANK

George W. Creemen and Others Desire to Organize State Bank in Merrick—Fire in Soldiers' Home.

(From a Staff Correspondent.)

LINCOLN, Oct. 27.—(Special.)—Pending the completion of the elevator in the state house the war between the state board of public lands and funds and the war department over the removal of the latter to the top floor of the statehouse is quiet. Both sides slept on their arms over Sunday and hostilities will not again start until the board moves on the adjutant general's office and demands a surrender. He will not move because of a big case of war relics built in the room which could not be moved without destroying it.

Teachers Do Not Like Precedent in Case of Dr. A. O. Thomas

CAMBRIDGE, Neb., Oct. 27.—(Special.)—The Southwestern Nebraska schoolmasters met here Saturday evening for the first banquet and program of the year. The principal address of the evening was delivered by Superintendent C. E. Benson of Lexington. Prof. Benson compared education in the east with that of the west. He said we have a very good educational system here, but that our educators are not awake to the best methods for taking care of the physically and mentally deficient. He advocated that all children so far as possible be educated alike until the sixth grade and then they should receive a test and from that test we should determine to what kind of a school to send them the remainder of the time in school. He argued that it was a waste of time and money to teach Latin and the classics to a boy who is only adapted to use carpenter's tools.

Bank Asks Charter.
